

Chippewa Indian Tribe of Michigan, and published a Notice of Inventory Completion in the **Federal Register** (76 FR 28078). In July 2011, WMU repatriated these human ancestors and associated artifacts to the Pokagon Band of Potawatomi Indians.

In December 2023, WMU discovered additional human remains from Brainerd, deriving from the archaeological excavations and a set donated by one of the amateurs. No new associated funerary objects were found. The newly discovered skeletal collection consists of over 770 bone fragments, representing a minimum of 17 individuals ranging in age from infants to older adults. The fragmentary nature of the collection makes detailed age and sex assessments by individual difficult. No known individuals were identified from the excavated or otherwise obtained remains.

Cultural Affiliation

Based on the information available and the results of consultation, cultural affiliation is reasonably identified by the geographical location or acquisition history of the human remains described in this notice.

Determinations

WMU has determined that:

- The human remains described in this notice represent the physical remains of 17 individuals of Native American ancestry.
- There is a connection between the human remains described in this notice and the Match-e-be-nash-she-wish Band of Pottawatomi Indians of Michigan; Pokagon Band of Potawatomi Indians, Michigan and Indiana; and the Saginaw Chippewa Indian Tribe of Michigan.

Requests for Repatriation

Written requests for repatriation of the human remains in this notice must be sent to the authorized representative identified in this notice under **ADDRESSES**. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.
2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or an Indian Tribe or Native Hawaiian organization with cultural affiliation.

Repatriation of the human remains described in this notice to a requestor may occur on or after January 20, 2026. If competing requests for repatriation are received, WMU must determine the most appropriate requestor prior to

repatriation. Requests for joint repatriation of the human remains are considered a single request and not competing requests. WMU is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice.

Quartz Surface Products From India and Turkey; Determinations

On the basis of the record¹ developed in the subject five-year reviews, the United States International Trade Commission ("Commission") determines, pursuant to the Tariff Act of 1930 ("the Act"), that revocation of the antidumping and countervailing duty orders on quartz surface products from India and Turkey would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.

Background

The Commission instituted these reviews on May 1, 2025 (90 FR 18697)
