The Social Security Administration (SSA) publishes a list of information collection packages requiring clearance by the Office of Management and Budget (OMB) in compliance with Public Law 104–13, the Paperwork Reduction Act of 1995, effective October 1, 1995. This notice includes revisions of OMB-approved information collections.

SSA is soliciting comments on the accuracy of the agency's burden estimate; the need for the information; its practical utility; ways to enhance its

quality, utility, and clarity; and ways to minimize burden on respondents, including the use of automated collection techniques or other forms of information technology. Mail, email, or fax your comments and recommendations on the information collection(s) to the OMB Desk Officer and SSA Reports Clearance Officer at the following addresses or fax numbers. I. The information collections below are pending at SSA. SSA will submit them to OMB within 60 days from the date of this notice. To be sure we consider your comments, we must

receive them no later than February 17, 2026. Individuals can obtain copies of the collection instruments by writing to the above email address.

*1. Application for Child's Insurance Benefits—20 CFR 404.350–404.368, 404.603, & 416.350–0960–0010.* Title II of the Social Security Act (Act) provides for the payment of monthly benefits to children of an insured worker who is retired, disabled, or deceased. Section 202(d) of the Act discloses the conditions and requirements SSA requires the applicant to meet when filing an application. SSA uses the information provided by applicants on Form SSA–4–BK to determine entitlement for children of living and deceased workers to monthly Social Security payments. The respondents are guardians completing the form on behalf of the children of retired, living or deceased workers.

**Note:** We are making a minor revision by adding “or adoptive” to question #4 to clarify that adoptive children also may qualify to receive benefits. In addition, we are updating the Privacy Act Statement on this form to comply with current legal requirements.

*Type of Request:* Revision of an OMB-approved information collection.

Modality of completion	Number of respondents	Frequency of response	Average burden per response (minutes)	Estimated total annual burden (hours)	Average theoretical hourly cost amount (dollars)*	Average wait time in field office and teleservice centers (minutes)***	Total annual opportunity cost (dollars)***

\* We based this figure on average U.S. citizen's hourly salary, as reported by Bureau of Labor Statistics data (Occupational Employment and Wage Statistics).

\*\* We based this figure on the average combined FY 2026 wait times for field offices (16 minutes) and for teleservice centers (47 minutes which includes the average speed of answer of 6 minutes as well as the average 41 minute wait time for a call back from an SSA technician), based on SSA's current management information data. This figure reflects both data from our systems and the data posted on our public facing website (800 number performance v SSA) on the date we drafted this notice. As the figures fluctuate daily, the wait times may be different on the publication date of this notice. We note that we combined these two figures for the purposes of this information collection, as SSA does not track whether the respondents who complete the MCS interview do so via telephone or in person. In addition, we did not calculate wait time for the respondents who use the paper form, as they submit the forms via mail.

\*\*\* This figure does not represent actual costs that SSA is imposing on recipients of Social Security payments to complete this application; rather, these are theoretical opportunity costs for the additional time respondents will spend to complete the application. *There is no actual charge to respondents to complete the application.*

*2. Help America Vote Act—0960–0706.* Public Law 107–252, the Help America Vote Act of 2002, mandates that States verify the identities of newly registered voters. When newly registered voters do not have driver's licenses or State-issued ID cards, they must supply the last four digits of their Social Security number to their local State election agencies for verification.

The election agencies forward this information to their State Motor Vehicle Administration (MVA), and the State MVA inputs the data into the American Association of MVAs (AAMVA), a central consolidation system that routes the voter data to SSA's Help America Vote Verification (HAVV) system. SSA's HAVV system returns the result (a “match” or “no match” of name, DOB,

and last four digits of an SSN) to the AAMVA hub, which then routes the information back to the state MVA. The respondents are the State MVAs seeking to confirm voter identities.

**Note:** We are updating the Privacy Act Statement.

*Type of Request:* Revision of an OMB-approved information collection.
