

Comments: Comments related to this docket may be submitted by going to <https://www.regulations.gov> and following the online instructions for submitting comments.

Instructions: All submissions must include the agency name and docket number. All comments received will be posted without change to <https://www.regulations.gov>; this includes any personal information. Please see the Privacy Act heading in the **SUPPLEMENTARY INFORMATION** section of this document for Privacy Act information related to any submitted comments or materials.

Docket: For access to the docket to read background documents or comments received, go to <https://www.regulations.gov> and follow the online instructions for accessing the docket.

FOR FURTHER INFORMATION CONTACT: Steven Zuiderveen, Railroad Safety Specialist, FRA Motive Power & Equipment Division, telephone: 202–493–6337, email: steven.zuiderveen@dot.gov.

SUPPLEMENTARY INFORMATION: Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that by letter dated August 13, 2025 CN petitioned FRA for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 232 (Brake System Safety Standards for Freight and Other Non-Passenger Trains and Equipment; End-of-Train Devices). FRA assigned the petition Docket Number FRA–2025–0590.¹

Specifically, CN seeks relief from § 232.205(c)(1)(ii)(B), *Air Flow Method Test*, which states that a “train equipped with at least one distributed power unit or air repeater unit providing a source of brake pipe control air from two or more locations must not exceed a combined flow of 90 cubic feet per minute (CFM).” CN explains that drastic temperature changes along a train’s route may affect brake pipe airflow, and the challenge can be mitigated by adding additional air sources, which CN has been testing pursuant to a rule exemption by Transport Canada. In the petition, CN reports that “by adding air sources to the train, the overall health of the brake system improves notwithstanding that the combined airflow will exceed 90 CFM,” and therefore seeks to increase the maximum allowable combined brake

pipe air flow from 90 CFM to 160 CFM across three air sources. The change would only apply to trains on the Sprague Subdivision (operated by CN) and on the Chicago to Winnipeg corridor (operated by WCL in the U.S. and CN in Canada), which totals about 18 trains on each route.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

Communications received by January 8, 2026 will be considered by FRA before final action is taken. Comments received after that date will be considered if practicable.

Privacy Act

Anyone can search the electronic form of any written communications and comments received into any of FRA’s dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). Under 5 U.S.C. 553(c), DOT solicits comments from the public to inform its processes. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at <https://www.transportation.gov/privacy>. See also <https://www.regulations.gov/privacy-notice> for the privacy notice of [regulations.gov](https://www.regulations.gov).

Issued in Washington, DC.

John Karl Alexy,

*Associate Administrator for Railroad Safety,
Chief Safety Officer.*

DEPARTMENT OF TRANSPORTATION

Pipeline and Hazardous Materials Safety Administration

[Docket No. PHMSA–2025–1107]

Pipeline Safety: Minimum Random Drug Testing Rate for Calendar Year 2026

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA), Department of Transportation (DOT).

ACTION: Notice.

SUMMARY: PHMSA has determined that the minimum annual percentage rate for random drug testing for covered employees will be 50 percent during calendar year (CY) 2026.

DATES: Applicable January 1, 2026 through December 31, 2026.

FOR FURTHER INFORMATION CONTACT: Wayne Lemoi, Drug & Alcohol Program Manager, Office of Pipeline Safety, by phone at 909–937–7232 or by email at wayne.lemoi@dot.gov.

SUPPLEMENTARY INFORMATION:

Notice of CY 2026 Minimum Annual Percentage Rate for Random Drug Testing

Operators of gas, hazardous liquid, and carbon dioxide pipeline facilities; liquefied natural gas plants; and underground natural gas storage facilities must randomly select and test a percentage of all drug and alcohol (D&A) covered employees for prohibited drug use in accordance with 49 Code of Federal Regulations (CFR) part 199.

The Administrator can adjust the minimum random drug testing rate based on the reported positive rate of the industry’s random drug tests, which is obtained from operators’ and contractors’ annual Drug and Alcohol Management Information System (DAMIS) reports as required by section 199.119(a). In accordance with § 199.105(c)(3), if the reported positive drug test rate is below one percent for two consecutive CYs, the Administrator may lower the random drug testing rate to 25 percent of all covered employees. Conversely, § 199.105(c)(4) requires the Administrator to raise the minimum annual random drug testing rate from 25 percent to 50 percent [or maintain the rate at 50 percent] of all covered employees when the data obtained from the latest annual DAMIS reports required by § 199.119(a) indicate the positive test rate is equal to or greater than one percent.

The minimum annual random drug testing rate was 50 percent of all

¹ CN petitioned for a similar waiver in Docket Number FRA–2021–0091. <https://www.regulations.gov/docket/FRA-2021-0091/document>.

covered employees during CY 2025. The DAMIS reports submitted for CY 2024 testing had a random drug testing positive rate greater than one percent. Therefore, the Administrator is maintaining the minimum annual random drug testing rate at 50 percent of all covered employees for CY 2026.

