

an otherwise lawful activity. Regulations governing permits for endangered and threatened species are at 50 CFR 17.22 and 17.32, respectively. For more about the Federal habitat conservation plan program, go to <https://www.fws.gov/service/habitat-conservation-plans>.

### Proposed Action

The proposed action is the Service's issuance of an ITP for a period of 5 years for the beetle, the only species covered by the plan. The ITP is requested to cover ongoing routine vegetation management along specific levees maintained by the applicant to support levee structural integrity, visibility, and accessibility for inspections, maintenance, and flood-fighting operations. Vegetation management along these areas often requires the removal or trimming of elderberry shrubs, which are the sole host plant for the beetle. The plan includes three covered activities: trimming or removing select elderberry shrubs, transplanting removed elderberry shrubs, and trimming adjacent riparian vegetation needed to access the elderberry shrubs. The plan also includes a conservation strategy to avoid, minimize, and mitigate effects to the beetle from the proposed activities. Avoidance and minimization measures for the beetle will reduce effects to the species, and the applicant will mitigate for the remaining unavoidable effects. Covered activities will occur in portions of the following seven California counties: Butte, Colusa, Glenn, Sacramento, Solano, Sutter, and Yolo. The total plan area is approximately 3,162 acres of levees in eight areas along the Sacramento River, Butte Creek, Cache Creek, Putah Creek, and the Yolo Bypass.

### Public Comments

We request data, comments, new information, or suggestions from the public, other concerned governmental agencies, the scientific community, Tribes, industry, or any other interested party. We particularly seek comments on the following:

1. Biological information concerning the species;
2. Relevant data concerning the species;
3. Additional information concerning the range, distribution, population size, and population trends of the species;
4. Current or planned activities in the subject area and their possible impacts on the species;
5. The presence of archeological sites, buildings and structures, historic events, sacred and traditional areas, and

other historic preservation concerns, which are required to be considered in project planning by the National Historic Preservation Act; and

6. Any other environmental issues that should be considered with regard to the proposed development and permit action.

### Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, be aware that your entire comment, including your personal identifying information, may be made available to the public. If you submit a comment at <https://www.regulations.gov>, your entire comment, including any personal identifying information, will be posted on the website. If you submit a hardcopy comment that includes personal identifying information, such as your address, phone number, or email address, you may request at the top of your document that we withhold this information from public review. However, we cannot guarantee that we will be able to do so. Moreover, all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public disclosure in their entirety.

### Our Preliminary Determination

The Service has made a preliminary determination that the applicant's proposed project would individually and cumulatively have a minor effect on the covered species and the human environment. Therefore, we have preliminarily determined that the proposed ESA section 10(a)(1)(B) permit would be a low-effect ITP that individually and cumulatively would have a minor effect on the beetle and may qualify for application of a categorical exclusion pursuant to NEPA, the DOI's NEPA regulations, and the DOI DM. A low-effect ITP is one that would result in (1) minor or nonsignificant effects on species covered in the plan; (2) nonsignificant effects on the human environment; and (3) impacts that, when added together with the impacts of other past, present, and reasonably foreseeable actions, would not result in significant cumulative effects to the human environment.

### Next Steps

Issuance of an ITP is a Federal proposed action subject to compliance with NEPA and section 7 of the ESA.

We will evaluate the application, associated documents, and any public comments we receive as part of our NEPA compliance process to determine whether the application meets the requirements of section 10(a) of the ESA. If we determine that those requirements are met, we will conduct an intra-Service consultation under section 7 of the ESA for the Federal action for the potential issuance of an ITP. If the intra-Service consultation confirms that issuance of the ITP is not likely to jeopardize the continued existence of any endangered or threatened species, or destroy or adversely modify critical habitat, we will issue a permit to the applicant for the incidental take of the covered species.

### Authority

The Service provides this notice under section 10(c) of the Endangered Species Act (16 U.S.C. 1531 *et seq.*) and its implementing regulations (50 CFR 17.22 and 50 CFR 17.32), NEPA (42 U.S.C. 4321 *et seq.*) and the DOI's implementing regulations (43 CFR part 46).

## DEPARTMENT OF THE INTERIOR

### Fish and Wildlife Service

**[FWS-R4-ES-2025-N016;  
FXES11130400000-256-FF04E00000]**

### Endangered and Threatened Wildlife and Plants; Initiation of 5-Year Status Reviews for 66 Southeastern Species

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Notice of initiation of reviews; request for information.

**SUMMARY:** We, the U.S. Fish and Wildlife Service, are initiating 5-year status reviews under the Endangered Species Act for 66 animal and plant species. A 5-year review is an assessment of the best scientific and commercial data available at the time of the review to ensure the accuracy of the species' classification as endangered or threatened. We are requesting submission of any such information that has become available since the previous status review for each species.

**DATES:** To ensure consideration of your information in our reviews, we must receive your comments or information

on or before January 26, 2026. However, we will continue to accept new information about any of the species at any time.

**ADDRESSES:** For instructions on how to submit information for a species, see table 1 in the **SUPPLEMENTARY INFORMATION** section.

