

including the validity of the methodology and assumptions used; (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and (4) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Proposed Collection Title: NIMH Office of National Autism Coordination (ONAC) Portfolio Analysis, NIMH, 0925–0682, expiration date 2/28/2026, REVISION, National Institute of Mental Health (NIMH), National Institutes of Health (NIH).

Need and Use of Information Collection: This is a requested revision of a currently approved request (NIMH Office of Autism Research Coordination (OARC) Portfolio Analysis, 0925–0682, expiration date 2/28/2026), where the National Institute of Mental Health (NIMH) Office of National Autism Coordination (ONAC), on behalf of the Interagency Autism Coordinating Committee (IACC), plans to continue conducting comprehensive portfolio analyses of major autism spectrum

disorder (ASD) research funders. The purpose of the ASD research portfolio analysis is to collect research funding data from U.S. and international ASD research funders, to assist the Interagency Autism Coordinating Committee (IACC) in fulfilling the requirements of the Autism Collaboration, Accountability, Research, Education, and Support (CARES) Act of 2024, and to inform the committee and interested stakeholders of the funding landscape and current directions for ASD research. Specifically, these analyses will continue to examine the extent to which current funding and research topics align with the *IACC Strategic Plan for Autism Research, Services, and Policy*. The findings will help guide future funding priorities by outlining current gaps and opportunities in ASD research as well as serving to highlight annual research activities and progress.

This revision request includes the following actions: updating all previous references to the “Office of Autism Research Coordination (OARC)” to instead refer to the “Office of National Autism Coordination (ONAC)”;

“Autism CARES Act of 2019” to instead refer to the “Autism CARES Act of 2024”, which was signed into law in December 2024 and reauthorizes the IACC through September 2029; updating all previous references to IACC Strategic Plan “Objectives” to instead refer to “Recommendations” after the publication of the 2021–2023 IACC Strategic Plan; updating descriptions of how results of the portfolio analyses will be presented and made publicly available upon request; updating the total burden hours due to an increase in the number of U.S. respondents and an increase in the number of projects reported by these respondents; updating the annualized total cost to the federal government due to inflation and staffing changes; and, updating information collection materials and background documents to reflect the funders to be included in future autism research portfolio analyses and to allow for project funding data for two years to be provided in one spreadsheet.

OMB approval is requested for 3 years. There are no costs to respondents other than their time. The total estimated annualized burden hours are 474.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Number of respondents	Number of projects per respondent	Average time per response (in hours)	Total burden hours
U.S. Federal	40	24	15/60	240
U.S. Private	18	47	15/60	212
International Government	1	61	15/60	15
International Private	2	13	15/60	7
Total	61	1,893	474

Dated: November 18, 2025.

Andrew A. Hooper,

Project Clearance Liaison, National Institute of Mental Health, National Institutes of Health.

Center for Scientific Review; Notice of Closed Meetings

Pursuant to section 1009 of the Federal Advisory Committee Act, as amended, notice is hereby given of the following meetings.

The meetings will be closed to the public in accordance with the

provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: Infectious Diseases and Immunology A Integrated Review Group; Viral Pathogenesis and Immunity Study Section.

Date: January 12, 2026.

Time: 8:00 a.m. to 7:30 p.m.

Agenda: To review and evaluate grant applications.

Address: National Institutes of Health, Rockledge II, 6701 Rockledge Drive, Bethesda, MD 20892.

Meeting Format: Virtual Meeting.

Contact Person: Neerja Kaushik-Basu, Ph.D., Scientific Review Officer, Center for Scientific Review, National Institutes of Health, 6701 Rockledge Drive, Room 3198, MSC 7808, Bethesda, MD 20892, 301–435–1742, kaushikbasun@csr.nih.gov.

Registration is not required to attend this meeting.
