#### Amended Final Results of Review

As a result of correcting the ministerial errors described above, we determine the following estimated weighted-average dumping margin exists for the period November 3, 2022, through April 30, 2024:

Exporter/producer	Weighted-average dumping margin (percent)
Oman Aluminium Rolling Company .....	42.13

#### Disclosure

We intend to disclose the calculations performed in connection with these amended final results of review to parties in this review within five days of the date of publication of this notice in the **Federal Register**, in accordance with 19 CFR 351.224(b).

#### Assessment Rates

Normally Commerce would issue assessment instructions to U.S. Customs and Border Protection (CBP) no earlier than 35 days after the date of publication of the amended final results of this review in the **Federal Register**. However, in this case, a timely summons and complaint have been filed at the U.S. Court of International Trade, and a statutory injunction is in place. Therefore, we will not issue assessment instructions until the injunction has lifted. When the injunction lifts such that we can issue assessment instructions, and where the respondent reported reliable entered values, we will calculate importer- (or customer-) specific *ad valorem* rates by aggregating the dumping margins calculated for all U.S. sales to each importer (or customer) and dividing this amount by the total entered value of the sales to each importer (or customer).<sup>9</sup> Where Commerce calculated a weighted-average dumping margin by dividing the total amount of dumping for reviewed sales to that party by the total sales quantity associated with those transactions, Commerce will direct CBP to assess importer- (or customer-) specific assessment rates based on the resulting per-unit rates.<sup>10</sup> Where an importer- (or customer-) specific *ad valorem* or per-unit rate is greater than *de minimis* (i.e., 0.50 percent),

Commerce will instruct CBP to collect the appropriate duties at the time of liquidation.<sup>11</sup> Where an importer- (or customer-) specific *ad valorem* or per-unit rate is zero or *de minimis*, Commerce will instruct CBP to liquidate appropriate entries without regard to antidumping duties.<sup>12</sup>

Consistent with Commerce's assessment practice, for entries of subject merchandise during the POR produced by OARC for which the producer did not know that its merchandise was destined for the United States, we will instruct CBP to liquidate unreviewed entries at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction.<sup>13</sup>

#### Cash Deposit Requirements

The following amended cash deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after September 12, 2025, the publication date of the *Final Results* of this administrative review, as provided by section 751(a)(2)(C) of the Act: (1) the amended cash deposit rate for the company listed above will be equal to the weighted-average dumping margin established in the amended final results of this administrative review; (2) for previously reviewed or investigated companies not participating in this review, the cash deposit rate will continue to be the company-specific rate published for the most recently completed segment of this proceeding in which the producer or exporter participated; (3) if the exporter is not a firm covered in this review, a prior review, or the original investigation but the producer is, the cash deposit rate will be the rate established for the most recently completed segment of this proceeding for the producer of the subject merchandise; and (4) the cash deposit rate for all other producers or exporters will continue to be the all-others rate established in the less-than-fair-value investigation (i.e., 3.89 percent).<sup>14</sup> These cash deposit requirements, when imposed, shall remain in effect until further notice.

#### Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping and/or countervailing duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping duties and/or countervailing duties occurred and the subsequent assessment of double antidumping duties and/or an increase in the amount of antidumping duties by the amount of the countervailing duties.

#### Administrative Protective Order

This notice also serves as a reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

#### Notification to Interested Parties

We are issuing and publishing these amended final results in accordance with sections 751(h) and 777(i) of the Act and 19 CFR 351.224(e).

Dated: December 17, 2025.

**Christopher Abbott,**

*Deputy Assistant Secretary for Policy and Negotiations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.*

(PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

**DATES:** To ensure consideration, comments regarding this proposed information collection must be received on or before February 20, 2026.

**ADDRESSES:** Interested persons are invited to submit written comments to Adrienne Thomas, NOAA PRA Officer, at *NOAA.PRA@noaa.gov*. Please reference OMB Control Number 0648-0204 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

**FOR FURTHER INFORMATION CONTACT:**

Requests for additional information or specific questions related to collection activities should be directed to: Karen Palmigiano, West Coast Region (WCR) Permits Specialist, at NOAA WCR, 7600 Sand Point Way NE—Building 1, Seattle, Washington (WA) 98155, (562) 980-4238, or *karen.palmigiano@noaa.gov*.

**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

This is a request for renewal of the existing reporting requirements of the approved collection of information, West Coast Region Family of Forms (0648-0204).

