OneRD Guaranteed Loan Regulation

AGENCY: Rural Business-Cooperative Service, Rural Housing Service, Rural Utilities Service, USDA.

ACTION: Final rule; technical amendments.

SUMMARY: On September 30, 2024, Rural Development’s Rural Business-Cooperative Service, Rural Housing Service, and Rural Utilities Service, agencies of the United States Department of Agriculture (USDA), published a final rule with comment for the OneRD Guarantee Loan Program (OneRD). The final rule made necessary revisions to the policy and procedures that strengthened the oversight and management of the growing Community Facilities, Water and Waste Disposal, Business and Industry, and Rural Energy for America guarantee portfolios. Following implementation of this final rule, the Agency found that corrections were necessary due to an incorrect definition of affiliate, and a section and sentence that were removed erroneously. This document corrects the final regulation.

DATES: This rule is effective December 11, 2025.

ADDRESSES: Address all comments concerning this correction to Crystal Pemberton, Regulations Management Division, Rural Development Innovation Center, U.S. Department of Agriculture, 1400 Independence Ave. SW, Stop 1522, Washington, DC 20250; telephone

SUPPLEMENTARY INFORMATION: Rural Development’s Rural Business-Cooperative Service, Rural Housing Service, and Rural Utilities Service are issuing corrections to the final rule that published September 30, 2024, at 89 FR 79698.

The definition of “affiliate” has been modified to clarify that it means a person or entity that is closely attached or connected to another organization. For the purposes of program eligibility, the principles outlined in this regulation, and any successor regulation, are used to establish affiliation. Additionally, the Agency is adding the definition for “commercially available” as it was erroneously removed from the regulation previously.

SUPPLEMENTARY INFORMATION:

History

The FAA published a final rule in the **Federal Register** (90 FR 54228; November 26, 2025), which modified the Class E airspace area extending upward from 700 feet or more above the surface and Class E airspace area designated as an extension to a Class D or Class E surface area at KOA. Subsequent to publication, and following a recent survey, the FAA amended the geographic coordinates for KOA. Accordingly, the updated geographic location will now serve as the point of origin from which the Class E airspace area boundaries are derived, no longer requiring reference to the Point in Space Alpha fix that appeared in the KOA’s airspace legal description in the final rule. This action is administrative only and corrects the coordinates.
