Information Collection Requirement

Title: Secure Flight Program.

Type of Request: Revision of a currently approved collection.

OMB Control Number: 1652-0046.

Forms(s): N/A.

Affected Public: Aircraft operators, airport operators.

Abstract: TSA collects information from covered aircraft operators, including foreign air carriers, in order to prescreen passengers under the Secure Flight Program. The information collected under the Secure Flight Program is used for watch list-matching, for matching against lists of known travelers, and to assess passenger risk (e.g., to identify passengers who present lower risk and may be eligible for expedited screening). The collection covers:

(1) Secure Flight Passenger Data (SFPD) for passengers of covered domestic and international flights within, to, from, or over the continental United States, as well as flights between two foreign locations when operated by a covered U.S. aircraft operator.

(2) SFPD for passengers of charter operators and lessors of aircraft with a maximum takeoff weight of over 12,500 pounds (Twelve-Five operators).

(3) Certain identifying information for non-traveling individuals that covered aircraft operators, airport operators or airport operator points of contact seek to authorize to enter a sterile area at a U.S. airport (e.g., to patronize a restaurant, to escort a minor or a passenger with disabilities, or for another approved purpose). TSA is revising the collection for non-traveling individuals to also request authorization to enter a sterile area at a U.S. airport directly from TSA, and TSA will issue a visitor pass for the non-traveler to enter the sterile area.

(4) Registration information critical to deployment of Secure Flight, such as contact information, data format, or the mechanism the covered aircraft operators use to transmit SFPD and other data.

(5) Lists of low-risk individuals who are eligible for expedited screening provided by federal and non-federal entities. Through TSA PreCheck®, TSA implemented expedited screening of known low-risk travelers. Some federal and non-federal entities maintain lists of eligible individuals pursuant to agreements with DHS and TSA, and provide TSA with a list of eligible low-risk individuals to be used as part of Secure Flight processes. Secure Flight identifies individuals who should receive expedited screening and

transmits the appropriate boarding pass printing result to the aircraft operators.
