SUPPLEMENTARY INFORMATION: CPSC seeks to renew the following currently approved collection of information:

Title: Publicly Available Consumer Product Safety Information Database.

OMB Number: 3041–0146.

Type of Review: Renewal of collection.

Frequency of Response: On occasion.

Affected Public: Reports concerning the safety of consumer products can be submitted to the CPSC by consumers; local, state, or federal government agencies; health care professionals; child service providers; public safety entities; and others. A manufacturer or private labeler may submit a comment related to a report of harm.

General Description of Collection:

Section 212 of the Consumer Product Safety Improvement Act of 2008 (CPSIA) amended the Consumer Product Safety Act (CPSA) to require CPSC to establish and maintain a publicly available, searchable database on the safety of consumer products, and other products or substances regulated by the agency. Section 6A of the CPSA requires the CPSC to collect reports of harm from the public for potential publication in a publicly available database, and to collect and publish comments from manufacturers about reports of harm.

In 2010, the Commission issued a final rule to establish a Publicly Available Consumer Product Safety Information Database (Database) with the effective date of January 10, 2011. 75 FR 76832 (Dec. 10, 2010). The final rule established provisions regarding submitting reports of harm; providing notice of reports of harm to manufacturers; publishing reports of harm and manufacturer comments in the Database; and dealing with confidential and materially inaccurate information.

The primary purpose of this information collection is to populate the publicly searchable Database of consumer product safety information. The Database information collection has four components: reports of harm, manufacturer comments, branding information, and the Small Batch Manufacturer Registry (SBMR).

Estimated Number of Respondents: Based on the data set forth in Tables 1 and 2, CPSC estimates 11,016 respondents (7,960 + 3,056). CPSC estimates that approximately 7,960 respondents will submit reports of harm. CPSC estimates that there are approximately 3,056 manufacturers who will provide responsive submissions.

Estimated Time per Response: As shown in Table 1, estimated time per response for reports of harm submitted through the website is 12 minutes, reports submitted by phone is 10 minutes, and reports submitted by mail, email or fax is 20 minutes. Table 2 shows the estimated time per response for the various kinds of manufacturer submissions expected: the estimated time per response for manufacturer comments through the website is 117 minutes; comments submitted my mail, email or fax is 147 minutes; requests to treat information as confidential submitted through the website is 42 minutes and those submitted by mail, email or fax is 72 minutes; requests to treat information as materially inaccurate through the website is 165 minutes and those submitted by mail, email or fax is 195 minutes; submissions of voluntary brand information is 10 minutes; and submissions of small batch

manufacturer identification is 10 minutes.

Total Estimated Annual Burden: Based on the data in Tables 1 and 2, CPSC estimates the annual burden to be 8,161 hours. This estimate is based on the estimated total estimated annual burdens for reports of harm (2,116 hours) and manufacturer submissions (6,045 hours).

Total Estimated Annual Cost to Respondents: Based on the data in Tables 1 and 2, the annual reporting cost is estimated to be \$566,351 (\$96,595 + \$469,757). This estimate is based on the estimated total figures for reports of harm and manufacturer submissions.

The estimated burden associated with submitting reports of harm based on the estimated total burden hours is \$96,595. The estimated costs for submitting reports of harm is based on the estimated total burden hours associated with reports of harm, 2,116 hours, multiplied by an estimated total compensation for all workers in private industry of \$45.65 per hour,³ which results in an estimated cost of \$96,595 (2,116 hours × \$45.65 per hour = \$96,595.40).

The estimated burden associated with manufacturer submissions is \$469,757.

The estimated costs for submitting reports of harm is based on the estimated total burden hours associated with reports of harm, 6,045 hours, multiplied by an estimated total compensation for a manager or professional in goods-producing industries of \$77.71 per hour,⁴ which results in an estimated cost of \$469,757 (6,045 hours × \$77.71 per hour = \$469,756.95).
