Written comments and suggestions from the public and affected agencies should address one or more of the following four points: (1) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) suggestions to enhance the quality, utility, and clarity of the information to be collected; and (4) suggestions to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. The comments that are submitted will be summarized and included in the request for approval. All comments will become a matter of public record.

#### Overview of This Information Collection

*Title:* Guam-CNMI Visa Waiver Information (Form I–736).

*OMB Number:* 1651–0109.

*Form Number:* I–736.

*Current Actions:* Revision.

*Type of Review:* Revision.

*Affected Public:* Individuals.

*Abstract:* Public Law 110–229 provides for certain aliens to be exempt from the nonimmigrant visa requirement if seeking entry into Guam or the Commonwealth of the Northern Mariana Islands (CNMI) as a visitor for a maximum stay of 45 days, provided that no potential threat exists to the welfare, safety, or security of the United States, or its territories, and other criteria are met. At the Secretary’s discretion, passport holders of the People’s Republic of China who are not in possession of a visitors’ visa may be

allowed to enter CNMI for up to 14 days under the discretionary parole authority. Upon arrival at the Guam or CNMI Ports-of-Entry, each applicant for admission presents a completed paper Form I–736 to CBP, which collects information about the applicant’s identity and travel documents. CBP Form I–736 is provided for by 8 CFR 212.1(q).

Please note that certain items on the new version remains identical to those in the original version. However, updates are necessary to be able to transition to automating Form I–736, Guam-CNMI Visa Waiver Information that is used in compliance with the Guam-CNMI Visa Waiver Program. The automation will facilitate CBP to gather information on travelers from Guam-CNMI Visa Waiver Program countries to determine their admissibility to enter Guam or the CNMI. In addition, CBP intends to migrate from paper I–736 to a mandatory automated environment; therefore, the collection of a paper form will no longer be acceptable. However, after the regulation implementing mandatory automation is published, CBP will grant a transition period of three months to facilitate travelers adjusting to the new collection method. At the end of the transition period, the paper I–736 form will become obsolete and travelers must input and submit in advance their personal information and respond to the eligibility questions using the new electronic format. The travelers’ information is pre-screened or vetted against law enforcement databases. Based on the results of the pre-screening, the application is approve or denied. The system generates a board or no board status message to the carrier indicating a denied or approved authorization to board before the flight. The applicant also receives a message with the application status: approved, denied, canceled or pending. All information will be saved in the newly created Guam-CNMI Visa Waiver Program database.

In a recent approval, several data elements were added to the Form I–736: the foreign passport type (mandatory), social media identifier (optional), valid email address (mandatory), and social media provider/platform (optional). Adding these data elements enhances the existing vetting process and provides CBP with additional information to determine travelers’ admissibility to enter Guam or the CNMI under the Guam-CNMI Visa Waiver Program. CBP intends to migrate from the paper Form I–736 process to a mandatory automated process via rulemaking.

## Proposed Changes

As part of the regulatory updates for the Interim Final Rule (IFR) which fully automates the collection of Form I-736 and requires that travelers under the G-CNMI VWP submit this information in advance of arrival. The rule also creates a new system, CNMI EVS-TAP, wherein travelers from the PRC to the CNMI can submit advance information to CBP so they may be vetted for a 14-day visa free admissibility period. These travelers will also need to complete an additional set of vetting questions.

*Type of Information Collection:* Form I-736.

## DEPARTMENT OF HOMELAND SECURITY

### Office of the Secretary

#### Determination Pursuant to Section 102 of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996, as Amended

**AGENCY:** Office of the Secretary, Department of Homeland Security.

**ACTION:** Notice of determination.

**SUMMARY:** The Secretary of Homeland Security has determined, pursuant to law, that it is necessary to waive certain laws, regulations, and other legal requirements in order to ensure the expeditious construction of barriers and roads in the vicinity of the international land border in the state of Texas.