The WCR Permits Office administers permits required for persons and vessels participating in Federally managed fisheries off the West Coast under the Magnuson-Stevens Fishery Conservation and Management act, 16 U.S.C. 1801 *et seq.* Section 303 (b) (1) of the Magnuson-Stevens Act specifically authorizes the establishment of permit requirements. Almost all international, federal, state, and local fishery management authorities use permits as part of their management systems.

The Magnuson-Stevens Act established regional fishery management councils, including the Pacific Fishery Management Council (Pacific Council), to develop fishery management plans (FMP) for fisheries in the United States (U.S.) exclusive economic zone (EEZ). These plans, if approved by the Secretary of Commerce, are implemented by Federal regulations, which are enforced by the National Marine Fisheries Service (NMFS) and the U.S. Coast Guard (USCG), in

cooperation with State agencies to the extent possible. FMPs are intended to regulate fishing for stocks to prevent overfishing and achieve the optimum yield from the fisheries for the benefit of the U.S. The Pacific Council has prepared FMPs for the coastal pelagic species (CPS) fishery and Pacific Highly Migratory Species (HMS) off the U.S. West Coast. Each of these FMPs created permit programs which are administered by the West Coast Region, NMFS.

There are two types of regulatory permits used by the WCR: Open access fishery permits and limited entry permits for selected fisheries. Open access permits are used in all fisheries where there are no specific limitations or eligibility criteria for entry to the fishery. Limited entry permits are used to prevent overcapitalization or address other management goals in the fishery and limit the number of applicants permitted to participate in the fishery. Applicants for both open access and limited entry permits are required to submit applications to obtain these permits but are not required to submit reports on their fishing activities under these permits. These permits are part of information collection request (ICR) 0648-0204.

Exempt fishing permits (EFPs) are issued to applicants for fishing activities that would otherwise be prohibited under a fisheries management plan. Applicants for an EFP must submit written information that allows NOAA and the Pacific Council to evaluate the proposed EFP activities and weigh the benefits and costs of the proposed activities. The Council makes a recommendation on each EFP application and for successful applicants, NOAA Fisheries issues the EFP which contains terms and conditions for the project including various reporting requirements. The information included in an application is specified at 50 CFR 600.745(b)(2) and the Pacific Council Operating Procedure #19. EFP holders are required to file preseason harvest plans, interim and/or final summary reports on the results of the project, and in some cases individual vessels and other permit holders are required to provide data reports (*i.e.*, logbooks and/or catch reports). The results of EFPs are commonly used to explore ways to reduce effort on depressed stocks, encourage innovation and efficiency in the fishery, and provide access to constrained stocks by directly measuring the bycatch associated with current and proposed management measures. EFPs are currently part of ICR 0648-0204.

**Letters of Authorization (LOAs) and Exempted Educational Activity Authorizations (EEAAs)** are types of permits used to grant exemptions from fishery regulations for educational or other activities (*e.g.*, using nonregulation gear). An EEAA is issued by the WCR to accredited educational institutions that authorize, for educational purposes, the target or incidental harvest of species managed under a fisheries management plan or fishery regulations that would otherwise be prohibited. EEAAs are generally of limited scope and duration and authorize the take of the amount of fish necessary to demonstrate the lesson. Researchers are requested to submit scientific research plans prior to undertaking those activities, along with reports of their scientific research activity after its completion. LOAs are required under Section 101(a)(5)(A) of the Marine Mammal Protection Act (MMPA) of 1972 for the incidental take of marine mammals during fisheries surveys and related research activities conducted by the Northwest Fisheries Science Center (NWFSC), NMFS. Management of certain marine mammals falls under the jurisdiction of the NMFS under the MMPA and Endangered Species Act (ESA) and mechanisms exist under both the MMPA and ESA to assess the effect of incidental takings and to authorize appropriate levels of take.

**II. Method of Collection**

The primary method of collection is via an electronic (internet) submission form; paper applications are also available and may be submitted by mail to the Long Beach Permits Office.

**III. Data**

*OMB Control Number:* 0648-0204.  
*Form Number(s):* None.

*Type of Review:* Regular submission (extension of a current information collection).

*Affected Public:* Business or other for-profit organizations.

*Estimated Number of Respondents:* 1,099.

*Estimated Time per Response:* Highly Migratory Species (Paper), New—20 minutes; Highly Migratory Species (Online), New—15 minutes; HMS Paper; Renew—10 minutes; HMS Online, Renew—5 minutes; CPS Renewal—10 minutes; CPS Transfer—30 minutes; LE DGN Renew—10 minutes; LE DGN Transfer—30 minutes; LE DGN Designation Request—30 minutes; LE DGN Exemption Request—30 minutes; Appeals—240 minutes; Scientific research plans—13 hours; scientific research reports—7 hours exempted

fishery permit requests; 60 minutes, exempted fishing permit reports, 4.5 hours; exempted educational requests, 5 hours; exempted educational reports, 2.5 hours.

