

(d) and (e) of 42 CFR 71.4 expired on November 21, 2025. Paragraphs (a) through (c), which were finalized in 2017, shall remain (82 FR 6975, Jan. 19, 2017, as amended at 82 FR 31728, July 10, 2017).

List of Subjects in 42 CFR Part 71

Apprehension, Communicable diseases, Conditional release, CDC, Ill person, Isolation, Non-invasive, Public health emergency, Public health prevention measures, Qualifying stage, Quarantine, Quarantinable, Communicable disease.

For the reasons set forth in the preamble, the Department of Health and Human Services, on behalf of the Centers for Disease Control and Prevention, amends 42 CFR part 71 as follows:

PART 71—FOREIGN QUARANTINE

■ 1. The authority citation for part 71 continues to read as follows:

Authority: Secs. 215 and 311 of the Public Health Service (PHS) Act, as amended (42 U.S.C. 216, 243); secs. 361–369, PHS Act, as amended (42 U.S.C. 264–272).

§ 71.4 [Amended]

■ 2. Amend § 71.4 by removing paragraphs (d) and (e).

Robert F. Kennedy, Jr.,

Secretary, Department of Health and Human Services.

[Docket No. 241203–0308; RTID 0648–XF335]

Fisheries of the Northeastern United States; Summer Flounder Fishery; Quota Transfer From North Carolina to Massachusetts

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; quota transfer.

SUMMARY: NMFS announces that the State of North Carolina is transferring a portion of its 2025 commercial summer flounder quota to the Commonwealth of Massachusetts. This adjustment to the 2025 fishing year quota is necessary to comply with the Summer Flounder,

Scup, and Black Sea Bass Fishery Management Plan (FMP) quota transfer provisions. This announcement informs the public of the revised 2025 commercial quotas for North Carolina and Massachusetts.

DATES: Effective December 3, 2025, through December 31, 2025.

FOR FURTHER INFORMATION CONTACT: Matthew Rigdon, Fishery Management Specialist, (978) 281–9336.

SUPPLEMENTARY INFORMATION:

Regulations governing the summer flounder fishery are found in 50 CFR 648.100 through 648.111. These regulations require annual specification of a commercial quota that is apportioned among the coastal states from Maine through North Carolina. The process to set the annual commercial quota and the percent allocated to each state is described in § 648.102, and the final 2025 allocations were published on December 10, 2024 (89 FR 99138).

The final rule implementing Amendment 5 to the FMP, as published in the **Federal Register** on December 17, 1993 (58 FR 65936), provided a mechanism for transferring summer flounder commercial quota from one state to another. Two or more states, under mutual agreement and with the concurrence of the NMFS Greater Atlantic Regional Administrator, can transfer or combine summer flounder commercial quota under § 648.102(c)(2). The Regional Administrator is required to consider three criteria in the evaluation of requests for quota transfers or combinations: (1) the transfers or combinations would not preclude the overall annual quota from being fully harvested; (2) the transfers address an unforeseen variation or contingency in the fishery; and (3) the transfers are consistent with the objectives of the FMP and the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). The Regional Administrator has determined these three criteria have been met for the transfer approved in this notification.

North Carolina is transferring 1,801 pounds (lb; 817 kilograms (kg)) of summer flounder to Massachusetts through a mutual agreement between the states. This transfer was requested to repay landings made by an out-of-state permitted vessel under a safe harbor agreement on September 9, 2025. The revised summer flounder quotas for 2025 are: North Carolina, 2,332,603 lb (1,058,051 kg); and Massachusetts, 596,041 lb (270,360 kg).

On November 7, 2025, NMFS announced that the 2025 summer flounder commercial quota for the Commonwealth of Massachusetts has

been harvested (90 FR 50490). Effective 0001 hours November 7, 2025, through December 31, 2025, landings of summer flounder in Massachusetts by vessels holding Federal summer flounder commercial fishery permits are prohibited for the remainder of the 2025 calendar year. Further, federally permitted dealers are also notified that they may not purchase summer flounder from federally permitted vessels that land in Massachusetts for the remainder of the calendar year.

Classification

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. This action is required by 50 CFR 648.102(c)(2)(i) through (iv), which was issued pursuant to section 304(b) of the Magnuson-Stevens Act, and is exempted from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: December 2, 2025.

Kelly Denit,

Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

[Docket No. 241203–0308; RTID 0648–XF338]

Fisheries of the Northeastern United States; Atlantic Bluefish Fishery; Quota Transfer From Rhode Island to North Carolina

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; quota transfer.

SUMMARY: NMFS announces that the State of Rhode Island is transferring a portion of their 2025 commercial bluefish quota to the State of North Carolina. This quota adjustment is necessary to comply with the Atlantic Bluefish Fishery Management Plan (FMP) quota transfer provisions. This announcement informs the public of the revised 2025 commercial bluefish quotas for Rhode Island and North Carolina.

DATES: Effective December 3, 2025 through December 31, 2025.

FOR FURTHER INFORMATION CONTACT:

Matthew Rigdon, Fishery Management Specialist, (978) 281-9336.

