

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument and instructions should be directed to Attn: Stephanie Noell, Privacy Program, by email at privacy@bpa.gov, or by phone at (503) 230-3881.

SUPPLEMENTARY INFORMATION: This information collection request contains:

(1) *OMB No.*: 1910-5196; (2) *Information Collection Request Title*: Aircraft Services; (3) *Type of Request*: Extension; (4) *Purpose*: This information collection is associated with BPA's management and oversight of personnel flying on BPA planes and helicopter. Employees, non-employees, contractors, and the general public complete the following form: BPA F 4450.01e Flight Request and contractors complete the following form: BPA F 4450.04e Contract Worker—Authorization for Travel on BPA Aircraft; (5) *Annual Estimated Number of Respondents*: 1,000; (6) *Annual Estimated Number of Total Responses*: 1,000; (7) *Annual Estimated Number of Burden Hours*: 100; (8) *Annual Estimated Reporting and Recordkeeping Cost Burden*: \$5,328.60.

Statutory Authority: FAA-H-80831B—Aircraft Weight & Balance Regulation Handbook, 14 CFR 102-33.165, 16 U.S.C. 832 *et seq.*, 16 U.S.C. 838 *et seq.*, 16 U.S.C. 839 *et seq.*, 42 U.S.C. 7101, 41 CFR 300-304, and DOE M 552.1-1A.

Signing Authority: This document of the Department of Energy was signed on November 13, 2025, by Candice D. Palen, Information Collection Clearance Manager, Bonneville Power Administration, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE **Federal Register Liaison Officer** has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC, on December 18, 2025.

Jennifer Hartzell,

Alternate Federal Register Liaison Officer,
U.S. Department of Energy.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission****Combined Notice of Filings**

Take notice that the Commission has received the following Natural Gas Pipeline Rate and Refund Report filings:

Filings Instituting Proceedings

Docket Numbers: CP26-39-000.

Applicants: Rockies Express Pipeline LLC.

Description: Rockies Express Pipeline LLC submits abbreviated Application for Abandonment of a lease of capacity from near the Opal Hub, in Lincoln County, Wyoming to the Wamsutter Hub in Sweetwater County, Wyoming.

Filed Date: 12/10/25.

Accession Number: 20251210-5292.

Comment Date: 5 p.m. ET 1/7/26.

Docket Numbers: CP26-40-000.

Applicants: MountainWest Overthrust Pipeline, LLC.

Description: MountainWest Overthrust Pipeline, LLC submits Application for a Certificate of Public Convenience and Necessity to reacquire capacity leased to Rockies Express Pipeline LLC.

Filed Date: 12/10/25.

Accession Number: 20251210-5293.

Comment Date: 5 p.m. ET 1/7/260.

Docket Numbers: RP26-303-000.

Applicants: NGO Transmission, Inc.
Description: 4(d) Rate Filing: Negotiated Rate Filing to be effective 1/1/2026.

Filed Date: 12/17/25.

Accession Number: 20251217-5045.

Comment Date: 5 p.m. ET 12/29/25.

Docket Numbers: RP26-304-000.

Applicants: Bear Creek Storage Company, L.L.C.

Description: Compliance filing: Annual Fuel Summary 2025 to be effective N/A.

Filed Date: 12/17/25.

Accession Number: 20251217-5098.

Comment Date: 5 p.m. ET 12/29/25.

Docket Numbers: RP26-305-000.

Applicants: Transcontinental Gas Pipe Line Company, LLC.

Description: 4(d) Rate Filing: DPEs—Alabama Georgia Connector to be effective 1/17/2026.

Filed Date: 12/17/25.

Accession Number: 20251217-5136.

Comment Date: 5 p.m. ET 12/29/25.

Any person desiring to intervene, to protest, or to answer a complaint in any of the above proceedings must file in accordance with Rules 211, 214, or 206 of the Commission's Regulations (18 CFR 385.211, 385.214, or 385.206) on or

before 5:00 p.m. Eastern time on the specified comment date. Protests may be considered, but intervention is necessary to become a party to the proceeding.

The filings are accessible in the Commission's eLibrary system (<https://elibrary.ferc.gov/idmws/search/fercgensearch.asp>) by querying the docket number.

eFiling is encouraged. More detailed information relating to filing requirements, interventions, protests, service, and qualifying facilities filings can be found at: <http://www.ferc.gov/docs-filing/efiling/filing-req.pdf>. For other information, call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, contact the Office of Public Participation at (202) 502-6595 or OPP@ferc.gov.

