

accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate forms of information technology. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** document to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: This information collection request pertains to trade secrecy claims submitted under section 322 of the Emergency Planning and Community Right-to-Know Act of 1986 (EPCRA). EPCRA contains provisions requiring facilities to report to state and local authorities, and EPA, the presence of extremely hazardous substances (section 302), inventory of hazardous chemicals (sections 311 and 312) and manufacture, process and use of toxic chemicals (section 313). Section 322 of EPCRA allows a facility to withhold the specific chemical identity from these EPCRA reports if the facility asserts a trade secret claim for that chemical identity. The provisions in section 322 establish the requirements and procedures that facilities must follow to request trade secret treatment of chemical identities, as well as the procedures for submitting public petitions to the Agency for review of the "sufficiency" of trade secret claims.

Trade secret protection is provided for specific chemical identities contained in reports submitted under each of the following sections of EPCRA: (1) Section 303(d)(2)—Facility notification of changes that have or are about to occur; (2) section 303(d)(3)—Local Emergency Planning Committee (LEPC) requests for facility information to develop or implement emergency plans; (3) section 311—Material Safety Data Sheets (MSDSs) submitted by facilities, or lists of those chemicals submitted in place of

the MSDSs; (4) section 312—Emergency and Hazardous Chemical Inventory forms (Tier I and Tier II); and (5) section 313—Toxic chemical release inventory form.

The burden estimates, numbers and types of respondents, wage rates and unit and total costs for this ICR renewal will be revised and updated if needed during the 60-day comment period while the ICR Supporting Statement is undergoing review at OMB.

Form numbers: EPA Form 9510-1.

Respondents/affected entities: Entities potentially affected by this action are manufacturer and non-manufacturer facilities subject to reporting under sections 303, 311, 312 or 313 of the Emergency Planning and Community Right-to-Know Act (EPCRA).

Respondent's obligation to respond: Mandatory if a respondent decides to make a trade secret claim for the chemical identity for any of the chemicals in any of the reports the respondent is required to submit under EPCRA sections 303, 311, 312 or 313.

Estimated number of respondents: 283 trade secret claims.

Frequency of response: Annual, with reports submitted under sections 312 and 313.

Total estimated burden: 2,689 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$164,989 (per year). There are no capital or operation and maintenance costs associated with this ICR.

Changes in the estimates: The burden hours are likely to stay substantially the same.

Andrew Baca,

Director, Office of Resource Conservation and Recovery.

Pesticide Registration Review; Pesticide Dockets Opened for Review and Comment; Notice of Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the availability of the EPA's work plans and registration review case dockets for the following chemicals: Copper pyrithione and urea. EPA is opening a 60-day public comment period for these work plans and case dockets.

DATES: Comments must be received on or before February 9, 2026.

ADDRESSES: Submit your comments, to the docket identification (ID) number for the specific pesticide of interest provided in Table 1 of Unit I, by one of the following methods:

- *Federal eRulemaking Portal:* <https://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

- *Mail:* <https://www.epa.gov/dockets/where-send-comments-epa-dockets>. OPP Docket, Environmental Protection Agency Docket Center (EPA/DC), (28221T), 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001.

FOR FURTHER INFORMATION CONTACT: For pesticide specific information, contact: The Chemical Review Manager for the pesticide of interest identified in Table 1 of Unit I.

For general questions on the registration review program, contact: Melanie Biscoe, Pesticide Re-Evaluation Division (7508P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001; telephone number: (202) 566-0701; email address: biscoe.melanie@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Purpose of This Notice

Pursuant to 40 CFR 155.50(b), this notice announces the availability of the EPA's work plans and registration review case dockets for the pesticides shown in Table 1 and opens a 60-day public comment period on the work plans and case dockets.

