BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

[GDO Docket No. EA–484–A]

Application for Renewal of Authorization To Export Electric Energy; CFE International LLC

AGENCY: Grid Deployment Office, Department of Energy.

ACTION: Notice of application.

SUMMARY: CFE International LLC (the Applicant or CFEi) has applied for renewed authorization to transmit electric energy from the United States to Mexico pursuant to the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before December 22, 2025.

ADDRESSES: Comments, protests, motions to intervene, or requests for more information should be addressed by electronic mail to Electricity.Exports@hq.doe.gov.

FOR FURTHER INFORMATION CONTACT: Marina Fennel, (240) 702–6156, Electricity.Exports@hq.doe.gov.

SUPPLEMENTARY INFORMATION: The United States Department of Energy (DOE) regulates electricity exports from the United States to foreign countries in accordance with section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)) and regulations thereunder (10 CFR 205.300 *et seq.*). Sections 301(b) and 402(f) of the DOE Organization Act (42 U.S.C. 7151(b) and 7172(f)) transferred this regulatory authority, previously exercised by the now-defunct Federal Power Commission, to DOE.

Section 202(e) of the FPA provides that an entity which seeks to export electricity must obtain an order from DOE authorizing that export (16 U.S.C. 824a(e)). On April 10, 2023, the authority to issue such orders was delegated to the DOE's Grid Deployment Office (GDO) by Delegation Order No. S1–DEL–S3–2023 and Redelegation Order No. S3–DEL–GD1–2023.¹

On June 26, 2025, CFEi filed an application with DOE (Application or App.) for renewal of their export authority for an additional five-year term. App. at 2.

According to the Application, CFEi is a Delaware limited liability company that is a wholly-owned, direct subsidiary of the Comisión Federal de Electricidad, which is itself wholly owned by the Mexican Federal Government. *Id.* at 3. The Applicant states it “has received authorization from the Federal Energy Regulatory Commission . . . to sell energy, capacity, and certain ancillary services at wholesale market-based rates[.]” *Id.*

CFEi states that it “does not directly or indirectly own, operate or control any electric generation facilities, electric transmission facilities, distribution facilities, or inputs to electric power production” and is not “affiliated with an [sic] utility that has a franchised service territory in the United States.” *Id.* at 5. The Applicant further states that “[t]he electric energy that Applicant would export would be surplus energy purchased in wholesale markets” and that “proposed exports accordingly will not impair the adequacy of electric power supply within the United States[.]” *Id.* at 6–7. The Applicant states that “[t]he requested authorization will not impede or tend to impede regional coordination of electric utility planning or operation” and that it “will make all necessary commercial arrangements and will obtain any and all other regulatory approval required in order to carry out any power exports.” *Id.* at 7.

The existing international transmission facilities to be utilized by the Applicant have been previously authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties. *See* App. at Exhibit C.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the Application at Electricity.Exports@hq.doe.gov. Protests should be filed in accordance with Rule 211 of FERC's Rules of Practice and Procedure (18 CFR 385.211). Any person desiring to become a party to this proceeding should file a motion to intervene at Electricity.Exports@hq.doe.gov in accordance with FERC Rule 214 (18 CFR 385.214).

Comments and other filings concerning CFEi's Application should

be clearly marked with GDO Docket No. EA–484–A. Additional copies are to be provided directly to Juan Esteban Corro Jalpa, CFE International LLC, 825 Town & Country Lane, Houston, TX 77024, juan.corro@cfeinternational.com; Sarah Tucker and Keturah A. Brown, Sidley Austin LLP, 1501 K Street NW, Washington, DC 20005, stucker@sidley.com, keturah.brown@sidley.com.

A final decision will be made on the requested authorization after DOE reviews the action pursuant to the National Environmental Policy Act Implementing Procedures (June 2025), including 10 CFR part 1021, and after DOE evaluates whether the proposed action will have an adverse impact on the sufficiency of supply or reliability of the United States electric power supply system.

Copies of this Application will be made available, upon request, by accessing the program website at www.energy.gov/gdo/pending-applications-0 or by emailing Electricity.Exports@hq.doe.gov.

Signing Authority

This document of the Department of Energy was signed on November 14, 2025, by Chris Wright, Secretary of Energy, U.S. Department of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE **Federal Register Liaison Officer** has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC, on November 19, 2025.

BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

[GDO Docket No. EA–526]

Application for Authorization To Export Electric Energy; Enel Trading North America, LLC

AGENCY: Grid Deployment Office, Department of Energy.

ACTION: Notice of application.

SUMMARY: Enel Trading North America, LLC (the Applicant or ETNA) has

¹ As stated in Redelegation Order No. S3–DEL–GD1–2023, nothing in the Order precludes the

Secretary or the Under Secretary (for Infrastructure) from exercising any of the authority delegated by the Order.

applied for authorization to transmit electric energy from the United States to Mexico pursuant to the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before December 22, 2025.

