SUPPLEMENTARY INFORMATION:

Title of Collection: Office of Civil Rights—Civil Rights Case Management System.

OMB Control No.: 3145-New.

Abstract: The U.S. National Science Foundation (NSF) Office of Civil Rights (OCR) processes discrimination complaints under various federal civil rights laws and regulations. Organizations that receive funding awards from NSF are prohibited from discriminating against individuals who participate in any NSF-funded programs, services, and activities. To ensure awardee organizations follow civil rights laws, OCR's Awardee Compliance Branch (ACB) receives and considers complaints for investigation of unlawful discrimination, harassment, and retaliation in NSF-funded programs, services, and activities.

OCR ACB is establishing an electronic case management system to receive, evaluate, process, investigate, and resolve allegations of discrimination, harassment, or retaliation. Complainants submit their complaint information into the case management system. Information collected and maintained by the system includes: name and contact information for the complainant; impacted party (*i.e.*, complainant or other individual), witnesses, respondent, awardee organization; complaint information (which includes basis of discrimination or harassment, complaint description, remedies, and whether the complaint is filed in any other forum); any additional documentation; and a consent form for investigation and sharing of information with the relevant organization(s). If the complaint is accepted for investigation, additional information may be collected that is relevant to the case. This information is collected to help OCR staff determine if there is jurisdiction to

accept complaints for investigation by OCR or if the complaint should be referred to NSF’s Office of the Inspector General (OIG), to the institution, or another federal agency. Information is only used and shared on a need-to-know basis.

Respondents: Those who experienced or witnessed harassment or discrimination within an NSF program or activity.

Estimated Number of Annual Respondents: 100.

Burden on the Public: Estimated 30 minutes to fill out the information to submit a complaint. The time varies by complaint. The estimated burden time is 50 hours a year.

Dated: December 15, 2025.

SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC is considering the approval of the initial and updated DFPS submitted by the STP 1 and 2 ISFSI licensee, and the NRC staff has prepared a final EA and FONSI determination for

the initial and updated STP 1 and 2 ISFSI DFPS in accordance with the NRC regulations in part 51 of title 10 of the *Code of Federal Regulations* (10 CFR), “Environmental Protection Regulations for Domestic Licensing and Related Regulatory Functions,” which implement the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*).

The NRC requires its licensees to plan for the eventual decommissioning of their licensed facilities prior to license termination. On June 17, 2011, the NRC published a final rule in the **Federal Register** amending its decommissioning planning regulations (76 FR 35512). The final rule amended the NRC regulation, 10 CFR 72.30, “Financial assurance and recordkeeping for decommissioning,” which concerns financial assurance and decommissioning for ISFSIs. This regulation requires each holder of, or applicant for, a license under 10 CFR part 72 to submit a DFP for the NRC’s review and approval. The purpose of the DFP is to demonstrate the licensee’s financial assurance, *i.e.*, that funds will be available to decommission the ISFSI. The NRC staff will later publish its financial analyses of the DFP submittals which will be available for public inspection in ADAMS.

II. Discussion

The table in this notice includes the plant name, docket number, licensee, and ADAMS accession number for the final EA and FONSI determination for the STP 1 and 2 ISFSI. The table also includes the ADAMS accession numbers for other relevant documents, including the initial and updated DFP submittals. For further details with respect to these actions, see the NRC staff’s final EA and FONSI determinations which are available for public inspection in ADAMS and at <https://www.regulations.gov> under Docket ID NRC–2025–1535. For additional direction on accessing information related to this document, see the **ADDRESSES** section of this document.
