## II. Background

EPA is conducting its registration review of the chemicals listed in Table 1 of Unit I pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) section 3(g) (7 U.S.C. 136a(g)) and the Procedural Regulations for Registration Review at 40 CFR part 155, subpart C. FIFRA section 3(g) provides, among other things, that pesticide registrations are to be reviewed every 15 years. Consistent with 40 CFR 155.57, in its final registration review decision, EPA will ultimately determine whether a pesticide continues to meet the registration standard in FIFRA section 3(c)(5) (7 U.S.C. 136a(c)(5)).

Pursuant to 40 CFR 155.50, EPA initiates a registration review by establishing a public docket for a pesticide registration review case. Registration review dockets contain information that will assist the public in understanding the types of information and issues that the Agency has considered during registration review. Consistent with 40 CFR 155.50(a), these dockets may include information from the Agency's files including, but not limited to, an overview of the registration review case status, a list of current product registrations and registrants, any **Federal Register** notices regarding any pending registration actions, any **Federal Register** notices regarding current or pending tolerances, risk assessments, bibliographies concerning current registrations, summaries of incident data, and any other pertinent data or information. EPA includes in these dockets a Preliminary Work Plan (PWP), and in some cases a continuing work plan (CWP), summarizing information EPA has on the pesticide and the anticipated path forward.

Consistent with 40 CFR 155.50(b), EPA provides for at least a 60-day public comment period on work plans and registration review dockets. This comment period is intended to provide an opportunity for public input and a mechanism for initiating any necessary changes to a pesticide's workplan. During this public comment period, the Agency is asking that interested persons identify any additional information they believe the agency should consider

during the registration reviews of these pesticides. The Agency identifies in each docket the areas where public comment is specifically requested, though comment in any area is welcome.

For additional background on the registration review program, see: <https://www.epa.gov/pesticide-reevaluation>.

## III. What should I consider as I prepare a comment for EPA?

This notice is directed to the public in general and may be of interest to a wide range of stakeholders including environmental, human health, farm worker, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the Chemical Review Manager identified in Table 1 of Unit I. In submitting a comment to EPA, please consider the following:

1. *Submitting CBI.* Do not submit this information to the EPA through [regulations.gov](https://www.regulations.gov) or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to the EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at <https://www.epa.gov/dockets/commenting-epa-dockets>.

All comments should be submitted using the methods in **ADDRESSES** and must be received by the EPA on or before the closing date. These comments

will become part of the docket for the pesticides included in Table 1 of Unit I. The Agency will consider all comments received by the closing date and may respond to comments in a "Response to Comments Memorandum" in the docket or the Final Work Plan (FWP), as appropriate.

### Agency Information Collection Activities; Proposed Information Collection Request; Comment Request; Revisions to the RCRA Definition of Solid Waste, EPA ICR No. 2310.08, OMB Control No. 2050-0202

**AGENCY:** Environmental Protection Agency.

**ACTION:** Notice.

**SUMMARY:** The Environmental Protection Agency (EPA) is planning to submit an information collection request (ICR), "Revisions to the RCRA Definition of Solid Waste" (EPA ICR No. 2310.08, OMB Control No. 2050-0202) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (PRA). Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described in **SUPPLEMENTARY INFORMATION**. This is a proposed extension of the ICR, which is currently approved through June 30, 2026. This document allows 60 days for public comments.

**DATES:** Comments may be submitted on or before February 9, 2026.

**ADDRESSES:** Submit your comments, referencing Docket ID No. EPA-HQ-OLEM-2018-0013, to EPA online using <https://www.regulations.gov> (our preferred method), or by mail to: EPA

Docket Center, U.S. Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Avenue NW, Washington, DC 20460. EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

**SUPPLEMENTARY INFORMATION:** This is a proposed extension of the ICR, which is currently approved through June 30, 2026. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

This document allows 60 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at <https://www.regulations.gov> or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. Pursuant to section 3506(c)(2)(A) of the PRA, EPA is soliciting comments and information to enable it to: (i) evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate forms of information technology. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** document to announce the

submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

**Abstract:** In 2018, the EPA published final revisions to the definition of solid waste that exclude certain hazardous secondary materials from regulation (83 FR 24664, May 30, 2018). The 2018 final rule was promulgated in response to orders issued by the United States Court of Appeals for the District of Columbia Circuit on July 7, 2017, and amended on March 6, 2018, vacating certain provisions of the 2015 rule and reinstated corresponding provisions from the 2008 rule. The information requirements help ensure that (1) entities operating under the regulatory exclusions are held accountable to the applicable requirements; (2) state inspectors can verify compliance with the restrictions and conditions of the exclusions when needed; and (3) hazardous secondary materials exported for recycling are handled as commodities abroad. Recordkeeping requirements include:

- Under the generator-controlled exclusion at 40 CFR 261.4(a)(23), the tolling contractor has to maintain at its facility for no less than three years records of hazardous secondary materials received pursuant to its written contract with the tolling manufacturer, and the tolling manufacturer must maintain at its facility for no less than three years records of hazardous secondary materials shipped pursuant to its written contract with the tolling contractor. In addition, facilities performing the recycling of hazardous secondary materials under the generator-controlled exclusions at 40 CFR 261.4(a)(23) must maintain documentation of their legitimacy determination onsite.

- Under the transfer-based exclusion at 40 CFR 261.4(a)(24), a generator sending secondary hazardous materials to a facility that does not have a permit, would be required to conduct a "reasonable efforts" environmental audit of the receiving facility; and a hazardous secondary materials recycler must meet the following conditions: having financial assurance in place, having trained personnel, and meeting emergency preparedness and response conditions.

- Under the export requirements of the transfer-based exclusion at 40 CFR 261.4(a)(25), exporters of hazardous secondary material must provide notice and obtain consent of the receiving country and file an annual report.

- Under the remanufacturing exclusion at 40 CFR 261.4(a)(27), both the hazardous secondary material

generator and the remanufacturer must maintain records of shipments and confirmations of receipts for a period of three years from the dates of the shipments.

- Under the revised speculative accumulation requirement in 40 CFR 261.1(c)(8), all persons subject to the speculative accumulation requirements must label the storage unit by indicating the first date that the material began to be accumulated.

**Form numbers:** None.

**Respondents/affected entities:** Entities potentially affected by this action are private business or other for-profit, as well as State, Local, or Tribal governments.

**Respondent's obligation to respond:** Required to obtain or retain a benefit (42 U.S.C. 6921, 6922, 6923, and 6924).

**Estimated number of respondents:** 4,800.

**Frequency of response:** On occasion.

**Total estimated burden:** 27,055 hours per year. Burden is defined at 5 CFR 1320.03(b).

**Total estimated cost:** \$2,933,678 (per year), which includes \$18,403 in annualized capital or operation & maintenance costs.

**Changes in the estimates:** The burden hours are likely to stay substantially the same.

Dated: November 13, 2025.
