

decisional record of the proceeding. Unless the Commission determines that the prohibited communication and any responses thereto should become a part of the decisional record, the prohibited off-the-record communication will not be considered by the Commission in reaching its decision. Parties to a proceeding may seek the opportunity to respond to any facts or contentions made in a prohibited off-the-record communication and may request that the Commission place the prohibited communication and responses thereto in the decisional record. The

Commission will grant such a request only when it determines that fairness so requires. Any person identified below as having made a prohibited off-the-record communication shall serve the document on all parties listed on the official service list for the applicable proceeding in accordance with Rule 2010, 18 CFR 385.2010.

Exempt off-the-record communications are included in the decisional record of the proceeding, unless the communication was with a cooperating agency as described by 40

CFR 1501.6, made under 18 CFR 385.2201(e) (1) (v).

The following is a list of off-the-record communications recently received by the Secretary of the Commission. Each filing may be viewed on the Commission's website at <http://www.ferc.gov> using the eLibrary link. [Project No. 15380-000]

Robertson Power Company, LLC; Notice Extending Comment Period

On October 31, 2024, Robertson Power Company, LLC, filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Somersworth Mill Hydroelectric Project No. 15380-000 (project), to be located at the Somersworth Mill dam on the Salmon Falls River near the Town of Somersworth in Strafford County, New Hampshire, and Berwick, York County, Maine.

On October 15, 2025, the Commission issued public notice of the application and established December 15, 2025, as the deadline for filing comments, interventions, and competing applications. However, the Commission's October 15, 2025 notice was inadvertently not distributed to all parties required to be notified pursuant to the Commission's regulations [18 CFR

4.32(a)(2)]. Therefore, we are extending the deadline for filing comments, interventions, and competing applications until on or before 5:00 p.m. Eastern Time on January 5, 2026.

More information about this project, including a copy of the application and a copy of the Commission's October 25, 2025 notice, can be viewed on the Commission's website (<http://www.ferc.gov>) using the "eLibrary" link. Enter the docket number excluding the last three digits (P-15380) in the docket number field to access the document. For assistance, contact FERC Online Support.

For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, contact the Office of Public Participation (OPP) at (202) 502-6595 or OPP@ferc.gov.

Dated: November 7, 2025.

[Docket No. EL26-3-000]

Moxie Freedom LLC; Notice of Institution of Section 206 Proceeding and Refund Effective Date

On November 7, 2025, the Commission issued an order in Docket No. EL26-3-000 pursuant to section 206 of the Federal Power Act (FPA), 16 U.S.C. 824e, instituting an investigation to determine whether Moxie Freedom LLC's Rate Schedule is unjust, unreasonable, unduly discriminatory or preferential, or otherwise unlawful. *Moxie Freedom LLC*, 193 FERC ¶ 61,101 (2025).

As established in *Moxie Freedom LLC*, the refund effective date in date in Docket No. EL26-3-000, pursuant to section 206(b) of the FPA, is November 7, 2025.

Any interested person desiring to be heard in Docket No. EL26-3-000 must file a notice of intervention or motion to intervene, as appropriate, with the Federal Energy Regulatory Commission, in accordance with Rule 214 of the Commission's Rules of Practice and Procedure, 18 CFR 385.214 (2025), within 21 days of the date of issuance of the order.

The Commission provides all interested persons an opportunity to view and/or print the contents of this

document via the internet through the Commission's Home Page (<http://www.ferc.gov>) using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. From FERC's Home Page on the internet, this information is available on eLibrary. The full text of this document is available on eLibrary in PDF and Microsoft Word format for viewing, printing, and/or downloading. To access this document in eLibrary, type the docket number excluding the last three digits of this document in the docket number field. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

k. This application has been accepted for filing, and is ready for environmental analysis at this time.

l. *Project Description:* The existing project consists of a 27-foot-high dam known as the Forestport Dam, that includes a 315-foot-long ogee spillway. The Forestport Dam creates an impoundment that has a surface area of 118 acres at a normal surface elevation of 1,126.55 feet National Geodetic Vertical Datum 1929 (NGVD29).

From the impoundment, water flows through gates and a canal to a forebay known as Alder Pond. Alder Pond has a surface area of 24 acres at a normal surface elevation of 1,124.6 feet NGVD29 and is formed by a 550-foot-long, 15-foot-high earth embankment known as Alder Pond Dam.

From Alder Pond, water flows through a power canal to an intake structure with trashracks with 1.75-inch clear bar spacing. From the intake structure, water flows through a penstock to a powerhouse that includes a 3.3-megawatt (MW) S-type Kaplan turbine-generator. From the powerhouse, water is released into a tailrace that discharges into the Black River.

The project generators are connected to the regional electric grid by generator lead lines and a 4.16/46-kV transformer.

Project recreation facilities include: (1) Alder Pond parking and access area, adjacent to the east side of the Alder Pond Dam; (2) Forestport impoundment parking and access area, adjacent to the Forestport Dam on the northwest shore of the Forestport impoundment; (3) an approximately 1,200 foot-long portage route from the Forestport access area to the Alder Pond access area; (4) an approximately 150-foot-long power canal portage route; and (5) a powerhouse parking and access area.

Forestport Hydro proposes to: (1) continue operating the project in a run-of-river mode and maintaining the surface elevation of the Forestport impoundment at 1,126.55 feet NGVD29;
