Abstract of Information Available

A total of 12 cultural items have been requested for repatriation. A total of 11 objects of cultural patrimony are nine arrow shafts, one bow stave and one coyote fur quiver. They have a limited provenience history but according to the appraisal form these objects were discovered in the Palm Springs area and later donated to CSUSB in 2006 with the note "Morongo" included by the donor. There is no documentation of testing or treatments.

The 12th object of cultural patrimony is a single decorated pottery sherd that was discovered and collected from private land within the Joshua Tree National Park Area in the 1930's. At this time there is no additional provenience information for this sherd and given the lack of provenience information the Joshua Tree National Park team released control to CSUSB for the purposes of repatriation. This sherd came to CSUSB at an undisclosed time. There is no documentation of testing or treatment.

Determinations
