*Abstract:* Under Title 28, U.S. Code 534, Acquisition, Preservation, and Exchange of Identification Records; Appointments of Officials, this collection requests Part I offense and clearance data, as well as stolen and recovered monetary values of stolen property throughout the United States from federal, state, county, city, tribal, and territorial law enforcement agencies in order for the FBI’s Uniform Crime Reporting (UCR) Program to serve as the national clearinghouse for the collection and dissemination of crime data and to publish these statistics.

**Overview of This Information Collection**

1. *Type of Information Collection:* Extension of a previously approved collection.
2. *The Title of the Form/Collection:* Return A—Monthly Return of Offenses Known to Police and Supplement to Return A—Monthly Return of Offenses Known to Police.
3. *The agency form number, if any, and the applicable component of the*

*Department sponsoring the collection:* Form Number: 1-720 and 1-706. Sponsor: CJIS Division, FBI, DOJ.

4. *Affected public who will be asked or required to respond, as well as the obligation to respond:* Affected public: Federal, state, county, city, tribal, and territorial law enforcement agencies. The obligation to respond is mandatory for federal agencies and voluntary for non-federal agencies.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The FBI’s UCR Program continues the transition to collect data solely under the National Incident-Based Reporting System (NIBRS). Until the transition is complete, updates and new submissions from those agencies still reporting via the Summary Reporting System (SRS) are being accepted. In 2024, there were 19,328 law enforcement agencies actively enrolled in the FBI’s UCR Program (*i.e.*, the universe of potential respondents). Data submissions from approximately 2,381 law enforcement agencies reporting under SRS totaled 60,447 in 2024. The estimated response time for the Return A is 10 minutes and that for the Supplement to Return A is 11 minutes. To provide a singular calculation of the estimated burden, the approximate minutes per form used for the combined collection is 10.5 (*i.e.*, the average of the times required to complete the forms).

6. *An estimate of the total annual burden (in hours) associated with the collection:* There are approximately 10,578 annual burden hours associated with this collection. As additional SRS agencies complete the transition to NIBRS, it is expected that the number of submissions and, subsequently, the annual burden hours associated with this data collection will steadily decline. The burden hour estimate presented here is based on the most recent submission values to achieve the highest possible burden estimate.

7. *An estimate of the total annual cost burden associated with the collection, if applicable:* The estimated monetary cost burden for supplies, storage, or the like for this information collection is \$0. Incident reports are submitted through an online system maintained by the FBI.
