Abstract of Proposed Collection

The DS–7794 is completed by panel physicians to report the medical status of visa applicants; refugees; follow-to-join refugees and asylees; and certain parolees. The form records the medical information necessary to determine whether an alien has a medical condition affecting his or her eligibility for a visa or immigration benefit. The information requested is limited to the result of any diagnostic tests required for the diagnosis of diseases identified as communicable diseases of public health significance, as well as other evaluations identified as necessary to confirm a medical ineligibility under INA § 212(a)(1), 8 U.S.C. 1182(a)(1) or to comply with other requirements. Collecting this information is essential to protecting public health in the United States.

Methodology

A panel physician, designated by the consular post, performs a medical examination of the applicant and completes the electronic form in the eMedical portal in accordance with instructions issued by the Centers for Disease Control (CDC). The information collected is retained by the Bureau of Consular Affairs and available to the CDC and DHS.

Abstract of Proposed Collection

The collection of information requested on the DS-1838 and DS-7783 is necessary to comply with:

Homeland Security Presidential Directive 12 (HSPD-12) was issued August 27, 2004, to set policy for a common, reliable, and secure

identification standard for federal employees and contractors for accessing federally controlled facilities and federal information systems. In order to keep Federal and other facilities where there is potential for terrorist attacks secure, wide variations in the quality and security of forms of identification need to be eliminated.

Federal Information Processing Standard Publication 201 (FIPS 201) is a United States Federal government standard that specifies Personal Identity Verification (PIV) requirements for Federal employees and contractors. The NIST (National Institute of Standards and Technology) Computer Security Division initiated a new program for improving the identification and authentication of Federal employees and contractors for access to Federal facilities and information systems.

All Department employees and contractors are required to submit application for a Personal Identification Card (DS-1838 domestically or DS-7783 overseas) at the time of hire.

Methodology

Information is collected by a form (obtained from MyData forms) or automated badge request (ABR) online.

George Semertsidis,

(Acting) Deputy Assistant Secretary Diplomatic Security Department of State.