**DATES:** This determination takes effect on December 10, 2025.

**SUPPLEMENTARY INFORMATION:** Important mission requirements of the Department of Homeland Security (“DHS”) include border security and the detection and prevention of illegal entry into the United States. Border security is critical to the nation’s national security. Recognizing the critical importance of border security, Congress has mandated DHS to achieve and maintain operational control of the international land border. Secure Fence Act of 2006, Public Law 109–367, section 2, 120 Stat. 2638 (Oct. 26, 2006) (8 U.S.C. 1701 note). Congress defined “operational control” as the prevention of all unlawful entries into the United States, including entries by terrorists, other unlawful aliens, instruments of terrorism, narcotics, and other contraband. *Id.* Consistent with that mandate, the President’s Executive Order on Securing Our Borders directs that I take all appropriate action to deploy and construct physical barriers to ensure complete operational control of the southern border of the United States. Executive Order 14165, section 3 (Jan. 20, 2025).

Congress has provided to the Secretary of Homeland Security a number of authorities necessary to carry out DHS’s border security mission. One of those authorities is found at section 102 of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996, as amended (“IIRIRA”). Public Law 104–208, Div. C, 110 Stat. 3009–546, 3009–554 (Sept. 30, 1996) (8 U.S.C. 1103 note), as amended by the REAL ID Act of 2005, Public Law 109–13, Div. B, 119 Stat. 231, 302, 306 (May 11, 2005) (8 U.S.C. 1103 note), as amended by the Secure Fence Act of 2006, Public Law 109–367, section 3, 120 Stat. 2638 (Oct. 26, 2006) (8 U.S.C. 1103 note), as amended by the Department of Homeland Security Appropriations Act, 2008, Public Law 110–161, Div. E, Title V, section 564, 121 Stat. 2090 (Dec. 26, 2007). In section 102(a) of IIRIRA, Congress provided that the Secretary of Homeland Security shall take such actions as may be necessary to install additional physical barriers and roads (including the removal of obstacles to detection of illegal entrants) in the vicinity of the United States border to deter illegal crossings in areas of high illegal entry into the United States. In section 102(b) of IIRIRA, Congress mandated that in carrying out the authority of section 102(a), I provide for the installation of additional fencing, barriers, roads, lighting, cameras, and sensors to achieve and maintain operational control of the border. Finally, in section 102(c) of IIRIRA,

Congress granted to the Secretary of Homeland Security the authority to waive all legal requirements that I, in my sole discretion, determine necessary to ensure the expeditious construction of barriers and roads authorized by section 102 of IIRIRA.

### Determination and Waiver

#### Section 1

The United States Border Patrol Laredo Sector is an area of high illegal entry. Between fiscal year 2021 and fiscal year 2025, Border Patrol apprehended over 310,390 illegal aliens attempting to enter the United States between border crossings in the Laredo Sector. In that same time period Border Patrol seized over 44,188 pounds of marijuana, over 576 pounds of cocaine, over 104 pounds of heroin, over 1,246 pounds of methamphetamine, and over 14 pounds of fentanyl.

Since the President took office, DHS has delivered the most secure border in history. More can and must be done, however. As the statistics cited above demonstrate, the Laredo Sector is an area of high illegal entry where illegal aliens regularly attempt to enter the United States and smuggle illicit drugs, and given my mandate to achieve and maintain operational control of the border, I must use my authority under section 102 of IIRIRA to install additional barriers and roads in the Laredo Sector. Therefore, DHS will take immediate action to construct additional barriers and roads in a segment of the border in the Laredo Sector. The segment where such construction will occur is referred to herein as the “project area,” which is more specifically described in Section 2 below.

#### Section 2

I determine that the following area in the vicinity of the United States border, located in the state of Texas within the U. S. Border Patrol Laredo Sector, is an area of high illegal entry (the “project area”): Starting at approximately GPS point 28.028853, –100.008143 and generally following the Rio Grande River south and east to approximately GPS point 26.571855, –99.169240.

There is presently an acute and immediate need to construct additional physical barriers and roads in the vicinity of the border of the United States in order to prevent unlawful entries into the United States in the project area pursuant to section 102(a) and 102(b) of IIRIRA. In order to ensure the expeditious construction of additional physical barriers and roads in the project area, I have determined that
