Title: System for Telephonic Notification of Unsafe Conditions at Highway-Rail and Pathway Grade Crossings.

OMB Control Number: 2130–0591.

Abstract: FRA’s regulations on emergency notification systems (ENS) for telephonic reporting of unsafe conditions at highway-rail and pathway grade crossings (subpart E of 49 CFR part 234) prescribe standards to ensure that the congressional mandate¹ to require railroad carriers to establish and maintain a toll-free telephone service to report unsafe conditions at highway-rail and pathway grade crossings is carried out. This collection of information is used by railroads to investigate and respond to unsafe conditions and thereby reduce the risk of accidents/incidents and corresponding casualties and property damage at such crossings. In addition, law enforcement authorities use the information to direct vehicular traffic or carry out other activities to

The summary below describes the ICR that FRA will submit for OMB clearance as the PRA requires:

Title: Use of Locomotive Horns at Highway-Rail Grade Crossings.

OMB Control Number: 2130–0560.

Abstract: FRA’s locomotive horn use regulations (49 CFR part 222) prescribe standards for sounding locomotive horns when locomotives approach and pass through public highway-rail grade crossings. FRA collects information from railroads and public authorities to increase safety at public highway-rail grade crossings nationwide by requiring that locomotive horns be sounded when trains approach and pass through these crossings or by ensuring that a safety level, at least equivalent to that provided by routine locomotive horn sounding, exists for quiet zone corridors in which such routine horn sounding is silenced. FRA reviews applications by public authorities intending to establish new quiet zones by implementing alternative safety measures and approves the effectiveness rate assigned to them.