ADDRESSES: Comments, protests, motions to intervene, or requests for more information should be addressed by electronic mail to Electricity.Exports@hq.doe.gov.

FOR FURTHER INFORMATION CONTACT:

Marina Fennel, (240) 702-6156, Electricity.Exports@hq.doe.gov.

SUPPLEMENTARY INFORMATION: The United States Department of Energy (DOE) regulates electricity exports from the United States to foreign countries in accordance with section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)) and regulations thereunder (10 CFR 205.300 *et seq.*). Sections 301(b) and 402(f) of the DOE Organization Act (42 U.S.C. 7151(b) and 7172(f)) transferred this regulatory authority, previously exercised by the now-defunct Federal Power Commission, to DOE.

Section 202(e) of the FPA provides that an entity which seeks to export electricity must obtain an order from DOE authorizing that export (16 U.S.C. 824a(e)). On April 10, 2023, the authority to issue such orders was delegated to the DOE's Grid Deployment Office (GDO) under Redelegation Order No. S3-DEL-GD1-2023.

On June 5, 2025, ETNA filed an application (Application or App.) for authorization to transmit electric energy from the United States to Mexico for a term of five years. App. at 1. The application filed is for a new export authorization, following the applicant's notification to the DOE of the expiration of the applicant's previous EA-460 on November 19, 2023.

According to the Application, ETNA is a power marketer located in Andover, Massachusetts. App. at 1. ETNA states that it is "a wholly owned subsidiary of Enel Green Power North America, Inc., a Delaware corporation[.]" *Id.* ETNA represents that the Federal Energy Regulatory Commission (FERC) "authorized ETNA to engage in the sale of energy, capacity, and ancillary services at market-based rates." *Id.* at 1-2.

The Applicant states that it "is not a franchised public utility with transmission or distribution systems and does not have captive customers." App. at 1. ETNA further states that the electricity exported "would be surplus energy purchased in wholesale markets using bilateral, voluntary transactions."

App. at 3. The Applicant thus asserts that "any such energy would be surplus to the needs of the relevant system, and the export . . . would not impair the adequacy of electric power supply within the United States[.]" *Id.* at 3-4.

ETNA further asserts that it "will not impede or tend to impede regional coordination of electric utility planning or operations." App. at 4. The Applicant "agrees to abide by the export limits contained in the relevant authorization of any transmission facility over which it exports energy to Mexico." *Id.* The Applicant states that its export transactions "will be completed using all applicable procedures and/or market structures and coordinated with relevant parties as required pursuant to the reliability standards and market rules as implemented by [the North American Electric Reliability Corporation], FERC and all affected transmission operators." *Id.* at 5.

The existing international transmission facilities to be utilized by the Applicant have been previously authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties. *See* App. at Exhibit C.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the Application at Electricity.Exports@hq.doe.gov. Protests should be filed in accordance with Rule 211 of FERC's Rules of Practice and Procedure (18 CFR 385.211). Any person desiring to become a party to this proceeding should file a motion to intervene at Electricity.Exports@hq.doe.gov in accordance with FERC Rule 214 (18 CFR 385.214).

Comments and other filings concerning ETNA's Application should be clearly marked with GDO Docket No. EA-526. Additional copies are to be provided directly to General Counsel, Enel North America, Inc. 100 Brickstone Square, Suite 300, Andover, MA 01810, generalcounsel@enel.com.

A final decision will be made on the requested authorization after DOE reviews the action pursuant to the National Environmental Policy Act Implementing Procedures (June 2025), including 10 CFR part 1021, and after DOE evaluates whether the proposed action will have an adverse impact on the sufficiency of supply or reliability of the United States electric power supply system.

Copies of this Application will be made available, upon request, by accessing the program website at [https://www.energy.gov/gdo/pending-](https://www.energy.gov/gdo/pending-applications-0)

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Combined Notice Of Filings #1

Take notice that the Commission received the following exempt wholesale generator filings:

Docket Numbers: EG26-55-000.

Applicants: Enbridge Solar (Sequoia II), LLC.

Description: Enbridge Solar (Sequoia II), LLC submits Notice of Self-Certification of Exempt Wholesale Generator Status.

Filed Date: 11/18/25.

Accession Number: 20251118-5128.

Comment Date: 5 p.m. ET 12/9/25.

Take notice that the Commission received the following electric rate filings:

Docket Numbers: ER10-1338-005.

Applicants: Southern Indiana Gas and Electric Company, Inc.

Description: Second Supplement to 12/28/2023, Triennial Market Power Analysis for Central Region of Southern Indiana Gas and Electric Company, Inc.

Filed Date: 11/17/25.

Accession Number: 20251117-5225.

Comment Date: 5 p.m. ET 12/8/25.

Docket Numbers: ER25-2818-001.

Applicants: Adelite Solar, LLC.

Description: Notice of Non-Material Change in Status of Adelite Solar, LLC.

Filed Date: 11/18/25.
