

total estimated case value increased to \$240 million.

This transmittal notifies the inclusion of the following additional MDE items: twelve (12) MK 54 MOD 0 Lightweight Torpedo all up rounds. The following non-MDE items will also be included: torpedo containers; Recoverable Exercise Torpedoes (REXTORP); Fleet Exercise Sections (FES) and fuel tanks; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The estimated total value of the new MDE items is \$40 million, resulting in a revised estimated MDE value of \$159 million. The estimated total value of the new non-MDE items is \$15 million, resulting in a revised non-MDE value of \$136 million. The estimated total case value will increase by \$55 million to \$295 million.

(iv) *Significance*: This notification is being provided because the additional items were not enumerated in the original notification. The proposed sale will improve Denmark's capability to meet current and future threats.

(v) *Justification*: This proposed sale will support the foreign policy goals and national security objectives of the U.S. by improving the security of a NATO

Ally that is a force for political stability and economic progress in Europe.

(vi) *Sensitivity of Technology*:

The MK 54 Lightweight Torpedo is a conventional torpedo that can be launched from surface ships, rotary and fixed wing aircrafts. The MK 54 LWT is an upgrade to the MK 46 Torpedo that entails replacement of the torpedo's sonar and guidance and control systems with modern technology. The new guidance and control system uses a mixture of commercial-off-the-shelf and custom-built electronics. The warhead, fuel tank, and propulsion system from the MK 46 torpedo are re-used in the MK 54 torpedo configuration with minor modifications.

The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

(vii) *Date Report Delivered to Congress*: October 21, 2024

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Kingdom of Saudi Arabia—AGM-114R3 Hellfire II Missiles

The Kingdom of Saudi Arabia has requested to buy Two Thousand Five Hundred Three (2,503) AGM-114R3 Hellfire II missiles (3 for lot acceptance testing). Also included are support and test equipment; integration and test support; spare and repair parts; software delivery and support; publications and technical documentation; personnel training and training equipment; U.S. Government and contractor engineering, technical and logistics support services; storage; and other related elements of logistical and program support. The total estimated cost is \$655 million.

This proposed sale will support the foreign policy and national security of

the U.S. by helping to improve the security of a friendly country that continues to be an important force for political and economic progress in the Middle East.

The proposed sale will improve Saudi Arabia's capability to meet current and future threats and improve interoperability with systems operated by U.S. Forces and other Gulf countries. Saudi Arabia's continued investment in its defensive capabilities is crucial to protecting its borders, energy infrastructure, and its residents. Saudi Arabia will have no difficulty absorbing these missiles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be The Lockheed Martin Corporation, Troy, AL. The purchaser typically requests offsets. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Saudi Arabia. The only additional U.S. military support required would be Technical Assistance Field Team (TAFT) visits during training phases.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 20-62

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The AGM-114R3 Hellfire II missile is a precision strike, Semi-Active Laser (SAL)-guided missile and is the principal air-to-ground weapon for the Army. The AGM-114R3 Hellfire II missile provides the warfighter with an air-to-ground, point-target precision strike capability to defeat advanced armor and an array of traditional and nontraditional targets.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the hardware and software elements, the information could be used to develop countermeasures or equivalent systems which might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that the Government of Saudi Arabia can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal are authorized

for release and export to the Kingdom of Saudi Arabia.
