Background

On April 3, 2025, the Commission issued a *Notice of Scoping Period Requesting Comments on Environmental Issues for the Planned Cape Cod Canal Bridge Relocation Project and Notice of Public Scoping Session* (Notice of Scoping).⁴ The Notice of Scoping was issued during the pre-filing review of the Project in Docket No. PF25-4 and was sent to affected landowners; federal, state, and local government agencies; elected officials; environmental and public interest groups; Native American tribes; other interested parties; and local libraries and newspapers. In response to the Notice of Scoping, the Commission received comments from the Cape Cod Chamber of Commerce, the Cape & Islands Bridges Coalition, the Berkshire Environmental Action Team, one landowner, and 18 other individuals. The primary and relevant issues raised by the commenters were the purpose and need for the Project; effects to sensitive resources in the Project area (e.g., wetlands, sole source aquifers, and listed species); effects to local traffic and noise during construction; and effects to air quality during operations. All substantive comments will be addressed in the EA.

The U.S. Army Corps of Engineers, U.S. Environmental Protection Agency, and the Massachusetts Army National Guard are cooperating agencies in the preparation of the EA.

⁴ During pre-filing, Algonquin changed the name of the FERC-jurisdictional Project to avoid confusion with replacement of the Bourne and Sagamore Bridges planned by the Cape Cod Bridges Program.
