SUPPLEMENTARY INFORMATION: This is a request for approval of a new collection. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on July 21, 2025, during a 60-day comment period (90 FR 34269). This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: This is a new information collection activity that covers the paperwork burden for tracking the adoption of bilingual labeling of pesticide products. This ICR was developed as part of a requirement by the Pesticide Registration Improvement Act (PRIA). PRIA was enacted in 2004 and established a new system for registering pesticides including fees and guaranteed decision times, along with funding for farmworker protection activities. PRIA was reauthorized in 2007, 2012, 2019, and most recently on December 29, 2022 (PRIA 5). PRIA 5

amended the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) to require bilingual language translation for parts of the end-use pesticide product labels where translation is available in the EPA Spanish Translation Guide for Pesticide Labeling (or the Spanish Translation Guide). PRIA 5 requires that each registered pesticide product released for shipment include either the bilingual language translation for parts of the labeling contained in EPA's Spanish Translation Guide on the pesticide product container, or a link to such translation via scannable technology or other electronic methods readily accessible on the product label. Currently, bilingual labeling is implemented through a non-notification process (see PR Notice 98-10, entitled "Notifications, Non-Notifications and Minor Formulation Amendments" dated October 22, 1998). The non-notification process means that a product label may be updated with Spanish translations without notifying EPA (or EPA reviewing the label), if that is the only change being made to the label. Non-notification label changes are not systematically tracked by EPA. However, PRIA 5 also requires EPA to "develop and implement, and make publicly available, a plan for tracking the adoption of the bilingual labeling." In response, EPA has developed a plan for tracking the adoption of the bilingual labeling. Public comments were originally requested on the draft plan during a 30-day comment period beginning on January 2, 2025 (90 FR 99 (FRL-12231-01)).

In addition to the ICR, EPA is publishing a final Pesticide Registration Notice (PRN), "*Establishment of a Plan to Track the Adoption of Bilingual Labeling on End Use Pesticide Product Labels*", which provides guidance and clarification to pesticide registrants and the public on how the Agency will track the adoption of bilingual labeling. While the requirements in the FIFRA and EPA regulations are binding on EPA and applicants, the PRN is not binding on EPA personnel, pesticide registrants and applicants, or the public. EPA may depart from the guidance where circumstances warrant and without prior notice. Likewise, pesticide applicants may assert that the guidance is not appropriate generally or not applicable to a specific pesticide product or registration decision. Registrants and applicants may propose alternatives to the guidance provided in any application to the Agency.

Form number: PFN-8500-31.

Respondents/affected entities: Entities potentially affected by this ICR include pesticide importers, pesticide

manufacturers and government establishments responsible for agricultural pest and weed regulation.

Respondent's obligation to respond: Mandatory. 40 CFR 152.

Estimated number of potential respondents: 1,517.

Frequency of response: Annually.

Total estimated burden: 27,784 hours (per year). Burden is defined as 5 CFR 1320.3(b).

Total estimated costs: \$3,648,965 (per year), which includes \$0 annualized capital or operation & maintenance costs.

Changes in the estimates: This is a new collection.

Courtney Kerwin,

Deputy Director, Data and Enterprise Programs Division.

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0093; FR ID 321473]

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control

number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before February 10, 2026. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email PRA@fcc.gov and to nicole.ongele@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Nicole Ongele, (202) 418–2991.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–0093.

Title: FCC Form 405—Application for Experimental Licensing Systems (ELS).
Form No.: FCC Form 405.

Type of Review: Extension of a currently approved collection.

Respondents: Individuals or households, business or other for-profit, not-for-profit institutions and state, local or tribal government.

Number of Respondents and Responses: 520 respondents and 520 responses.

Estimated Time per Response: 2.25 hours.

Frequency of Response: On occasion, and every two year reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection (IC) is contained in sections 4(i), 301, 302, 303(e), 303(f), and 303(r), of the Communications Act of 1934, as amended; 47 U.S.C. 154(i), 301, 302, 303(e), 303(f) and 303(r).

Total Annual Burden: 1,170 hours.

Total Annual Cost: \$215,800.

Needs and Uses: This collection will be submitted as an extension after this 60 day comment period in order to obtain the full three year clearance from the OMB. Additionally, a title change to “FCC Form 405—Application for Experimental Licensing Systems (ELS)”.

FCC Form 405 is used by the Experimental Radio Service to apply for renewal of radio station licenses at the FCC. Section 307 of the Communications Act of 1934, as amended, limits the term of radio licenses to five years and requires that written applications be submitted for renewal. The regular license period for stations in the Experimental Radio Service is either two or five years.

The information submitted on FCC Form 405 is used by the Commission staff to evaluate the applicant/licensee’s need for a license renewal. In performing this function, staff performs analysis of the renewal request as compared to the original license grant to ascertain if any changes are requested. If so, additional analysis is performed to determine if such changes met the requirements of the rules of the Experimental Radio Service for interference free operation. If needed, the collected information is used to coordinate such operation with other Commission bureaus or other Federal Agencies. All applications are also analyzed on their merits regarding whether they meet the general requirements for an Experimental license. These requirements are set out in 47 CFR part 5.

Federal Communications Commission.

Marlene Dortch,

Secretary, Office of the Secretary.