**FOR FURTHER INFORMATION CONTACT:** To request information on specific species, contact the appropriate person in the table in the **SUPPLEMENTARY INFORMATION** section or, for general information, contact Bradly Potter, via phone at 517–643–7965, via email at [bradly\\_potter@fws.gov](mailto:bradly_potter@fws.gov), or via U.S. mail at U.S. Fish and Wildlife Service, 1875 Century Boulevard, Atlanta, GA 30345. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

**SUPPLEMENTARY INFORMATION:** We, the U.S. Fish and Wildlife Service, are initiating 5-year status reviews under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), for 34 animal species and 32 plant species. A 5-year status review is based

on the best scientific and commercial data available at the time of the review. Therefore, we are requesting submission of any such information that has become available since the last review for the species, particularly information on the status, threats, and recovery of the species.

#### Why do we conduct a 5-year review?

Under the ESA, we maintain Lists of Endangered and Threatened Wildlife and Plants (which we collectively refer to as the List) in title 50 of the Code of Federal Regulations (CFR) at 50 CFR 17.11 (for wildlife) and 50 CFR 17.12 (for plants). Section 4(c)(2)(A) of the ESA requires us to review each listed species' status at least once every 5 years. Our regulation at 50 CFR 424.21 requires that we publish a notice in the **Federal Register** announcing that a species is under active review; however, we may review the status of the species at any time based upon a petition or other information available to us. For additional information about 5-year reviews, refer to our fact sheet at <https://www.fws.gov/project/five-year-status-reviews>.

#### What information do we consider in our review?

A 5-year review considers the best scientific and commercial data that have

become available since the current listing determination or most recent status review of each species, such as:

(A) Species biology, including but not limited to population trends, distribution, abundance, demographics, habitat requirements, tolerance thresholds, and genetics;

(B) Habitat conditions, including but not limited to amount, distribution, and suitability;

(C) Conservation measures that have been or are planned to be implemented to benefit the species;

(D) Current threats and trends in relation to the five listing factors (as defined in section 4(a)(1) of the ESA (16 U.S.C. 1533(a)(1)); and

(E) Other new information, data, or corrections, including but not limited to taxonomic or nomenclatural changes, identification of erroneous information contained in the List, and improved analytical methods.

New information will be considered in the 5-year review and ongoing recovery programs for the species.

#### Which species are under review?

This notice announces 5-year status reviews for the species listed in table 1.

TABLE 1—SPECIES UNDER REVIEW

Common name	Scientific name	Taxonomic group	Listing status (see note)	Locations where the species is known to occur	Final listing rule ( <b>Federal Register</b> citation and publication date)	Contact person, email, phone	Contact's mailing address

**Note:** E = endangered; T = threatened.

### Request for New Information

To ensure that a species' 5-year review is based on the best available scientific and commercial information, we request new information from all sources. Please use the contact information that is associated with the species for which you are submitting information (see table 1). If you submit information, please support it with documentation such as maps; bibliographic references; methods used to gather and analyze the data; and/or copies of any pertinent publications, reports, or letters by knowledgeable sources.

### How do I ask questions or provide information?

If you wish to provide information for any species in table 1, please submit your comments and materials to the appropriate contact in the table. You may also direct questions to those contacts. For general information, contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

### Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your submission, you should be aware that your entire submission—including your personal identifying information—may be made publicly available at any time. Although you can request that personal information be withheld from public review, we cannot guarantee that we will be able to do so.

### Completed and Active Reviews

A list of all completed and currently active 5-year status reviews can be found at <https://ecos.fws.gov/ecp/report/species-five-year-review>.

### Authority

This document is published under the authority of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*).

### INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701–TA–780–782 and 731–TA–1767–1769 (Preliminary)]

#### Van-Type Trailers and Subassemblies From Canada, China, and Mexico; Institution of Antidumping and Countervailing Duty Investigations and Scheduling of Preliminary Phase Investigations

**AGENCY:** United States International Trade Commission.

**ACTION:** Notice.

**SUMMARY:** The Commission hereby gives notice of the institution of investigations and commencement of preliminary phase antidumping and countervailing duty investigation Nos. 701–TA–780–782 and 731–TA–1767–1769 (Preliminary) pursuant to the Tariff Act of 1930 to determine whether there is a reasonable indication that an industry in the United States is materially injured or threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of imports of van-type trailers and subassemblies from Canada, China, and Mexico, provided for in subheadings

8716.39.00, 8716.90.50, 7308.30.50, 7308.90.95, 7326.90.86, 8708.29.15, and 8708.99.81 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value and alleged to be subsidized by the Governments of Canada, China, and Mexico. Unless the Department of Commerce (“Commerce”) extends the time for initiation, the Commission must reach a preliminary determination in antidumping and countervailing duty investigations in 45 days, or in this case by January 5, 2026. The Commission’s views must be transmitted to Commerce within five business days thereafter, or by January 12, 2026.

**DATES:** November 20, 2025.

**FOR FURTHER INFORMATION CONTACT:** Peter Stebbins (202–205–2039), Office of Investigations, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436. Hearing-impaired persons can obtain information on this matter by contacting the Commission’s TDD terminal on 202–205–1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202–205–2000. General information concerning the Commission may also be obtained by accessing its internet server (<https://www.usitc.gov>). The public record for these investigations may be viewed on the Commission’s electronic docket (EDIS) at <https://edis.usitc.gov>.

#### SUPPLEMENTARY INFORMATION:

**Background.**—These investigations are being instituted, pursuant to sections 703(a) and 733(a) of the Tariff Act of 1930 (19 U.S.C. 1671b(a) and 1673b(a)), in response to a petition filed on November 20, 2025, by the American
