SUPPLEMENTARY INFORMATION: CPSC seeks to renew the following currently approved collection of information:

Title: Safety Standard for Cigarette Lighters.

OMB Number: 3041-0116.

Type of Review: Renewal of collection.

Frequency of Response: On occasion.

Affected Public: Manufacturers and importers of cigarette lighters.

General Description of Collection: The Safety Standard for Cigarette Lighters (16 CFR part 1210) addresses the risks of death and burn injury associated with fires accidentally started by children playing with cigarette lighters. The standard requires certain test protocols, as well as recordkeeping and reporting requirements. 16 CFR part 1210, subpart B. In addition, section 14(a) of the Consumer Product Safety Act (CPSA) requires manufacturers, importers, and private labelers of a consumer product subject to a consumer product safety standard to issue a certificate stating that the product complies with all applicable consumer product safety standards. 15 U.S.C. 2063(a). Section 14(a) of the CPSA also requires that the certificate of compliance must be based on a test of each product or upon a reasonable testing program. *Id.*

Estimated Number of Respondents: Based on averaging available data from fiscal years 2021 (used in the last PRA renewal) and 2024, CPSC estimates approximately 30 firms will respond to the collection annually.

Estimated Time per Response: The burden associated with the standard includes the time spent compiling the test records. The burden associated with compiling a test record for a new model is expected to be about 90 hours per model. There is no burden associated

with the comparison lighters.¹ For recordkeeping, the time for a new model is estimated to be 20 hours and for a comparison lighter it is estimated to be three hours. For reporting, approximately one hour per product will be required for manufacturers to submit information to CPSC.

Total Estimated Annual Burden: CPSC expects four new models to be subject to initial qualification testing annually and approximately 139 lighters comparable to previously tested models, comparison lighters, to be subject to ongoing testing annually.

The burden associated with the standard includes the cost for compiling and maintaining the test records, either by the firm or by outside contractors. As previously mentioned, comparison lighters do not have a burden associated with compiling a test record, including costs. If the firm elects to use an outside contractor, the estimated cost for compiling a test record for a new model is about \$25,000 on average.² If all four new lighter models are tested annually by outside contractors, the cost is expected to be about \$100,000. The total time to compile a test record for the four models, if conducted in-house, is approximately 360 hours. The total time for recordkeeping of new models is expected to be 80 hours (20 hours × 4 models). For 139 comparison lighters, the estimated burden for recordkeeping is 417 hours (139 models × 3 hours). For reporting, CPSC estimates 143 total hours for reporting (4 new models + 139 comparison lighters). The annual total number of hours is expected to be 1,000 hours (360 testing hours + 497 record keeping hours + 143 reporting hours) per year.

Total Estimated Annual Cost to Respondents: CPSC estimates that hourly compensation for the time required for compiling a test record is \$77.19 per hour (U.S. Bureau of Labor Statistics, “Employer Costs for Employee total compensation for management, professional, and related workers in goods-producing industries: https://www.bls.gov/news.release/archives/ecec_06132025.pdf). The total cost to industry for this regulation is expected to be within the range of \$27,788 to \$100,000 per year, depending on whether the testing is performed in-house or outsourced.

¹ Under § 1210.14, if a manufacturer has tested one lighter model, and then wishes to distribute another lighter model that differs from the first model only in features that would not have an adverse effect on child resistance, the second model need not be tested in accordance with § 1210.4.

² This estimate is based on an approximate cost of \$22,000 of compiling a test record per panel, but for a few models a second test panel will be required.

For the recordkeeping burden, CPSC estimates that the hourly compensation is \$41.59 (U.S. Bureau of Labor Statistics, “Employer Costs for Employee Compensation,” March 2025, Table 4, total compensation for all sales and office workers in goods-producing, private industries: https://www.bls.gov/news.release/archives/ecec_06132025.pdf). The estimated annual cost of recordkeeping for new models rounded to the nearest dollar is \$3,327 (80 hours × \$41.59). The estimated annual cost of recordkeeping for comparison lighters rounded to the nearest dollar is \$17,343 (417 hours × \$41.59). In total, the estimated recordkeeping burden for new lighter models and comparison lighters is 497 hours (80 hours + 417 hours). The estimated total recordkeeping costs for new lighter models and comparison lighters is \$20,670 (\$3,327 + \$17,343).

For the reporting burden, CPSC estimates the hourly compensation for the time required for submitting the form to be \$41.59 (U.S. Bureau of Labor Statistics, “Employer Costs for Employee Compensation,” March 2025, Table 4, total compensation for all sales and office workers in goods-producing, private industries: https://www.bls.gov/news.release/archives/ecec_06132025.pdf). Therefore, rounded to the nearest whole dollar, the estimated cost of reporting is \$5,947.

CPSC estimates that the total burden cost for firms to prepare, maintain, and submit testing records to the CPSC is within the range of \$54,406 to \$126,618, depending upon whether the firms choose to conduct testing in-house or through outsourcing.

Secretary Consumer Product Safety Commission.

COUNCIL OF THE INSPECTORS GENERAL ON INTEGRITY AND EFFICIENCY

Senior Executive Service Performance Review Board Membership

AGENCY: Council of the Inspectors General on Integrity and Efficiency.

ACTION: Notice.

DATES: Applicable October 1, 2025.

FOR FURTHER INFORMATION CONTACT: Andrew Cannarsa, CIGIE Executive Director, (202) 292-2603. Individual Office of Inspectors General at the telephone numbers listed below.

SUPPLEMENTARY INFORMATION:

I. Background

The Inspector General Act of 1978, as amended, created the Offices of Inspectors General as independent and objective units to conduct and supervise audits and investigations relating to Federal programs and operations. The Inspector General Reform Act of 2008 established the Council of the Inspectors General on Integrity and Efficiency (CIGIE) to address integrity, economy, and effectiveness issues that transcend individual Government agencies; and increase the professionalism and effectiveness of personnel by developing policies, standards, and approaches to aid in the establishment of a well-trained and highly skilled workforce in the Offices of Inspectors General. CIGIE is an interagency council whose executive chair is the Deputy Director for Management, Office of Management and Budget, and is comprised principally of the 70 Inspectors General (IGs).

II. CIGIE Performance Review Board

Under 5 U.S.C. 4314(c)(1)–(5), and in accordance with regulations prescribed by the Office of Personnel Management, each agency is required to establish one or more Senior Executive Service (SES) performance review boards. The purpose of these boards is to review and evaluate the initial appraisal of a senior executive's performance by the supervisor, along with any recommendations to the appointing authority relative to the performance of the senior executive.
