B. Submitting Comments

The NRC encourages electronic comment submission through the Federal rulemaking website (<https://www.regulations.gov>). Please include Docket ID NRC–2025–0041, in your comment submission.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <https://www.regulations.gov> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request the OMB’s approval for the information collection summarized as follows.

1. *The title of the information collection:* NRC Form 754, “Armed Security Personnel Firearms Background Check.”
2. *OMB approval number:* 3150–0204.
3. *Type of submission:* Extension.
4. *The form number, if applicable:* NRC Form 754.
5. *How often the collection is required or requested:* Once every 5 years.
6. *Who will be required or asked to respond:* Licensees who apply for Section 161A authority.
7. *The estimated number of annual responses:* 550.
8. *The estimated number of annual respondents:* 6.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request: 1,220 hours.*

10. *Abstract:* Current NRC security regulations include security requirements pertaining to nuclear power reactors and Category I Strategic Special Nuclear Material (SSNM) facilities for access to enhanced weapons and firearms background checks. NRC Form 754 collects the information required to perform the necessary firearms background checks. The background check uses the person's fingerprints and other identifying information and is performed under the Federal Bureau of Investigation's National Instant Criminal Background Check System to determine if an individual is prohibited under Federal or State law from possessing or receiving firearms. Licensees submit NRC Form 754 for all security personnel protecting Commission designated facilities, radioactive material, or other property whose duties require them to have access to these weapons.

III. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility? Please explain your answer.
2. Is the estimate of the burden of the information collection accurate? Please explain your answer.
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated: December 18, 2025.

For the Nuclear Regulatory Commission.

SUPPLEMENTARY INFORMATION:

I. Background

The Commission hereby gives notice that, pursuant to Section 189a of the Atomic Energy Act (AEA) of 1954, as amended, it will commence an uncontested hearing, in which the Commission will receive written evidence in the form of testimony and exhibits regarding the application submitted by TerraPower, on behalf of USO, for a construction permit to construct a nuclear-powered generating plant termed Kemmerer Power Station Unit 1 in Lincoln County, Wyoming.

TerraPower's application was submitted by letter on March 28, 2024 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML24088A060).

The NRC staff's Final Environmental Impact Statement and Safety Evaluation Report may be viewed at ADAMS Accession Nos. ML25287A017 and ML25329A252, respectively. This mandatory hearing will concern safety and environmental matters relating to the requested construction permit application, as more fully described below.

II. Evidentiary Uncontested Hearing

The Commission will conduct this hearing using written materials only. The schedule and process for submitting written materials to the Commission is detailed in Sections V and VI below. The parties to this proceeding are TerraPower and the NRC staff.

III. Presiding Officer

The Commission is the presiding officer for this proceeding.

IV. Matters To Be Considered

The matter at issue in this proceeding is whether the review of the TerraPower Kemmerer Power Station Unit 1 construction permit application by the Commission's staff has been adequate to support the findings found in 10 CFR 50.35, 50.40, 50.50, and 10 CFR 51.105. Those findings are as follows:

Issues Pursuant to the Atomic Energy Act of 1954, as Amended

With respect to the construction permit: (1) whether the applicant has described the proposed design of the facility, including, but not limited to, the principal architectural and engineering criteria for the design, and has identified the major features or components incorporated therein for the protection of the health and safety of the