TABLE 1—WORK PLANS BEING MADE AVAILABLE FOR PUBLIC COMMENT

| Registration review case name and number | Docket ID number | Chemical review manager and contact information |
|---|----------------------------|---|
| Copper Pyrithione, Case Number 5082 | EPA-HQ-OPP-2025-0018 | Megan Snyderman. snyderman.megan@epa.gov (202) 566-0639. |

TABLE 1—WORK PLANS BEING MADE AVAILABLE FOR PUBLIC COMMENT—Continued

| Registration review case name and number | Docket ID number | Chemical review manager and contact information |
|--|----------------------------|---|
| Urea, Case Number 4095 | EPA-HQ-OPP-2024-0218 | Areej Jahangir. <i>jahangir.areej@epa.gov</i> (202) 566-1577. |

II. Background

EPA is conducting its registration review of the chemicals listed in Table 1 of Unit I pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) section 3(g) (7 U.S.C. 136a(g)) and the Procedural Regulations for Registration Review at 40 CFR part 155, subpart C. FIFRA section 3(g) provides, among other things, that pesticide registrations are to be reviewed every 15 years. Consistent with 40 CFR 155.57, in its final registration review decision, EPA will ultimately determine whether a pesticide continues to meet the registration standard in FIFRA section 3(c)(5) (7 U.S.C. 136a(c)(5)).

Pursuant to 40 CFR 155.50, EPA initiates a registration review by establishing a public docket for a pesticide registration review case. Registration review dockets contain information that will assist the public in understanding the types of information and issues that the Agency has considered during registration review. Consistent with 40 CFR 155.50(a), these dockets may include information from the Agency's files including, but not limited to, an overview of the registration review case status, a list of current product registrations and registrants, any **Federal Register** notices regarding any pending registration actions, any **Federal Register** notices regarding current or pending tolerances, risk assessments, bibliographies concerning current registrations, summaries of incident data, and any other pertinent data or information. EPA includes in these dockets a Preliminary Work Plan (PWP), and in some cases a continuing work plan (CWP), summarizing information EPA has on the pesticide and the anticipated path forward.

Consistent with 40 CFR 155.50(b), EPA provides for at least a 60-day public comment period on work plans and registration review dockets. This comment period is intended to provide an opportunity for public input and a mechanism for initiating any necessary changes to a pesticide's workplan. During this public comment period, the Agency is asking that interested persons identify any additional information they believe the agency should consider

during the registration reviews of these pesticides. The Agency identifies in each docket the areas where public comment is specifically requested, though comment in any area is welcome.

For additional background on the registration review program, see: <https://www.epa.gov/pesticide-reevaluation>.

III. What should I consider as I prepare a comment for EPA?

This notice is directed to the public in general and may be of interest to a wide range of stakeholders including environmental, human health, farm worker, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the Chemical Review Manager identified in Table 1 of Unit I. In submitting a comment to EPA, please consider the following:

1. *Submitting CBI.* Do not submit this information to the EPA through *regulations.gov* or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to the EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at <https://www.epa.gov/dockets/commenting-epa-dockets>.

All comments should be submitted using the methods in **ADDRESSES** and must be received by the EPA on or before the closing date. These comments

will become part of the docket for the pesticides included in Table 1 of Unit I. The Agency will consider all comments received by the closing date and may respond to comments in a "Response to Comments Memorandum" in the docket or the Final Work Plan (FWP), as appropriate.

Authority: 7 U.S.C. 136 *et seq.*

Dated: December 2, 2025.

Jean Anne Overstreet,

*Director, Pesticide Re-Evaluation Division,
Office of Pesticide Programs.*

Agency Information Collection Activities; Proposed Information Collection Request; Comment Request; Revisions to the RCRA Definition of Solid Waste, EPA ICR No. 2310.08, OMB Control No. 2050-0202

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) is planning to submit an information collection request (ICR), "Revisions to the RCRA Definition of Solid Waste" (EPA ICR No. 2310.08, OMB Control No. 2050-0202) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (PRA). Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described in **SUPPLEMENTARY INFORMATION**. This is a proposed extension of the ICR, which is currently approved through June 30, 2026. This document allows 60 days for public comments.

DATES: Comments may be submitted on or before February 9, 2026.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA-HQ-OLEM-2018-0013, to EPA online using <https://www.regulations.gov> (our preferred method), or by mail to: EPA
