

Commission's burden estimates; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

Pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107-198, see 44 U.S.C. 3506(c)(4), the FCC seeks specific comment on how it might further reduce the information collection burden for small business concerns with fewer than 25 employees.

OMB Control Number: 3060-0816.

Title: Local Telephone Competition and Broadband Reporting, Report and Order, FCC Form 477, (WC Docket No. 19-195, WC Docket No. 11-10, FCC 19-79).

Form Number: FCC Form 477.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; not-for-profit institutions; and state, local, or tribal governments.

Number of Respondents and Responses: 3,400 respondents; 6,800 responses.

Estimated Time per Response: 289 hours (average).

Frequency of Response: Semi-annual reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 4(i), 201, 218-220, 251-252, 271, 303(r), 332, and 403 of the Communications Act of 1934, as amended, and in section 706 of the Telecommunications Act of 1996, as amended, codified in section 1302 of the Broadband Data Improvement Act, 47 U.S.C. 1302.

Total Annual Burden: 1,965,200 hours.

Total Annual Cost: No cost.

Needs and Uses: FCC Form 477 provides an understanding of broadband and voice subscribership, and, through its critical connection to the Broadband Data Collection, the extent of broadband availability. The understanding of broadband subscribership and availability provided by these data are the foundation of the Commission's development of appropriate broadband policies, and enable the Commission to carry out its obligation under section 706 of the Telecommunications Act of 1996, as amended, to "determine whether advanced telecommunications capability is being deployed to all Americans in a reasonable and timely fashion." In addition, the information collected in Form 477 enhances the Commission's analysis and understanding of the extent of voice

telephone services competition, which in turn supports the Commission's efforts to open all telecommunications markets to competition and to promote innovation and investment by all participants, including new entrants, as required by the Telecommunications Act of 1996.

The Commission staff uses the information to advise the Commission about the efficacy of its rules and policies adopted to implement the Telecommunications Act of 1996. The data are necessary to evaluate the status of local telecommunications competition and broadband availability. The Commission uses the data to prepare reports that help inform consumers and policy makers at the federal and state level on the availability and adoption of broadband services, as well as on developments related to competition in the voice telephone services market. The Commission also uses the data to support its analyses in a variety of rulemaking proceedings under the Communications Act, including those related to fulfilling its universal service mandate.

The Commission releases to the public the broadband availability and mobile voice availability data that it began collecting in 2014 as a result of the Order. This information is used by consumers, federal and state government agencies, analysts, and others to determine broadband service availability by provider, technology, and speed.

Federal Communications Commission.

Marlene Dortch,

Secretary.
