

installation must be licensed by both the State and the DoD, even when only caring for eligible DoD-affiliated children. By exempting in-home child care providers certified by the DoD from State licensure requirements, States can improve access to family child care for military families.

- **State Response to Military Interpersonal Violence** (Approved 2023): Interpersonal violence is a pattern of harmful behavior in which one person uses various forms of abuse to assert power and control over another. States can further protect victims of interpersonal violence by enhancing statutes that increase accessibility to civilian protection orders for victims and mandating reciprocal information sharing between military and civilian law enforcement authorities.

- **Concurrent Juvenile Jurisdiction** (Approved 2022): Military installations subject to exclusive Federal jurisdiction often handle juvenile offenses through the Federal system, which has no established juvenile justice system. Adopting policies that facilitate concurrent jurisdiction between the State and military installation opens the door to the State juvenile justice system and resources, offering improved opportunities for rehabilitation tailored to address juveniles.

- **Open Enrollment Flexibility** (Approved 2022): Military families can be disadvantaged in school enrollment options for their children due to military-directed moves. States can assist by increasing military-connected students' access to schooling options, allowing them to remain in their current school placement despite a relocation from temporary to permanent housing, and including them within existing enrollment prioritization systems.

- **Military Community Representation on State Defense Councils** (Approved 2017): The unique needs of military families may go unheard without representation on State-level advisory bodies focused on the defense community. States can establish statewide military defense-focused councils that consider military family readiness and dedicate one or more seats to members of the military community.

- **Occupational Licensure Interstate Compacts** (Approved 2017): 35% of military spouses require an occupational license to work in their chosen profession. Licensure compacts create seamless licensure portability for all members of a profession, including military spouses and service members. By adopting licensure compacts, states

can improve military family financial readiness.

These issues, along with other emeritus State Policy Priorities, will be presented to State governments for their consideration even as these submissions to the **Federal Register** for 2027 are considered. For more information, please visit www.statepolicy.militaryonesource.mil. As always, our team at the Defense-State Liaison Office, who manage State government relations for the Office of the Secretary of Defense on personnel and readiness issues, stand ready to support state policymakers and the military community fully. Thank you once again for bringing these important issues to our attention.

Dated: November 20, 2025.

Abstract: The Secretary establishes regulations for Federal Pell Grants (Pell Grants or Pell) for Prison Education Programs (PEPs), to implement the statutory requirements in the Consolidated Appropriations Act, 2021, that amend the Higher Education Act of 1965, as amended (HEA), to establish Pell Grant eligibility for a confined or incarcerated individual enrolled in a PEP. These regulations are a result of negotiated rulemaking and added new title IV regulations to especially in Subpart P of 34 CFR 668. The Consolidated Appropriations Act, 2021 added section 484(t) to the HEA to formally establish Pell Grant eligibility for confined or incarcerated individuals, as long as they are enrolled in a PEP as defined under the HEA. The regulations implement the statutory requirements allowing access to Federal Pell Grants for individuals who are confined or incarcerated when enrolled in programs that meet necessary standards.

This collection established the burden under regulations at 34 CFR 668.237—Accreditation requirements. These regulations prescribe program evaluation at the first two additional Prison Education Program (PEP)

locations of a participating institution of higher education to ensure institutional ability to offer and implement the PEP in accordance with the accrediting agency's standards. The regulations require the accrediting agency to conduct a site visit no later than one year after the institution has initiated a PEP at its first two additional locations at correctional facilities. Additionally, the regulations require accrediting agencies to review the methodology used by an institution in determining the PEP meets the same standards for substantially similar non-PEP programs offered at the institution.
