NIH Controlled-Access Data Policy and Proposed Revisions to NIH Genomic Data Sharing Policy

AGENCY: National Institutes of Health, HHS.

ACTION: Notice.

SUMMARY: The National Institutes of Health (NIH) is requesting public input on its proposal to establish harmonized and transparent policy requirements for protecting human participant research data. Specifically, NIH proposes (1) establishing policy requirements for which data should be controlled-access under NIH data sharing policies, and (2) revising the NIH Genomic Data Sharing Policy to simplify and harmonize requirements.

DATES: To ensure consideration, comments must be submitted in writing by March 18, 2026.

ADDRESSES: Comments may be submitted electronically to <https://osp.od.nih.gov/comment-form-draft-nih-controlled-access-data-policy-and-proposed-revisions-to-nih-genomic-data-sharing-policy/>.

Comments are voluntary and may be submitted anonymously. You may also voluntarily include your name and contact information with your response. Other than your name and contact information, please do not include in the response any personally identifiable information or any information that you do not wish to make public. Proprietary, classified, confidential, or sensitive information should not be included in your response. After the NIH Office of Science Policy (OSP) has finished reviewing the responses, the responses may be posted to the OSP website without redaction.

FOR FURTHER INFORMATION CONTACT: Taunton Paine, Director, Division of Scientific Data Sharing, NIH Office of Science Policy, at (301) 496-9838 or SciencePolicy@od.nih.gov.

SUPPLEMENTARY INFORMATION:

Background

NIH serves as the steward of a wide range of research data and continuously works to optimize open sharing with appropriate protections throughout the entire data lifecycle. Given its numerous established data policies, NIH is proposing a holistic update to its data policy framework to strengthen data protections, clarify requirements, and reduce duplicative burden.

First, NIH is proposing a new NIH Controlled-Access Data Policy to support the research community in fulfilling NIH data sharing expectations. This proposed policy specifies human participant data types required to be managed via controlled-access and provides criteria for assessing the need for controls for other data types. It also provides a standard set of expectations across NIH Institutes, Centers and
