DEPARTMENT OF COMMERCE

National Telecommunications and Information Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Tribal Broadband Connectivity Program (TBCP) and Native Entities Grant Program (NEGP)

AGENCY: National Telecommunications and Information Administration (NTIA), Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which help us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before February 9, 2026.

ADDRESSES: Interested persons are invited to submit written comments by mail to Jennifer Duane, Director, Grants Management, Administration, and Compliance, Office of Internet Connectivity and Growth, National Telecommunications and Information Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Room 4874, Washington, DC 20230, or by email to broadbandusa@ntia.gov. Please reference “TBCP and NEGP Application Forms Comment” in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Jennifer Duane, Director, Grants Management, Administration, and Compliance, via telephone at (202) 482–1763, or via email at jduane@ntia.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Infrastructure Investment and Jobs Act, 2021 (Infrastructure Act), which was adopted on November 15, 2021, provided \$65 billion of funding for programs to close the digital divide and ensure that all Americans have access to affordable, reliable, high-speed internet. NTIA administers multiple broadband connectivity grant programs funded by the Infrastructure Act. Under the Native Entities Grant Program (NEGP), which brings together the set-asides authorized under 47 U.S.C. 1723(i) (Digital Equity Capacity Grant Program) and 1724(j) (Digital Equity Competitive Grant Program), NTIA is required to reserve not less than five percent (5%) of total program funds for Indian Tribes, Alaska Native entities, and Native Hawaiian organizations (collectively referred to as “Native Entities”). These set-asides ensure that Native communities have direct access to funding to advance broadband adoption, digital skills development, and access to devices and public connectivity resources.

Likewise, the Tribal Broadband Connectivity Program (TBCP), authorized by the Consolidated Appropriations Act, 2021, adopted on December 27, 2020, (CAA) as amended by the Infrastructure Act, Division F, Title II, Section 60201, Public Law 117–58, 135 Stat. 429 (Nov. 15, 2021), provides new federal funding for grants

to eligible entities to expand access to and adoption of: (i) Broadband service on Tribal Land; or (ii) for programs that promote the use of broadband to access remote learning, telework, or telehealth resources.

NTIA intends to release Notice of Funding Opportunities (NOFOs) in spring 2026 for both NEGP and TBCP to support Tribal broadband access. NTIA is working on reforms across these programs to reduce red tape for Tribal governments, promote flexibility, and align NTIA's grant opportunities to better serve Tribal connectivity. These reforms will be reflected in the forthcoming NOFOs.

NTIA will use the information collected from each applicant to effectively review the proposed applications and budgets from Indian Tribes, Alaska Native Entities, and Native Hawaiian organizations for NEGP, and from Tribal Governments, Tribal Colleges or Universities, Tribal organizations, or Alaska Native Corporations for TBCP.

II. Method of Collection

NTIA will collect data through both electronic and mail submission.

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to:

(a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department,

including whether the information will have practical utility.

(b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used.

(c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected.

(d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this Information Collection Request. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Patent and Trademark Office

[Docket No.: PTO-P-2025-0512]

Grant of Interim Extension of the Term of U.S. Patent No. 7,319,099; Bitopertin (GlyT1 inhibitor) Oral Tablets

AGENCY: United States Patent and Trademark Office, Commerce.

ACTION: Notice of interim patent term extension.

SUMMARY: The United States Patent and Trademark Office has issued a certificate under 35 U.S.C. 156(d)(5) for a one-year interim extension of the term of U.S. Patent No. 7,319,099 ('099 patent).

FOR FURTHER INFORMATION CONTACT: Ali Salimi, Senior Legal Advisor, Office of Patent Legal Administration, at 571-272-0909 or ali.salimi@uspto.gov; or Andrea S. Grossman, Legal Advisor, Office of Patent Legal Administration, at (571) 270-3314 or andrea.grossman@uspto.gov.

SUPPLEMENTARY INFORMATION: 35 U.S.C. 156 generally provides that the term of a patent may be extended for a period of up to five years, if the patent claims a product, or a method of making or using a product, that has been subject to certain defined regulatory review. 35 U.S.C. 156(d)(5) generally provides that the term of such a patent may be extended for no more than five interim periods of up to one year each, if the approval phase of the regulatory review period (RRP) is reasonably expected to extend beyond the expiration date of the patent.

On December 1, 2025, Hoffman-La Roche, Inc., the patent owner of record of the '099 patent, timely filed an application under 35 U.S.C. 156(d)(5) for an interim extension of the term of the '099 patent. The '099 patent claims the human drug product Bitopertin (GlyT1 inhibitor) oral tablets. The application indicates that the approval phase for the regulatory period, as described in 35 U.S.C. 156(g)(1)(B)(ii), for NDA 220707 for the human drug product Bitopertin (GlyT1 inhibitor) oral tablets is ongoing before the Food and Drug Administration for permission to market and use the product commercially.

Review of the patent term extension application indicates that, except for permission to market or use the product commercially, the '099 patent would be eligible for an extension of the patent term under 35 U.S.C. 156, and that the patent should be extended for one year as required by 35 U.S.C. 156(d)(5)(B).

Because it appears reasonable to expect the approval phase of the RRP to continue beyond the expiration date of the patent, *i.e.*, December 17, 2025, interim extension of the '099 patent's term under 35 U.S.C. 156(d)(5) is appropriate.

An interim extension under 35 U.S.C. 156(d)(5) of the term of U.S. Patent No. 7,319,099 is granted for a period of one year from the original expiration date of the patent.

Charles Kim,

Deputy Commissioner for Patents, United States Patent and Trademark Office.
