

implement enhanced geo-targeting functionality by November 30, 2019 to allow WEA alert originators (*e.g.*, local emergency management offices) to target a WEA alert to eligible devices in a prescribed geographic area (*e.g.*, an area where there is imminent threat of the loss of life or property). See Federal Communications Commission, Wireless Emergency Alerts; Emergency Alert System, 83 FR 8619, 8623 (Feb. 28, 2018) (announcing a Nov. 30, 2019 amendment to 47 CFR 10.450).

The Commission seeks to evaluate WEA performance, particularly with respect to the accuracy of providers' geo-targeting capabilities. To do so, the Commission will use surveys to collect information and evaluate performance during a WEA test. Survey respondents affiliated with alert originators, partnered with the Commission in different geographic areas of the country, will be asked to complete a survey. The survey will be accessible by a hyperlink embedded in a WEA test alert and by a URL provided by the Commission. The Commission has developed a survey, which is available at <https://www.fcc.gov/wea>. The Commission also made available a Spanish-language version of the test message at, <https://www.fcc.gov/wea-es>. The information sought in this collection is necessary and vital to ensuring that WEA is effective at protecting the life and property of the public.
