## OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

[Docket Number USTR–2025–0208]

### **Applications for Inclusion on the Binational Panels Roster Under the United States-Mexico-Canada Agreement**

**AGENCY:** Office of the United States Trade Representative (USTR).

**ACTION:** Request for applications.

**SUMMARY:** The United States-Mexico-Canada Agreement (USMCA) provides for the establishment of a roster of individuals to serve on binational panels convened to review final determinations in antidumping or countervailing duty (AD/CVD) proceedings and amendments to AD/CVD statutes of a USMCA Party. The United States annually renews its selections for the roster. USTR invites applications from eligible individuals wishing to be included on the roster for the period April 1, 2026, through March 31, 2027.

**DATES:** USTR must receive your application by December 12, 2025.

**ADDRESSES:** You should submit your application through the Federal eRulemaking Portal: <http://www.regulations.gov>, using docket number USTR–2025–0208. Follow the submission instructions below.

**FOR FURTHER INFORMATION CONTACT:** Thor Petersen, Assistant General Counsel, [Thorvald.J.Petersen@ustr.eop.gov](mailto:Thorvald.J.Petersen@ustr.eop.gov), 202.395.9599.

## SUPPLEMENTARY INFORMATION:

### **A. Binational Panel AD/CVD Reviews Under the USMCA**

Article 10.12 of the USMCA provides that a party involved in an AD/CVD proceeding may obtain review by a binational panel of a final AD/CVD determination of one USMCA Party with respect to the products of another USMCA Party. Binational panels decide whether AD/CVD determinations are in accordance with the domestic laws of the importing USMCA Party using the standard of review that would have been applied by a domestic court of the importing USMCA Party. A panel may uphold the AD/CVD determination, or may remand it to the national administering authority for action not inconsistent with the panel's decision. Panel decisions may be reviewed in specific circumstances by a 3-member extraordinary challenge committee, selected from a separate roster composed of 15 current or former judges.

Article 10.11 of the USMCA provides that a USMCA Party may refer an amendment to the AD/CVD statutes of another USMCA Party to a binational panel for a declaratory opinion as to whether the amendment is inconsistent with the General Agreement on Tariffs and Trade (GATT), the WTO Antidumping or Subsidies Agreements, successor agreements, or the object and purpose of the USMCA with regard to the establishment of fair and predictable conditions for the progressive liberalization of trade while maintaining effective and fair disciplines on unfair trade practices. If the panel finds that the amendment is inconsistent, the two USMCA Parties must consult and seek to achieve a mutually satisfactory solution.

### **B. Roster and Composition of Binational Panels**

Annex 10–B.1 of the USMCA provides for the maintenance of a roster of at least 75 individuals for service on Chapter 10 binational panels, with each USMCA Party selecting at least 25 individuals. A separate five-person panel is formed for each review of a final AD/CVD determination or statutory amendment. The majority of individuals on each panel must consist of lawyers in good standing, and the chair of the panel must be a lawyer.

When there is a request to establish a panel, roster members from the two involved USMCA Parties will complete a disclosure form that is used to identify possible conflicts of interest or appearances thereof. The disclosure form requests information regarding

financial interests and affiliations, including information regarding the identity of clients of the roster member and, if applicable, clients of the roster member's firm.

### C. Criteria for Eligibility for Inclusion on Roster

The United States bases the selection of individuals for inclusion on the Chapter 10 roster on the eligibility criteria set out in Annex 10–B.1 of the USMCA. Annex 10–B.1 provides that Chapter 10 roster members must be citizens of a USMCA Party, must be of good character and of high standing and repute, and are to be chosen strictly on the basis of their objectivity, reliability, sound judgment, and general familiarity with international trade law. Aside from judges, roster members may not be affiliated with the governments of any of the three USMCA Parties. Annex 10–B.1 also provides that, to the fullest extent practicable, the roster must include judges and former judges.

### D. Adherence to the USMCA Code of Conduct for Binational Panelists

The Code of Conduct under Chapter 10 and Chapter 31 (Dispute Settlement) (see <https://can-mex-usa-sec.org/secretariat/agreement-accord-acuerdo/usmca-aceum-tmec/code-code-codigo.aspx?lang=eng>), which was established pursuant to Article 10.17 of the USMCA, provides that current and former Chapter 10 roster members “shall avoid impropriety and the appearance of impropriety and shall observe high standards of conduct so that the integrity and impartiality of the dispute settlement process is preserved.” The Code of Conduct also provides that candidates who serve on Chapter 10 rosters, as well as those who ultimately are selected to serve as panelists, have an obligation to “disclose any interest, relationship or matter that is likely to affect [their] impartiality or independence, or that might reasonably create an appearance of impropriety or an apprehension of bias.” Annex 10–B.1 of the USMCA provides that roster members may engage in other business while serving as panelists, subject to the Code of Conduct and provided that such business does not interfere with the performance of the panelist's duties. In particular, Annex 10–B.1 states that “[w]hile acting as a panelist, a panelist may not appear as counsel before another panel.”