Dated: December 17, 2025.

Carlos D. Clay,
Deputy Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission**

[Docket No. RD25-10-000]

Commission Information Collection Activities (FERC-725t, 725z, 725l, 725g, 725a and 725x); Comment Request; Revision

AGENCY: Federal Energy Regulatory Commission.

ACTION: Notice of information collection and request for comments.

SUMMARY: In compliance with the requirements of the Paperwork Reduction Act of 1995, the Federal Energy Regulatory Commission (Commission or FERC) is soliciting public comment on the currently approved information collection, FERC-725T_BAL-001-TRE (Primary Frequency Response in the ERCOT Region), FERC-725Z_IRO-010-5 (Reliability Coordinator Data and information Specification and Collection), FERC-725L_MOD-032-1 (Data for Power System Modeling and Analysis), FERC-725G_PRC-012-2 (Remedial Action Schemes), FERC-725G_PRC-017-1 (Remedial Action Scheme Maintenance and Testing), FERC-725A_TOP-003-6.1 (Transmission Operator and Balancing Authority Data and Information

Specification and Collection), FERC–725X_VAR–001–5 (Voltage and Reactive Control), FERC–725X_VAR–002–4.1 (Generator Operation for Maintaining Network Voltage Schedules) (Mandatory Reliability Standards for category 2 generator owners and generator operators). There are anticipated changes in the reporting requirements for this information collection for each of the eight standards.

DATES: Comments on the collection of information are due February 20, 2026.

ADDRESSES: Please submit comments via email to DataClearance@FERC.gov. You must specify the Docket No. (RD25–10–000) and the FERC Information Collection number (FERC–725T, 725Z, 725L, 725G, 725A and 725X) in your email. If you are unable to file electronically, comments may be filed by USPS mail or by hand (including courier) delivery:

- *Mail via U.S. Postal Service only, addressed to:* Federal Energy Regulatory Commission, Secretary of the Commission, 888 First Street NE, Washington, DC 20426.

- *Hand (including courier) delivery to:* Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, MD 20852.

Docket: To view comments and issuances in this docket, please visit <https://elibrary.ferc.gov/eLibrary/search>. Once there, you can also sign-up for automatic notification of activity in this docket.

FOR FURTHER INFORMATION CONTACT:

Kayla Williams, (202) 502–6468.
DataClearance@FERC.gov.

SUPPLEMENTARY INFORMATION:

Title: FERC–725T, 725Z, 725L, 725G, 725A, 725X–FERC–725T_BAL–001–TRE (Primary Frequency Response in the ERCOT Region), FERC–725Z_IRO–010–5 (Reliability Coordinator Data and information Specification and Collection), FERC–725L_MOD–032–1 (Data for Power System Modeling and Analysis), FERC–725G_PRC–012–2 (Remedial Action Schemes), FERC–725G_PRC–017–1 (Remedial Action Scheme Maintenance and Testing), FERC–725A_TOP–003–6.1 (Transmission Operator and Balancing Authority Data and Information Specification and Collection), FERC–725X_VAR–001–5 (Voltage and Reactive Control), FERC–725X_VAR–002–4.1 (Generator Operation for Maintaining Network Voltage Schedules).

OMB Control No.: 1902–0273 (725T), 1902–0276 (725Z), 1902–0261 (725L), 1902–0252 (725G), 1902–0244 (725A), 1902–0278 (725X).

Type of Request: Update information collection requirements with changes to the current reporting requirements.

Abstract: Section 215 of the FPA provides that the Commission may certify an Electric Reliability Organization (ERO), the purpose of which is to develop mandatory and enforceable Reliability Standards, subject to Commission review and approval.¹ Reliability Standards may be enforced by the ERO, subject to Commission oversight, or by the Commission independently.² Pursuant to section 215 of the FPA, the Commission established a process to select and certify an ERO,³ and subsequently certified NERC.⁴

On October 1, 2025, in Docket No. RD25–10, the Commission approved NERC’s filing of a petition seeking approval of two revised NERC definitions, generator owner and generator operator as “to align the definitions of the Generator Owner and Generator Operator terms in the NERC Glossary with the recently revised Generator Owner and Generator Operator registration functions in the NERC Rules of Procedure Statement of Compliance Registry Criteria,”⁵ approved by the Commission in Docket No. RR24–2–000 on June 27, 2024.⁶ The terms generator owner and generator operator now include non-bulk electric system (BES) inverter-based resources (IBR) that either have or contribute to an aggregate nameplate capacity of greater than or equal to 20 MVA, connected through a system designed primarily for delivering such capacity to a common point of connection at a voltage greater than or equal to 60 kV (category 2). Consequently, the new definitions in the Glossary of Terms Used in NERC Reliability Standards (NERC Glossary) will impose paperwork burdens on category 2 generator owners and generator operators that will now need to comply with applicable Reliability Standards.

