SUPPLEMENTARY INFORMATION: Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

Abstract: Under the Uniform Federal Crime Reporting Act of 1988, 34 U.S.C. 41303; the DOJ's authority regarding the acquisition, preservation, and exchange of identification records and information, 28 U.S.C. 534; the USA Patriot Improvement and Reauthorization Act of 2005, Public Law 109-177, 120 Stat. 193; the William Wilberforce Trafficking Victims Protection Reauthorization Act of 2008, 34 U.S.C. 41309; and the Hate Crimes Statistics Act, 34 U.S.C. 41305, this collection requests incident data from federal, state, local, tribal, and territorial law enforcement agencies (LEAs) in order for the FBI's Uniform Crime Reporting (UCR) Program to serve as the national clearinghouse for the collection and dissemination of incident data. The traditional Summary Reporting System (SRS), managed by the FBI's UCR Program since the 1930s, includes 10 crimes and employs the Hierarchy Rule (i.e., in a multiple-offense incident, only the most serious crime is reported). In contrast, NIBRS includes 28 offense categories made up of 71 specific crimes (i.e., Group A offenses) and allows LEAs to report up to 10 of those offenses associated with an incident. For each of these offenses, LEAs collect administrative, offense, property,

victim, offender, and arrestee information. Arrest data only are reported for an additional 10 Group B offenses. The level of detail is the most significant difference between NIBRS and SRS and the NIBRS data submitted to the FBI's UCR Program are generated as a byproduct of a LEA's records management system.

Overview of This Information Collection

1. *Type of Information Collection:* Extension of a previously approved collection.

2. *The Title of the Form/Collection:* National Incident-Based Reporting System (NIBRS).

3. *The agency form number, if any, and the applicable component of the department sponsoring the collection:* The form number is 1110-0058. The applicable component within DOJ is the CJIS Division, FBI.

4. *Affected public who will be asked or required to respond, as well as the obligation to respond:* Primary: Federal, state, local, tribal, and territorial LEAs. The obligation to respond is mandatory for federal agencies and voluntary for non-federal agencies.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* At the end of 2024, the estimated number of LEAs certified to submit crime data to the FBI's UCR Program via NIBRS totaled 16,788. Each month, it takes approximately two hours for an average respondent to respond, which is an annual burden of 24 hours. The two hours is the time required for a LEA's records management system to download the NIBRS data and send the information to the FBI.

6. *An estimate of the total public burden (in hours) associated with the collection:* The estimated annual public burden associated with the NIBRS data collection for LEAs is 402,912 hours (201,456 responses × 2 hours per response = 402,912 total annual hours). An additional 300 burden hours for state UCR program and local LEA outreach is requested by the FBI's UCR Program, leading to an estimated total of 403,212 burden hours for the collection.

7. *An estimate of the total annual cost burden associated with the collection, if applicable.* The estimated monetary cost burden for supplies, storage, or the like for this information collection is \$0. Incident reports are submitted through an online system maintained by the FBI.
