

back to the source. Along with further extension of the Commission's caller ID authentication requirements and Robocall Mitigation Database filing requirements, the Commission adopted several robocall mitigation requirements, including a requirement for gateway providers to respond to traceback within 24 hours, mandatory blocking requirements, a "know your upstream provider" requirement, and a general mitigation requirement.

Gateway Provider Report and Order, FCC 22-37, Paras. 65-71, 47 CFR 64.1200(n)(1)

A voice service provider must: . . . Upon receipt of a traceback request from the Commission, civil law enforcement, criminal law enforcement, or the industry traceback consortium:

(i) If the provider is an originating, terminating, or non-gateway intermediate provider for all calls specified in the traceback request, the provider must respond fully and in a timely manner;

(ii) If the provider receiving a traceback request is the gateway provider for any calls specified in the traceback request, the provider must fully respond to the traceback request within 24 hours of receipt of the request. The 24-hour clock does not start outside of business hours, and requests received during that time are deemed received at 8:00 a.m. on the next business day. If the 24-hour response period would end on a non-business day, either a weekend or a federal legal holiday, the 24-hour clock does not run for the weekend or holiday in question, and restarts at 12:01 a.m. on the next business day following when the request would otherwise be due. For example, a request received at 3:00 p.m. on a Friday will be due at 3:00 p.m. on the following Monday, assuming that Monday is not a federal legal holiday. For purposes of this rule, "business day" is defined as Monday through Friday, excluding federal legal holidays, and "business hours" is defined as 8:00 a.m. to 5:30 p.m. on a business day. For purposes of this rule, all times are local time for the office that is required to respond to the request.

The first portion of the information collection for which OMB approval is sought comes from the requirement adopted in the Gateway Provider Report and Order that all voice service providers respond to traceback "fully and in a timely manner" and gateway providers must respond within 24 hours. All voice service providers, including gateway providers are required to respond to traceback requests from the Commission, civil and

criminal law enforcement, and the Industry Traceback Consortium. Traceback is a key enforcement tool in the fight against illegal calls, allowing the Commission or law enforcement to identify the caller and bring enforcement actions or otherwise stop future calls before they reach consumers. Any unnecessary delay in the process can increase the risk that this essential information may become impossible to obtain. While traceback is not a new process, some providers have historically been reluctant to respond, or have simply ignored requests. This requirement ensures that all providers are on notice that a response is required, and allows real consequences for refusal.

Needs and Uses: Under Section 614 of the Communications Act and the implementing rules adopted by the Commission, commercial TV broadcast stations are entitled to assert mandatory carriage rights on cable systems located within the station's television market. Under Section 325(b) of the Communications Act, commercial TV broadcast stations are entitled to negotiate with local cable systems for carriage of their signal pursuant to retransmission consent agreements in lieu of asserting must carry rights. This system is therefore referred to as "Must-Carry and Retransmission Consent." Under Section 615 of the

Communications Act, noncommercial educational (NCE) stations are also entitled to assert mandatory carriage rights on cable systems located within the station's market; however, noncommercial TV broadcast stations are not entitled to retransmission consent.

In 2019, the Commission adopted new rules governing the delivery and form of carriage election notices. Electronic Delivery of MVPD Communications, Modernization of Media Regulation Initiative, MB Docket Nos. 17–105, 17–317, Report and Order and Further Notice of Proposed Rulemaking, FCC 19–69, 34 FCC Rcd 5922(2019) (2019 Report and Order). That decision modernized the carriage election notice rules by moving the process online for most broadcasters and multichannel video programming distributors (MVPDs), but the Commission sought comment on how to apply these updated rules to certain small broadcast stations and MVPDs.

In 2020, the Commission adopted a Report and Order that resolved the remaining issues regarding carriage election notice rules for small broadcast stations and MVPDs. Electronic Delivery of MVPD Communications, Modernization of Media Regulation Initiative, MB Docket Nos. 17–105, 17–317, Report and Order, FCC 20–14, 2020 WL 948697 (rel. Feb. 25, 2020) (2020 Report and Order). Pursuant to that decision, the obligations of certain small broadcasters and MVPDs were slightly modified.

The Commission is seeking an extension without change of this currently approved collection for the full three-year period.