¹ 16 U.S.C. 824o(c).

² *Id.* 824o(e).

³ *Rules Concerning Certification of the Elec. Reliability Org.; & Procs. for the Establishment, Approval, & Enft of Elec. Reliability Standards*, Order No. 672, 71 FR 8662 (Feb. 17, 2006), 114 FERC ¶ 61,104, *order on reh’g*, Order No. 672–A, 71 FR 19814 (Apr. 18, 2006), 114 FERC ¶ 61,328 (2006); *see also* 18 CFR 39.4(b).

⁴ *N. Am. Elec. Reliability Corp.*, 116 FERC ¶ 61,062, *order on reh’g and compliance*, 117 FERC ¶ 61,126 (2006), *aff’d sub nom. Alcoa, Inc. v. FERC*, 564 F.3d 1342 (D.C. Cir. 2009) (Certification Order).

⁵ NERC Petition at 4.

⁶ *Order on Approving Revisions to N. Am. Elec. Reliability Corp. Rules of Proc. & Requiring Compliance Filing*, 187 FERC ¶ 61,196 (June 27, 2024).

The approved revision to the definition of generator owner in the NERC Glossary is:⁷

The entity that: (1) owns and maintains generating Facility(ies) (Category 1 GO); or (2) owns and maintains non-BES Inverter-Based Resource(s) that either have or contribute to an aggregate nameplate capacity of greater than or equal to 20 MVA, connected through a system designed primarily for delivering such capacity to a common point of connection at a voltage greater than or equal to 60 kV (Category 2 GO).

The approved revision to the definition of generator operator in the NERC Glossary is:⁸

The entity that: (1) operates generating Facility(ies) and performs the functions of supplying energy and Interconnected Operations Services (Category 1 GOP); or (2) operates non-BES Inverter-Based Resource(s) that either have or contribute to an aggregate nameplate capacity of greater than or equal to 20 MVA, connected through a system designed primarily for delivering such capacity to a common point of connection at a voltage greater than or equal to 60 kV (Category 2 GOP).

As a result of the inclusion of category 2 resources in the NERC Glossary, applicable responsible entities will have to comply with reporting requirements for this information collection for each of the eight reliability standards included in NERC’s implementation plan associated with Docket No. RD25–10. The eight applicable Reliability Standards are: BAL–001–TRE–2; IRO–010–5; MOD–032–1; PRC–012–2; PRC–017–1; TOP–003–6.1; VAR–001–5; and VAR–002–4.1.

Reliability Standard BAL–001–TRE–2 is currently located in the FERC–725T (OMB Control No. 1902–0273) collection. The purpose of Reliability Standard BAL–001–TRE–2 is to maintain interconnection steady-state frequency within defined limits. The category 2 generator owners and generator operators will now have to follow Requirements R6 through R10. Requirements R6, R7, R9, and R10 require the generator owner to set their governor parameters to be responsive to frequency obligations and provide notification to other entities when their governor is unavailable. Requirement R8 requires generator operators notify their balancing authority of service status changes.

Reliability Standard IRO–010–5 is currently located in the FERC–725Z (OMB Control No. 1902–0276) collection. The purpose of the standard is to prevent instability, uncontrolled separation, or cascading outages that

⁷ NERC Petition at 3.

⁸ NERC Petition at 3–4.

adversely impact reliability by ensuring each reliability coordinator has the data and information it needs to plan, monitor and assess the operation of its reliability coordinator area. The category 2 generator owners and operators will now have to meet Requirement R3 that requires the generator owners and generator operators to satisfy the obligations of the documented specifications from the reliability coordinator on data and information needed for the operational planning analyses, real-time monitoring, and real-time assessments. Reliability Standard MOD-032-1 is currently located in the FERC-725L (OMB Control No. 1902-0261) collection. The purpose of the standard is to establish consistent modeling data requirements and reporting procedures for development of planning horizon cases necessary to support analysis of the reliability of the interconnected transmission system. The category 2 generator owners will now have to follow Requirements R2 and R3 that require generator owners provide modeling data to and address any concerns raised by the planning coordinator or transmission planner.

