SUPPLEMENTARY INFORMATION: CPSC seeks to renew the following currently approved collection of information:

Title: Virginia Graeme Baker Pool and Spa Safety Act Verification of Compliance Form.

OMB Number: 3041-0142.

Type of Review: Renewal of collection.

Frequency of Response: On occasion.

Affected Public: Public pools and spa facilities.

General Description of Collection: The CPSC administers and oversees compliance with the Virginia Graeme Baker Pool and Spa Safety Act (VGBA), 15 U.S.C. Ch. 106. The VGBA is designed to prevent the tragic and hidden hazard of drain entrapment and evisceration in public pools and spas. To achieve its purposes, the VGBA requires, among other things, each swimming pool and spa drain cover manufactured, distributed, or introduced into commerce meet specific requirements of the CPSC recognized performance standard, and that each public pool and spa be equipped with anti-entrapment devices or systems that comply with the recognized performance standard. 15 U.S.C. 8003; 16 CFR part 1450.

CPSC, directly or through State contracted employees, inspects and assesses public pools and spas for compliance. A compliance form is used to record observations and assessments of compliance. The VGBA Form is available for viewing at <https://www.regulations.gov> under docket number, CPSC-2009-0073, "Supporting and Related Material."

Estimated Number of Respondents: CPSC compliance staff estimates that 50 inspections are completed annually, based on a review of prior completed inspections.

Estimated Time per Response: CPSC estimates that three hours will be required to inspect a pool or spa facility.

Total Estimated Annual Burden: CPSC estimates that total annual burden hours are at most 150 (50 inspections × 3 hours per inspection).

Total Estimated Annual Cost to Respondents: CPSC estimates that hourly compensation for the time required for inspecting is \$76.45 (U.S. Bureau of Labor Statistics, "Employer Costs for Employee Compensation," June 2025, Table 4, total compensation

for management, professional, and related workers in private service-producing industries: Employer Costs for Employee Compensation News Release—2025 Q02 Results). Therefore, CPSC estimates the annual cost to be \$11,468 ($\$76.45 \times 150 = \$11,467.50$).

SUPPLEMENTARY INFORMATION: CPSC seeks to renew the following currently approved collection of information:

Title: Publicly Available Consumer Product Safety Information Database.

OMB Number: 3041–0146.

Type of Review: Renewal of collection.

Frequency of Response: On occasion.

Affected Public: Reports concerning the safety of consumer products can be submitted to the CPSC by consumers; local, state, or federal government agencies; health care professionals; child service providers; public safety entities; and others. A manufacturer or private labeler may submit a comment related to a report of harm.

General Description of Collection:

Section 212 of the Consumer Product Safety Improvement Act of 2008 (CPSIA) amended the Consumer Product Safety Act (CPSA) to require CPSC to establish and maintain a publicly available, searchable database on the safety of consumer products, and other products or substances regulated by the agency. Section 6A of the CPSA requires the CPSC to collect reports of harm from the public for potential publication in a publicly available database, and to collect and publish comments from manufacturers about reports of harm.

In 2010, the Commission issued a final rule to establish a Publicly Available Consumer Product Safety Information Database (Database) with the effective date of January 10, 2011. 75 FR 76832 (Dec. 10, 2010). The final rule established provisions regarding submitting reports of harm; providing notice of reports of harm to manufacturers; publishing reports of harm and manufacturer comments in the Database; and dealing with confidential and materially inaccurate information.

The primary purpose of this information collection is to populate the publicly searchable Database of consumer product safety information. The Database information collection has four components: reports of harm, manufacturer comments, branding information, and the Small Batch Manufacturer Registry (SBMR).