SUPPLEMENTARY INFORMATION:

Regulations governing the Atlantic bluefish fishery are found in 50 CFR 648.160 through 648.167. These regulations require annual specification of a commercial quota that is apportioned among the coastal states from Maine through Florida. The process to set the annual commercial quota and the percent allocated to each state is described in § 648.162, and the final 2025 allocations were published on December 10, 2024 (89 FR 99138).

The final rule implementing amendment 1 to the FMP, as published in the **Federal Register** on July 26, 2000 (65 FR 45844), provided a mechanism for transferring bluefish commercial quota from one state to another. Two or more states, under mutual agreement and with the concurrence of the NMFS Greater Atlantic Regional Administrator, can request approval to transfer or combine bluefish commercial quota under § 648.162(e). The Regional Administrator is required to consider three criteria in the evaluation of requests for quota transfers or combinations: (1) the transfers would not preclude the overall annual quota from being fully harvested; (2) the transfers address an unforeseen variation or contingency in the fishery; and (3) the transfers are consistent with the objectives of the FMP and the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). The Regional Administrator has determined these criteria have been met for the transfers approved in this notification.

Rhode Island is transferring 50,000 pounds (lb) (22,680 kilograms (kg)) to North Carolina through mutual agreement of the states. This transfer was requested to ensure North Carolina would not exceed its 2025 state quota. The revised bluefish quotas for 2025 are: Rhode Island, 205,061 lb (93,014 kg) and North Carolina, 1,322,012 lb (599,655 kg).

Classification

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. This action is required by 50 CFR 648.162(e)(1)(i) through (iii), which was issued pursuant to section 304(b), and is exempted from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

[Docket No: 230316-0077; RTID 0648-XF343]

Fisheries of the Northeastern United States; Atlantic Herring Fishery; Second 2025 Management Area 1A Possession Limit Adjustment

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; possession limit adjustment.

SUMMARY: NMFS is implementing a 2,000-pound (lb; 907.2-kilogram (kg)) possession limit for Atlantic herring for Management Area 1A. This adjustment is required because NMFS projects that herring catch from Area 1A has reached 92 percent of the Area's sub-annual catch limit before the end of the fishing year. This action is intended to prevent overharvest of herring in Area 1A, which would result in additional catch limit reductions in a subsequent year.

DATES: December 2, 2025, through December 31, 2025.

FOR FURTHER INFORMATION CONTACT:

Ashley Trudeau, Fishery Resource Management Specialist, (978) 281-9252.

SUPPLEMENTARY INFORMATION: The Regional Administrator of the Greater Atlantic Regional Office monitors Atlantic herring fishery catch in each Management Area based on vessel and dealer reports, state data, and other available information. Regulations at 50 CFR 648.201(a)(1)(i)(A) require implementation of a 2,000-lb (907.2-kg) possession limit for herring for Area 1A when catch is projected to reach 92 percent of the sub-annual catch limit (ACL) for that area. The Magnuson-Stevens Fishery Conservation and Management Act provides authority to implement the possession limit only to the Secretary of Commerce, which has been delegated to the Regional Administrator.

Based on vessel reports, dealer reports, and other available information the Regional Administrator estimates

that the herring fleet caught 102 percent of the Area 1A sub-ACL through November 26, 2025. Therefore, unless otherwise changed by subsequent action, effective 0001 hr local time December 2, 2025, through December 31, 2025, a person may not attempt or do any of the following: fish for; possess; transfer; purchase; receive; land; or sell more than 2,000 lb of herring per trip or more than once per calendar day in or from Area 1A.

Vessels that enter port before 0001 hr local time on December 2, 2025, may land and sell more than 2,000 lb (907.2 kg) of herring from Area 1A from that trip, provided that the catch is landed in accordance with state management measures. Vessels may transit or land in Area 1A with more than 2,000 lb (907.2 kg) of herring on board, provided that: the herring were caught in an area not subject to a 2,000-lb (907.2-kg) limit; all fishing gear is stowed and not available for immediate use; and the vessel is issued a permit appropriate to the amount of herring on board and the area where the herring was harvested.

Also, unless otherwise changed by subsequent action, effective 0001 hr local time, December 2, 2025, through 2400 hr local time, December 31, federally permitted dealers may not attempt or do any of the following: purchase; receive; possess; have custody or control of; sell; barter; trade; or transfer more than 2,000 lb (907.2 kg) of herring per trip or calendar day from Area 1A, unless it is from a vessel that enters port before 0001 hr local time on December 2, 2025, and catch is landed in accordance with state management measures.

On June 25, 2025, NMFS proposed new 2025-2027 herring specifications, which, if they become final, would increase the 2025 ACL and sub-ACLs, including the Area 1A sub-ACL (90 FR 26955). If appropriate, the 2,000-lb possession limit for Area 1A would be lifted until 92 percent of the new 2025 Area 1A sub-ACL is projected to be caught, including all 2025 Area 1A catch harvested prior to implementation of the new specifications.

Classification

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Fishery Conservation and Management Act. It is required by 50 CFR part 648, which was issued pursuant to section 304(b), and is exempt from review under Executive Order 12866.

NMFS finds good cause pursuant to 5 U.S.C. 553(b)(B) to waive prior notice and the opportunity for public comment because it is unnecessary, contrary to the public interest, and impracticable.