Reliability Standards PRC-012-2 and PRC-017-1 are currently located in the FERC-725G (OMB Control No. 1902-0252) collection. The purpose of PRC-012-2 is to ensure that remedial action schemes (RAS) do not introduce unintentional or unacceptable reliability risks to the BES. The stated purpose of Reliability Standard PRC-017-1 is to ensure that all RAS are properly designed, meet performance requirements, and are coordinated with other protection systems and to ensure that maintenance and testing programs are developed and misoperations are analyzed and corrected. The category 2 generator owners, that are part of a RAS, will now have to follow Requirements R1, R3, and R5 through R8 in Reliability Standard PRC-012-2 and Requirements R1 and R2 in Reliability Standard PRC-017-1. Specifically, Reliability Standard PRC-012-2 requires that generator owners that own all or part of a RAS to

review and provide information to their reliability coordinator in R1 and R3; and to test, analyze performance, and take corrective action, if needed, in Requirements R5 through R8. Requirements R1 and R2 of Reliability Standard PRC-017-1 require generator owners that own a RAS to maintain and document a system maintenance and testing program.

Reliability Standard TOP-003-6.1 is currently located in the FERC-725A (OMB Control No. 1902-0244) collection. The purpose of this standard is to ensure that each transmission operator and balancing authority has the data and information it needs to plan, monitor, and assess the operation of its transmission operator area or balancing authority area. The category 2 generator owners and generator operators will now have to follow Requirement R5, which requires generator owners and generator operators to satisfy the obligations of the documented specifications of data and information related to operational planning analyses, real-time monitoring, and real-time assessments provided by the transmission operator or balancing authority.

Reliability Standards VAR-001-5 and VAR-002-4.1 are currently located in the FERC-725X (OMB Control No. 1902-0278) collection. The purpose of Reliability Standard VAR-001-5 is to ensure that voltage levels, reactive flows, and reactive resources are monitored, controlled, and maintained within limits in real-time to protect equipment and the reliable operation of the interconnection. The purpose of Reliability Standard VAR-002-4.1 is to ensure generators provide reactive support and voltage control, within generating facility capabilities, in order to protect equipment and maintain reliable operation of the interconnection. The category 2 generator owners in Western Electricity Coordinating Council (WECC) will now have to follow Requirements E.A.15 and E.A.17 in Reliability Standard VAR-001-5. The category 2 generator

operators will now have to follow Reliability Standard VAR-002-4.1, Requirements R1 through 4 and the category 2 generator owners will now have to follow Requirements R5 and R6. Specifically, Requirements E.A.15 and E.A. 17 require generator operators in WECC to provide voltage set point conversion methodologies to its transmission operator and to meet control loop specifications. Requirements R1 through 4 of Reliability Standard VAR-002-4.1 require the generator operators to operate their generators in automatic voltage control mode, maintain voltage schedules, and to notify their transmission operator in the event of a change. Requirements R5 and R6 require the generator owner to provide data and tap settings information to their transmission operator and transmission planner and to ensure transformer tap positions are changed according to the specifications provided by the transmission operator.

Type of Respondents: Generator owners and generator operator entities registered with NERC that own or operate category 2 resources.

*Estimate of Annual Burden:*⁹ The applicable requirements from the eight applicable Reliability Standards largely consist of sharing and communicating readily available data and information for category 2 resources. Thus, Commission staff anticipates that the paperwork burden should be minimal for category 2 resources. The number of respondents, in the tables below, are based on good faith estimates provided by NERC, in August 2025, to Commission staff for the number of entities that either own or operate category 2 resources.

The Commission estimates the annual reporting burden and cost for the information collection as:

⁹ "Burden" is defined as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For further explanation of what is included in the information collection burden, see 5 CFR 1320.3.

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 3428–000]

Brown Bear II Hydro, Inc.; Notice of Authorization for Continued Project Operation

The license for the Worumbo Hydroelectric Project No. 3428 was issued for a period ending November 30, 2025.