Issued in Washington, DC, on December 4, 2025, under authority delegated in 49 CFR 1.97.

Linda Daugherty,

Acting Associate Administrator for Pipeline Safety.

BILLING CODE 4910–60–P

DEPARTMENT OF THE TREASURY

Office of the Comptroller of the Currency

Agency Information Collection Activities: Information Collection Renewal; Comment Request; Financial Management Policies—Interest Rate Risk

AGENCY: Office of the Comptroller of the Currency (OCC), Treasury.

ACTION: Notice and request for comment.

SUMMARY: The OCC, as part of its continuing effort to reduce paperwork and respondent burden, invites comment on a continuing information collection, as required by the Paperwork Reduction Act of 1995 (PRA). In accordance with the requirements of the PRA, the OCC may not conduct or sponsor, and the respondent is not required to respond to, an information collection unless it displays a currently valid Office of Management and Budget (OMB) control number. The OCC is soliciting comment concerning the renewal of its information collection titled, “Financial Management Policies—Interest Rate Risk,” which is applicable only to Federal savings associations.

DATES: Comments must be received by February 9, 2026.

ADDRESSES: Commenters are encouraged to submit comments by email, if possible. You may submit comments by any of the following methods:

- *Email:* prainfo@occ.treas.gov.
- *Mail:* Chief Counsel’s Office,

Attention: Comment Processing, Office of the Comptroller of the Currency, Attention: 1557–0299, 400 7th Street SW, Suite 3E–218, Washington, DC 20219.

- *Hand Delivery/Courier:* 400 7th Street SW, Suite 3E–218, Washington, DC 20219.

- *Fax:* (571) 293–4835.

Instructions: You must include “OCC” as the agency name and “1557–0299” in your comment. In general, the OCC will publish comments on www.reginfo.gov without change, including any business or personal information provided, such as name and address information, email addresses, or phone numbers. Comments received, including attachments and other supporting materials, are part of the public record and subject to public disclosure. Do not include any information in your comment or supporting materials that you consider confidential or inappropriate for public disclosure.

Following the close of this notice’s 60-day comment period, the OCC will publish a second notice with a 30-day comment period. You may review comments and other related materials that pertain to this information collection beginning on the date of publication of the second notice for this collection by the method set forth in the next bullet.

- *Viewing Comments Electronically:* Go to www.reginfo.gov. Hover over the “Information Collection Review” tab and click on “Information Collection Review” from the drop-down menu. From the “Currently under Review” drop-down menu, select “Department of the Treasury” and then click “submit.” This information collection can be located by searching OMB control number “1557–0299” or “Financial Management Policies—Interest Rate Risk.” Upon finding the appropriate information collection, click on the related “ICR Reference Number.” On the next screen, select “View Supporting Statement and Other Documents” and then click on the link to any comment listed at the bottom of the screen.

- For assistance in navigating www.reginfo.gov, please contact the Regulatory Information Service Center at (202) 482–7340.

FOR FURTHER INFORMATION CONTACT:

Shaquita Merritt, Clearance Officer, (202) 649–5490, Chief Counsel’s Office, Office of the Comptroller of the Currency, 400 7th Street SW, Washington, DC 20219. If you are deaf, hard of hearing, or have a speech disability, please dial 7–1–1 to access telecommunications relay services.

SUPPLEMENTARY INFORMATION: Under the PRA (44 U.S.C. 3501 *et seq.*), Federal agencies must obtain approval from the OMB for each collection of information that they conduct or sponsor. “Collection of information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) to include agency requests or

requirements imposed on ten or more persons, that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of title 44 generally requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, the OCC is publishing notice of the renewal of this collection.

Title: Financial Management Policies—Interest Rate Risk.

OMB Control No.: 1557–0299.

Type of Review: Regular.

Affected Public: Businesses or other for-profit.

Description: This information collection covers the recordkeeping burden for Federal savings associations to maintain data in accordance with OCC’s regulation on interest rate risk procedures, 12 CFR 163.176. The purpose of the regulation is to ensure that Federal savings associations appropriately manage their exposure to interest rate risk. To comply with this reporting requirement, institutions need to maintain sufficient records to document how their interest rate risk exposure is monitored and managed internally.

Estimated Burden

Estimated Frequency of Response: On occasion.

Estimated Number of Respondents: 230.

Estimated Burden per Respondent: 40 hours.

Estimated Total Annual Burden: 9,200 hours.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval. All comments will become a matter of public record. Comments are invited on:

(a) Whether the collection of information is necessary for the proper performance of the functions of the OCC, including whether the information has practical utility;

(b) The accuracy of the OCC’s estimate of the burden of the collection of information;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected;

(d) Ways to minimize the burden of the collection on respondents, including through the use of automated collection techniques or other forms of information technology; and

(e) Estimates of capital or start-up costs and costs of operation,
