

## Classification

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act (16 U.S.C. 1855(d)) and regulations at 50 CFR part 635 and this action is exempt from review under Executive Order 12866.

The AA finds that pursuant to 5 U.S.C. 553(b)(B), it is unnecessary to provide prior notice of, and an opportunity for public comment on, this action for the following reasons. The rulemaking processes for Amendment 13 to the 2006 Consolidated HMS FMP (87 FR 59966, October 3, 2022), the 2022 Atlantic bluefin tuna and northern albacore quota rule (87 FR 33049, June 1, 2022), and the 2016 North and South Atlantic Swordfish Quota Adjustment Rule (81 FR 48719, July 26, 2016) specifically provided prior notice of, and accepted public comment on, the formulaic quota adjustment processes for the northern albacore, Atlantic bluefin tuna, and swordfish fisheries and the manner in which they occur. These processes have not changed, and the application of these formulas to adjust the relevant quotas is a routine action that does not have discretionary aspects requiring additional agency consideration. Additionally, similar actions to adjust the quotas based on finalized information regarding the previous year's landings occur annually, and the regulated community expects such adjustments in 2025. NMFS has also informed fishery participants through various management actions throughout the 2025 fishing season of the pending quota adjustments. The delay that would result from unnecessarily soliciting public comments would interfere with management of the fisheries at issue. These fisheries are currently open and permit holders are actively fishing, and delay thus raises the risk that the quotas could be exceeded. For all of these reasons, it is unnecessary to provide prior notice and an additional opportunity for public comment on this action.

There is good cause under 5 U.S.C. 553(d)(3) to waive the 30-day delay in the date of effectiveness and to make the rule effective upon the date of publication in the **Federal Register**. As described above, this is a routine action that applies existing quota adjustment formulas, and that the regulated community anticipates annually. The 2025 fisheries for northern albacore, North and South Atlantic swordfish, and bluefin tuna opened on January 1, 2025, and end on December 31, 2025. As noted above, these fisheries are currently open, permit holders are

actively fishing, and the adjusted quotas automatically revert back to the baseline quotas on January 1, 2026. As such, there is no need to delay the effective date of this rule's quota adjustments. Any further delay would be contrary to the Magnuson-Stevens Act requirement to allow U.S. vessels reasonable opportunity to harvest highly migratory species allocations and quotas under relevant international fishery agreements such as ICCAT.

Because prior notice and opportunity for public comment are not required for this rule by 5 U.S.C. 553, or any other law, the analytical requirements of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, are inapplicable.

**Authority:** 16 U.S.C. 971 *et seq.* and 1801 *et seq.*

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

#### 50 CFR Part 648

[Docket No. 241203–0308; RTID 0648–XF390]

#### Fisheries of the Northeastern United States; Atlantic Bluefish Fishery; Quota Transfer From New York to North Carolina

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Temporary rule; quota transfer.

**SUMMARY:** NMFS announces that the State of New York is transferring a portion of their 2025 commercial bluefish quota to the State of North Carolina. This quota adjustment is necessary to comply with the Atlantic Bluefish Fishery Management Plan (FMP) quota transfer provisions. This announcement informs the public of the revised 2025 commercial bluefish quotas for New York and North Carolina.

**DATES:** Effective December 22, 2025, through December 31, 2025.

**FOR FURTHER INFORMATION CONTACT:** Matthew Rigdon, Fishery Management Specialist, (978) 281–9336.

**SUPPLEMENTARY INFORMATION:** Regulations governing the Atlantic bluefish fishery are found in 50 CFR

648.160 through 648.167. These regulations require annual specification of a commercial quota that is apportioned among the coastal states from Maine through Florida. The process to set the annual commercial quota and the percent allocated to each state is described in § 648.162, and the final 2025 allocations were published on December 10, 2024 (89 FR 99138).

The final rule implementing amendment 1 to the FMP, as published in the **Federal Register** on July 26, 2000 (65 FR 45844), provided a mechanism for transferring bluefish commercial quota from one state to another. Two or more states, under mutual agreement and with the concurrence of the NMFS Greater Atlantic Regional Administrator, can request approval to transfer or combine bluefish commercial quota under § 648.162(e). The Regional Administrator is required to consider three criteria in the evaluation of requests for quota transfers or combinations: (1) the transfers would not preclude the overall annual quota from being fully harvested; (2) the transfers address an unforeseen variation or contingency in the fishery; and (3) the transfers are consistent with the objectives of the FMP and the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). The Regional Administrator has determined these criteria have been met for the transfers approved in this notification.

New York is transferring 100,000 pounds (lb) (45,359 kilograms (kg)) to North Carolina through mutual agreement of the states. This transfer was requested to ensure North Carolina would not exceed its 2025 state quota. The revised bluefish quotas for 2025 are: New York, 377,518 lb (171,239 kg); and North Carolina, 1,422,012 lb (645,014 kg).

## Classification

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. This action is required by 50 CFR 648.162(e)(1)(i) through (iii), which was issued pursuant to section 304(b), and is exempted from review under Executive Order 12866.

**Authority:** 16 U.S.C. 1801 *et seq.*