Section 15(a)(1) of the FPA, 16 U.S.C. 808(a)(1), requires the Commission, at the expiration of a license term, to issue from year-to-year an annual license to the then licensee(s) under the terms and conditions of the prior license until a new license is issued, or the project is otherwise disposed of as provided in

¹⁰ The numbers for respondents were derived from the NERC's identification of category 2 generator owners and generator operators registered entities in the United States to Commission staff in August 2025.

¹¹ The estimated hourly cost (salary plus benefits) is a combination of the following categories from the Bureau of Labor Statistics (BLS) website, May 2024 http://www.bls.gov/oes/current/naics2_22.htm: 75% of the average of an Electrical Engineer (17–2071) \$71.19/hr., $\times .75 = 53.3925$ (\$53.39 rounded) (\$53.39/hour); and 25% of an Information and Record Clerk (43–4199) \$40.51/hr., $\$40.51 \times .25 = 10.1275$ (\$10.13 rounded) (\$10.13/hour), for a total (\$53.39 + \$10.13 = \$63.52/hour).

¹² See note 10.

²⁰ See note 10.

²¹ See note 11.

section 15 or any other applicable section of the FPA. If the project's prior license waived the applicability of section 15 of the FPA, then, based on section 9(b) of the Administrative Procedure Act, 5 U.S.C. 558(c), and as set forth at 18 CFR 16.21(a), if the licensee of such project has filed an application for a subsequent license, the licensee may continue to operate the project in accordance with the terms and conditions of the license after the minor or minor part license expires, until the Commission acts on its application. If the licensee of such a project has not filed an application for a subsequent license, then it may be required, pursuant to 18 CFR 16.21(b), to continue project operations until the Commission issues someone else a license for the project or otherwise orders disposition of the project.

If the project is subject to section 15 of the FPA, notice is hereby given that an annual license for Project No. 3428 is issued to Brown Bear II Hydro, Inc. for a period effective December 1, 2025, through November 30, 2026, or until the issuance of a new license for the project or other disposition under the FPA, whichever comes first.

If issuance of a new license (or other disposition) does not take place on or before November 30, 2026, notice is hereby given that, pursuant to 18 CFR 16.18(c), an annual license under section 15(a)(1) of the FPA is renewed automatically without further order or notice by the Commission, unless the Commission orders otherwise.

If the project is not subject to section 15 of the FPA, notice is hereby given that Brown Bear II Hydro, Inc. is authorized to continue operation of the Worumbo Hydroelectric Project under the terms and conditions of the prior license until the issuance of a subsequent license for the project or other disposition under the FPA, whichever comes first.

For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, contact the Office of Public Participation at (202) 502–6595 or *OPP@ferc.gov*.

(Authority: 18 CFR 2.1)

[Project No. 2417–000]

Northern States Power Company; Notice Of Authorization For Continued Project Operation

The license for the Hayward Hydroelectric Project No. 2417 was issued for a period ending November 30, 2025.

Section 15(a)(1) of the FPA, 16 U.S.C. 808(a)(1), requires the Commission, at the expiration of a license term, to issue from year-to-year an annual license to the then licensee(s) under the terms and conditions of the prior license until a new license is issued, or the project is otherwise disposed of as provided in section 15 or any other applicable section of the FPA. If the project's prior license waived the applicability of section 15 of the FPA, then, based on section 9(b) of the Administrative Procedure Act, 5 U.S.C. 558(c), and as set forth at 18 CFR 16.21(a), if the licensee of such project has filed an application for a subsequent license, the licensee may continue to operate the project in accordance with the terms and conditions of the license after the minor or minor part license expires, until the Commission acts on its application. If the licensee of such a project has not filed an application for a subsequent license, then it may be required, pursuant to 18 CFR 16.21(b), to continue project operations until the Commission issues someone else a license for the project or otherwise orders disposition of the project.

If the project is subject to section 15 of the FPA, notice is hereby given that an annual license for Project No. 2417 is issued to Northern States Power Company for a period effective December 1, 2025, through November 30, 2026, or until the issuance of a new license for the project or other disposition under the FPA, whichever comes first.

If issuance of a new license (or other disposition) does not take place on or before November 30, 2026, notice is hereby given that, pursuant to 18 CFR 16.18(c), an annual license under section 15(a)(1) of the FPA is renewed automatically without further order or notice by the Commission, unless the Commission orders otherwise.

If the project is not subject to section 15 of the FPA, notice is hereby given that Northern States Power Company is authorized to continue operation of the Hayward Hydroelectric Project under the terms and conditions of the prior