*Estimated Total Annual Burden Hours:* 233 hours.

*Estimated Total Annual Cost to Public:* \$4,780.

*Legal Authority:* MSA, MMPA, ESA.

#### IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this Information Collection Request (ICR). Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

**Sheleen Dumas,**

*Departmental PRA Compliance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.*

#### DEPARTMENT OF COMMERCE

#### National Oceanic and Atmospheric Administration

[Docket No.: NOAA-HQ-2025-1464]

#### Federal Consistency Appeal by Georgina Clemente

**AGENCY:** National Oceanic and Atmospheric Administration (NOAA), Department of Commerce (DOC).

**ACTION:** Notice of appeal, request for public comment.

**SUMMARY:** This announcement provides notice that the Department of Commerce (DOC) has received a “Notice of Appeal” filed by Georgina Clemente requesting that the Secretary override an objection by the New York State Department of State to a consistency certification for a pending permit application to the U.S. Army Corps of Engineers to install a dock and boat lift in Little Peconic Bay, Suffolk County, NY.

**DATES:** Written comments and requests for a public hearing will be considered if received no later than January 21, 2026.

**ADDRESSES:** NOAA intends to post publicly available materials and related documents comprising the appeal record electronically, at [www.regulations.gov](http://www.regulations.gov), under docket number NOAA-HQ-2025-1464.

Comments or requests for a public hearing must be submitted via the following method:

- *Electronic Submission:* Submit all electronic public comments or requests for a public hearing via the Federal eRulemaking portal. Go to [www.regulations.gov](http://www.regulations.gov) and enter NOAA-HQ-2025-1464 in the search box. Click the “Comment” icon, complete the required fields, and enter or attach your comments. Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NOAA.

**FOR FURTHER INFORMATION CONTACT:** Lauren Bregman, NOAA Office of the General Counsel, Oceans and Coasts Section, 1305 East-West Highway, Room 6111, Silver Spring, MD 20910, (301) 713-7389, [lauren.bregman@noaa.gov](mailto:lauren.bregman@noaa.gov).

#### SUPPLEMENTARY INFORMATION:

##### I. Background

On November 21, 2025, the Secretary of Commerce (Secretary) received a “Notice of Appeal” filed by Georgina Clemente pursuant to the Coastal Zone Management Act (CZMA), 16 U.S.C. 1451 *et seq.*, and implementing regulations found at 15 CFR part 930, subpart H. The “Notice of Appeal” is taken from an objection by the New York State Department of State to a consistency certification for a pending permit application to the U.S. Army Corps of Engineers to install a dock and boat lift in Little Peconic Bay, Suffolk County, NY.

Under the CZMA, the Secretary may override the New York State Department of State’s objection on grounds that the

project is consistent with the objectives or purposes of the CZMA, or otherwise necessary in the interest of national security. To make the determination that the proposed activity is “consistent with the objectives or purposes of the CZMA,” the Secretary must find that: (1) the proposed activity furthers the national interest as articulated in sections 302 or 303 of the CZMA, in a significant or substantial manner; (2) the national interest furthered by the proposed activity outweighs the activity’s adverse coastal effects, when those effects are considered separately or cumulatively; and (3) no reasonable alternative is available that would permit the proposed activity to be conducted in a manner consistent with the enforceable policies of the applicable coastal management program. 15 CFR 930.121. To make the determination that the proposed activity is “necessary in the interest of national security,” the Secretary must find that a national defense or other national security interest would be significantly impaired if the proposed activity is not permitted to go forward as proposed. 15 CFR 930.122.

#### II. Request for Public and Federal Agency Comments

We encourage the public and interested federal agencies to participate in this appeal by submitting written comments and any relevant materials supporting those comments using the method specified in the **ADDRESSES** section of this notice. All comments received are a part of the public record and will generally be posted for public viewing on [www.regulations.gov](http://www.regulations.gov) without change. All personally identifiable information (e.g., name, address), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NOAA will accept anonymous comments (enter “N/A” in the required fields if you wish to remain anonymous).

#### III. Opportunity for Public Hearing

The Secretary may hold a public hearing on this appeal, either in response to a written request for a public hearing or upon their own initiative. You may submit a request for a public hearing using the method specified in the **ADDRESSES** section of this notice. A written request for a public hearing must include an explanation for why you believe a public hearing would be beneficial and aid the decision-maker. If a hearing is held, advance notice of the time, date, and location of the public hearing will
