

Emirates has been, and continues to be, a vital U.S. partner for political stability and economic progress in the Middle East.

The proposed sale will improve the United Arab Emirates' capability to meet current and future threats by modernizing its armed forces. This sale will contribute to the United Arab Emirates' military goals of updating capability while further enhancing interoperability with the U.S. and other partners. The United Arab Emirates will have no difficulty absorbing these articles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin, Grand Prairie, TX. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the temporary assignment of four (4) U.S. Government and four (4) U.S. contractor representatives to the United Arab Emirates for a duration of no longer than ten (10) days to support new software equipment training and the stockpile reliability program.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 20–79

Notice of Proposed Issuance of Letter of Offer and Acceptance Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The Guided Multiple Launch Rocket System (GMLRS) is a solid propellant artillery rocket for the High Mobility Artillery Rocket System (HIMARS). GMLRS uses GPS-aided inertial guidance to accurately and quickly deliver a single high-explosive blast fragmentation warhead to targets. The GMLRS has an operational range of 15–70km.

2. The M57 Army Tactical Missile Systems (ATACMS) is a conventional, semi-ballistic missile for the High Mobility Artillery Rocket System (HIMARS). ATACMS is a guided by GPS-aided inertial navigation systems to provide precise targeting over ranges of up to 300km.

3. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

4. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

5. A determination has been made that the United Arab Emirates can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

6. All defense articles and services listed in this transmittal have authorized for release and export to the

Government of the United Arab Emirates.

The Honorable Mike Johnson
 Speaker of the House
 U.S. House of Representatives
 H-209, The Capitol
 Washington, DC 20515

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(5)(C) of the Arms Export Control Act (AECA), as amended, we are forwarding Transmittal No. 24-0W. This notification relates to enhancements or upgrades from the level of sensitivity of technology or capability described in the Section 36(b)(1) AECA certification 19-44 of August 27, 2019.

Sincerely,

Michael F. Miller
 Director

Enclosures:

1. Transmittal

BILLING CODE 6001-FR-C

Transmittal No. 24-0W

*REPORT OF ENHANCEMENT OR
 UPGRADE OF SENSITIVITY OF
 TECHNOLOGY OR CAPABILITY (SEC.
 36(B)(5)(C), AECA)*

(i) *Prospective Purchaser:* Government of Denmark

(ii) *Sec. 36(b)(1), AECA Transmittal No.:* 19-44

Date: August 27, 2019

Implementing Agency: Navy

(iii) *Description:* On August 27, 2019, Congress was notified by congressional certification transmittal number 19-44 of the possible sale, under Section 36(b)(1) of the AECA, of up to nine (9) AN/AQS-22 Airborne Low Frequency Sonar (ALFS) Systems. Also included

were six hundred (600) AN/SSQ-36/53/62 Sonobuoys; spare and repair parts; support and test equipment; communication equipment; publications and technical documentation; personnel training and training equipment; United States (U.S.) Government and contractor engineering, technical, and logistics support services; and other related elements of logistical and program support. The total estimated value was \$200 million. Major Defense Equipment (MDE) constituted \$100 million of this total.

On November 20, 2019, Congress was notified by congressional certification transmittal number 1J-19, under Section 36(b)(5)(A) of the Arms Export Control Act, of the addition of the following MDE: 1) twenty (20) MK 54 All Up

Round Lightweight Torpedoes; and 2) two (2) MK 54 Exercise Torpedoes (EXTORPS) (MK 54 Kit Procurement Required). Also included were MK 54 LWT Spares; torpedo containers; Recoverable Exercise Torpedoes (REXTORP) with containers; Fleet Exercise Section (FES) and fuel tanks; air launch accessories for fixed wing; torpedo spare parts, training, publications, support, and test equipment; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The addition of these items resulted in a net increase in MDE cost of \$19 million, resulting in a revised MDE cost of \$119 million. The

total estimated case value increased to \$240 million.

This transmittal notifies the inclusion of the following additional MDE items: twelve (12) MK 54 MOD 0 Lightweight Torpedo all up rounds. The following non-MDE items will also be included: torpedo containers; Recoverable Exercise Torpedoes (REXTORP); Fleet Exercise Sections (FES) and fuel tanks; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The estimated total value of the new MDE items is \$40 million, resulting in a revised estimated MDE value of \$159 million. The estimated total value of the new non-MDE items is \$15 million, resulting in a revised non-MDE value of \$136 million. The estimated total case value will increase by \$55 million to \$295 million.

(iv) *Significance*: This notification is being provided because the additional items were not enumerated in the original notification. The proposed sale will improve Denmark's capability to meet current and future threats.

(v) *Justification*: This proposed sale will support the foreign policy goals and national security objectives of the U.S. by improving the security of a NATO

Ally that is a force for political stability and economic progress in Europe.

(vi) *Sensitivity of Technology*:

The MK 54 Lightweight Torpedo is a conventional torpedo that can be launched from surface ships, rotary and fixed wing aircrafts. The MK 54 LWT is an upgrade to the MK 46 Torpedo that entails replacement of the torpedo's sonar and guidance and control systems with modern technology. The new guidance and control system uses a mixture of commercial-off-the-shelf and custom-built electronics. The warhead, fuel tank, and propulsion system from the MK 46 torpedo are re-used in the MK 54 torpedo configuration with minor modifications.

The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

(vii) *Date Report Delivered to Congress*: October 21, 2024