### E. Procedures for Selection of Roster Members

Section 412 of the United States-Mexico-Canada Agreement

(Implementation Act (Pub. L. 116–113, 19 U.S.C. 4582) establishes procedures for the selection by USTR of the individuals chosen by the United States for inclusion on the Chapter 10 roster. The roster is renewed annually and applies during the one-year period beginning April 1 of each calendar year.

Under Section 412 of the Act, an interagency committee chaired by USTR prepares a preliminary list of candidates eligible for inclusion on the Chapter 10 roster. After consultation with the Senate Committee on Finance and the House Committee on Ways and Means, the U.S. Trade Representative selects the final list of individuals chosen by the United States for inclusion on the Chapter 10 roster.

### Federal Aviation Administration

#### Noise Compatibility Program for Hollywood Burbank Airport, Burbank, Los Angeles County, California

**AGENCY:** Federal Aviation Administration, DOT.

**ACTION:** Acceptance of Hollywood Burbank airport noise exposure maps.

**SUMMARY:** The Federal Aviation Administration (FAA) announces its determination that the noise exposure maps submitted by Burbank-Glendale-Pasadena Airport Authority (BGPAA) for Hollywood Burbank Airport is compliant with applicable statutory and regulatory requirements.

**DATES:** The effective date of the FAA's determination on the noise exposure maps is November 20, 2025.

**FOR FURTHER INFORMATION CONTACT:** Justin S. Kim, Environmental Protection Specialist, Federal Aviation Administration, 777 South Aviation Boulevard, Suite 150, El Segundo, California 90245. Telephone 424-405-7283.

**SUPPLEMENTARY INFORMATION:** The FAA determined the noise exposure maps submitted by the BGPAA for Hollywood Burbank Airport, is in compliance with applicable statutory and regulatory requirements, effective November 20, 2025. Under title 49, United States Code (U.S.C.) section 47503, an airport operator may submit to the FAA, noise exposure maps depicting non-compatible uses as of the date such map is submitted, a description of estimated aircraft operations during a forecast period that is at least five years in the future and how those operations will affect the map. Noise exposure maps must be prepared in accordance with title 14, Code of Federal Regulations (CFR) part 150, the regulations promulgated pursuant to 49 U.S.C. 47502 and developed in consultation with public agencies and planning authorities in the area surrounding the airport, state and Federal agencies, interested and affected parties in the local community, and aeronautical users of the airport. In addition, an airport operator that submitted noise exposure maps, which the FAA determined is compliant with statutory and regulatory requirements, may submit a noise compatibility program for FAA approval that sets forth measures the operator has taken or proposes to take to reduce existing non-compatible uses and prevent the introduction of additional non-compatible uses.

The FAA completed its review of the noise exposure maps and supporting documentation submitted by BGPAA and determined the noise exposure maps and accompanying documentation are compliant with applicable requirements. The documentation that constitutes the Noise Exposure Maps include: "Figure 5-1—Existing Conditions (2025) Noise Exposure Map" and "Figure 5-2—Future Conditions (2030) Noise Exposure Map" which addresses the current and forecast NEM graphics. The "Hollywood Burbank Airport Part 150 Noise Exposure Map Update," dated August 2025, complies with all other applicable narrative, graphic, and tabular representations of the data including airport description, flight track data, aircraft operations data, aviation forecast data, on-airport and off-airport land use information as required by 14 CFR A150.101 and 49 U.S.C. 47503. This determination is effective on November 20, 2025. FAA's determination on an airport's noise exposure maps is limited to a finding that the noise exposure maps were developed in accordance with the 49 U.S.C section 47503 and procedures contained in 14 CFR A150.101. FAA's acceptance of an NEM does not constitute approval of the applicant's data, information or plans, or a commitment to approve a noise compatibility program or to fund the implementation of that program. If questions arise concerning the precise relationship of specific properties within noise exposure contours depicted on the noise exposure maps, it should be noted that the FAA is not involved in any way in determining the relative locations of specific properties with regard to the depicted noise contours or in interpreting the noise exposure maps to resolve questions concerning, for example, which properties should be covered by the provisions of 49 U.S.C. 47506. These functions are inseparable from the ultimate land use control and planning responsibilities of local government. These local responsibilities are not changed in any way under 14 CFR part 150 or through FAA review and acceptance of the noise exposure maps. Therefore, the responsibility for the detailed overlaying of noise exposure contours onto the maps depicting properties on the surface rests exclusively with the airport operator that submitted the noise exposure maps or with those public agencies and planning authorities with which consultation is required under 49 U.S.C section 47503. The FAA relied on the certification by the airport operator that
