Abstract: The United States (U.S.) Secretary of Education (the Secretary) is required by law to publish a list of nationally recognized accrediting agencies that have been determined to be reliable authorities regarding the quality of education or training offered by the institutions or programs they accredit. The system is the e-Recognition system. In determining whether a specific agency should be recognized, the Secretary evaluates the submission for compliance with the criteria for Recognition contained in regulations. The collection of

information is necessary for the Secretary to evaluate compliance with each of the criteria and to monitor the continued compliance with the criteria during any period of recognition granted. The authority for collecting this information is contained in the Higher Education Act of 1965, as amended § 496 (HEA), and implementing regulations at 34 CFR 602. The data is required in order for recognized accrediting agencies to demonstrate compliance with 34 CFR 602. The Secretary will use these criteria in determining whether an accrediting agency is a reliable authority as to the quality of education or training provided by institutions of higher education they accredit. The data is required by State Agencies for the approval of Vocational Education to demonstrate compliance with 34 CFR 603. The Secretary will use these criteria to determine whether a State Agency for the Approval of Vocational Education is a reliable authority as to the quality of education or training provided by the vocational institutions of higher education they accredit. The data is also required in order for State approval Agencies for Nurse Education to demonstrate compliance with the criteria and procedures for recognition of State Agencies for Approval of Nurse Education. The Secretary will use these criteria in determining whether a State agency is a reliable authority as to the quality of training offered by schools of nursing.

⁴ As noticed under Docket No. RM19-12-000, "Notice of FERC Form No. 60 Taxonomy Update" (April 3, 2025), Taxonomy Version 2024-04-01 was used for both the 2023 and 2024 reporting periods for FERC Form No. 60. Because of this, Arelle, Xule, and XENDR dependency updates in the FERC Form No. 60 Taxonomy Package were delayed until this 2026-01-01 draft taxonomy package.
