

collected information can be enhanced; and

- Minimize the information collection's burden on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting people to submit electronic responses.

Abstract: ATF requests feedback on NRT's effectiveness, performance, strengths, weaknesses, etc., from organizations that request the NRT's investigative and crime scene services in responding to arson and explosives events. The information is used for internal audits that support the NRT's national-level forensics accreditation.

Overview of This Information Collection

1. *Type of information collection:* revision of a previously approved collection.

2. *The title of the form/collection:* National Response Team Customer Satisfaction Survey.

3. *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* Form number: none.

Component: Bureau of Alcohol, Tobacco, Firearms, and Explosives, U.S. Department of Justice.

4. *Affected public who will be asked or required to respond, as well as the obligation to respond:* state, local and tribal governments. The obligation to respond is voluntary.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* An estimated 18 respondents will provide information to complete this survey once annually, and it will take each respondent approximately 0.25 hours to complete their responses.

6. *An estimate of the total annual burden (in hours) associated with the collection:* The estimated annual public burden associated with this collection is 5 total hours, which is equal to 18 (total respondents) * 1 (# of responses per respondent) * 0.25 (15 minutes).

7. *An estimate of the total annual cost burden associated with the collection, if applicable:* \$0.

Revisions to This Information Collection

ATF is revising this ICR, OMB control number 1140-0091, to reflect a change from surveys by mail through emailed surveys to now online surveys. In addition, ATF has streamlined the invitation process. As a result of these changes, the time burden for individual respondents has decreased from .5 hours to .25 hours. In addition, the number of arson and explosives crime scene events was lower during the past three years, resulting in a decrease in the annual number of respondents, from 32 in 2022 to 18, a decrease of 14 respondents. These combined changes have resulted in a corresponding decrease in total hourly burden from 16 to five, a decrease of 11 hours. In addition, ATF has added a monetized value for the time burden, due to new OMB request, which has not been in previous ICRs.

DOJ seeks PRA authorization for this information collection for two (2) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOJ notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

Overview of This Information Collection

1. *Type of Information Collection:* Revision to currently approved collection.

2. *Title of the Form/Collection:* Juvenile Facility Census Program (JFCP).

3. *Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection:* The form numbers are CJ–14 (Youth Characteristics Module) and CJ–15 (Facility Operations Module). The applicable components within the Department of Justice are the National Institute of Justice and the Office of Juvenile Justice and Delinquency Prevention, in the Office of Justice Programs.

4. *Affected public who will be asked or required to respond, as well as a brief abstract:* State, local and tribal governments, individuals or households, and Private Sector-for or not for profit institutions.

Abstract: This request for clearance of the Juvenile Facility Census Program (JFCP) will combine two previously, separately cleared data collections: the Census of Juveniles in Residential Placement (CJRP, OMB # 1121–0218)

and the Juvenile Residential Facility Census (JRFC, OMB # 1121–0219). The JFCP collects information from all secure and nonsecure residential placement facilities that house persons younger than age 21 who are being held as a result of some contact with the juvenile justice system for a law violation. This encompasses both status offenses and delinquency offenses and includes youth who are either temporarily detained by the court or committed after adjudication for an offense. The JFCP consolidates the content of the CJRP and JRFC into a single, unified program. It collects general information on facility characteristics and the number of youth housed, and includes two rotating content modules that are administered separately during a two-year collection cycle: the Youth Population module and the Facility Operations module. The Youth Population module collects detailed information on individual youth housed in facilities, including demographic details, placement characteristics, and length of stay. The Facility Operations module collects information on resident services, facility features, and operations. The information gathered in these national collections will be used in published reports and statistics. The reports will be made available to the U.S. Congress, Executive Office of the President, practitioners, researchers, students, the media, others interested in juvenile residential facilities, and the general public via the OJP agency websites. The two data collections are being consolidated to attain cost savings and reduce respondent burden.

5. *Obligation to Respond:* Voluntary.

6. *Total Estimated Number of Respondents:* The total estimated respondents is 1,636 for each module for each year.

7. *Estimated Time per Respondent:* It takes an average of 6 hours to complete the JFCP. The total burden is 9,816, including the two rotating content modules that are administered separately during a two-year collection cycle. The Youth Characteristics module takes an average of 4 hours to complete. The total burden for the Youth Characteristics module is 6,544 hours. The Facility Operations module takes an average of 2 hours to complete. The total burden for the Facility Operations module is 3,272 hours.

8. *Frequency:* The JFCP is a biennial data collection with two content modules administered separately during a two-year collection cycle.

9. *Total Estimated Annual Time Burden:* The average annual burden is

4,908 or 9,816 total hours for the two-year collection cycle.

10. *Total Estimated Annual Other Costs Burden:* The estimated annual cost for JFCP is \$1,142,115. The estimated cost for one collection cycle is \$2,284,230.

If additional information is required, contact: Darwin Arceo, Department Clearance Officer, Enterprise Portfolio Management, Justice Management Division, United States Department of Justice, Two Constitution Square, 145 N Street NE, 4W–218 Washington, DC 20530.
