

consent orders, and any other agency actions (collectively, agency actions) to identify those agency actions that impose an undue burden on the identification, development, or use of domestic energy resources.” 90 FR 8353. As part of that review, DOE has identified the National Definition of a Zero Emissions Building as a guidance document that does not align with Administration priorities.

The Request for Information (RFI) for the development of the National Definition of a Zero Emissions Building suggests that a key impetus for the development of the standard was the Biden-Harris Administration’s goal of a, “net-zero emissions, economy-wide, by 2050 and a 100% clean energy electricity sector by 2035.” 89 FR 1086. These goals were detailed in the February 2021 Executive Order 14008, “Tackling the Climate Crisis at Home and Abroad.” 86 FR 7619. However, Executive Order 14008 was rescinded through President Trump’s January 2025 Executive Order 14148, “Initial Rescission of Harmful Executive Orders and Actions.” 90 FR 8237. Thus, the goals outlined in Executive Order 14008 are no longer applicable and a guidance document that would support those goals, such as the National Definition of a Zero Emissions Building, is no longer needed.

The RFI also indicates that the definition would help advance the environmental justice goals outlined Executive Order 14096, “Revitalizing Our Nation’s Commitment to Environmental Justice for All.” 88 FR 25251. However, this Executive order no longer applies as it was also rescinded through the Trump Administration’s, Executive Order 14148 “Initial Rescission of Harmful Executive Orders and Actions,” which identified diversity, equity, and inclusion (DEI) as having corrupted institutions by “replacing hard work, merit, and equality with a divisive and dangerous preferential hierarchy.” 90 FR 8237. Thus, the goals outlined in Executive Order 14096 are no longer applicable and a guidance document that would support those goals, such as the National Definition of a Zero Emissions Building, is no longer needed.

Additionally, removing support for the National Definition of Zero Emission Building is consistent with the Secretarial Order on “Unleashing the Golden Era of American Energy Dominance,” which directs DOE actions in response to President Trump’s Executive orders to unleash American Energy. The Secretarial Order is broadly unresponsive of net-zero policies under the belief that they “raise energy costs

for American families and businesses, threaten the reliability of our energy system, and undermine our energy and national security.”¹ The Department recommends that state or local government agencies and standard-setting bodies stop referencing or otherwise citing the national definition.
