**ACTION:** Notice and request for comments.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget's (OMB) approval to renew an information collection. The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on September 22, 2025. **FOR FURTHER INFORMATION CONTACT:** Dr. Katrina Avers by email at: [Katrina.Avers@faa.gov](mailto:Katrina.Avers@faa.gov); phone: 405-954-6299.

#### SUPPLEMENTARY INFORMATION:

*Public Comments Invited:* You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information.

*OMB Control Number:* 2120-0707.

*Title:* Survey of Airman Satisfaction with Aeromedical Certification Services.

*Form Numbers:* N/A.

*Type of Review:* Renewal of an information collection.

*Background:* The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on September 22, 2025 (90 FR 45459). The Federal Aviation Administration (FAA), through the Office of Aerospace Medicine (OAM), is responsible for the medical certification of pilots and certain other personnel under 14 CFR part 67 to ensure they are medically qualified to operate aircraft and perform their duties safely. In the accomplishment of this responsibility, OAM provides a number of services to pilots and has established goals for the performance of those services. This is a biennial survey designed to meet the requirement to survey stakeholder satisfaction under Executive Order No. 12862, "Setting Customer Service Standards," and the Government Performance and Results Act of 1993 (GPRA).

The survey of Airman Satisfaction with Aeromedical Certification Services assesses airman opinion of key dimensions of service quality. These dimensions, identified by the OMB Statistical Policy Office in the 1993 "Resource Manual for Customer

Surveys," are courtesy, competence, reliability, and communication. The survey also provides airmen with the opportunity to provide feedback on the services and a medical certificate application tool they use. This information is used to inform improvements in Aeromedical Certification Services.

The survey was initially collected in 2004 and collected approximately every 2 years, most recently in 2023 (OMB Control No. 2120-0707). Across collections, minor revisions have been made to the survey items and response options to reflect changes in operational services and survey technology. To reduce the burden on the individual respondent and potentially improve the response rate, this information collection will be electronic.

*Respondents:* Approximately 5,700 Airmen who have sought a medical certification within two years of the survey administration.

*Frequency:* Every two years.

*Estimated Average Burden per*

*Response:* 15 minutes.

*Estimated Total Annual Burden:* 1,425 total burden hours.

Issued in Oklahoma City, Oklahoma on December 22, 2025.

## DEPARTMENT OF TRANSPORTATION

### Office of the Secretary

[Docket No. DOT-OST-2025-1921]

**Agency Requests for Renewal of a Previously Approved Information Collection: TAR Part 1239-Related**

**AGENCY:** Office of the Secretary (OST), U.S. Department of Transportation (DOT).

**ACTION:** Notice and request for comments.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995, and Office of Management and Budget (OMB) regulations, the Department of Transportation (DOT) invites public comments on currently approved Transportation Acquisition Regulation (TAR) part 1239 information collection requests (ICRs) and our intention to request OMB approval to renew the ICRs on an interim basis as abstracted below while DOT undertakes further review to streamline its regulations. The public will be afforded another opportunity to review revised

streamlined TAR content when published as a part of a proposed rule. DOT is required to publish this notice in the **Federal Register** in accordance with the Paperwork Reduction Act of 1995.

**DATES:** Interested persons are invited to submit comments on or before January 28, 2026.

**ADDRESSES:** DOT invites interested persons to submit comments identified by Docket No. DOT–OST–2025–1921 through one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions on the site. This website provides the ability to type short comments directly into the comment field or attach a file for lengthier comments. If there are difficulties submitting comments, see further information contact below.

- *Fax:* 1–202–493–2251.

- *Mail or Hand Delivery:* Docket Operations, U.S. Department of Transportation, 1200 New Jersey Avenue SE, West Building, Room W12–140, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except on Federal holidays.

*Instructions:* All items submitted must cite the OMB control numbers (see abstracts below).

**Note:** Comments received generally will be posted without change to <https://www.regulations.gov>, including any personal and/or business confidential information provided.

**FOR FURTHER INFORMATION CONTACT:**

LaWanda Morton-Chunn, Procurement Analyst, Office of the Secretary, 1200 New Jersey Avenue SE, Washington, DC 20590, telephone: (202) 366–2267 or [lawanda.morton-chunn@dot.gov](mailto:lawanda.morton-chunn@dot.gov).

**SUPPLEMENTARY INFORMATION:** DOT invites comments on: (1) whether the proposed collection of information is necessary for the proper performance of the functions of DOT acquisitions, including whether the information will have practical utility; (2) the accuracy of the estimate of the burden of the proposed information collection; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the information collection on respondents, including the use of automated collection techniques or other forms of information technology. OMB has approved this information collection for use through December 31, 2025. DOT proposes that OMB extend its approval for use for three additional years beyond the current expiration date. On October 27, 2025, OST published a 60-day notice in the **Federal**

**Register** soliciting comment by December 26, 2025 on the ICRs for which it is now seeking OMB approval for the extension of a previously approved collection. *See* 90 FR 48600. OST received no comments in response to this 60-day notice.

Before OMB decides whether to approve the proposed collection of information, it must provide 30 days for public comment. Federal law requires OMB to approve or disapprove paperwork packages between 30 and 60 days after the 30-day notice is published. 44 U.S.C. 3507(b)–(c); 5 CFR 1320.12(d); *see also* 60 FR 44978, 44983, Aug. 29, 1995. OMB believes the 30 day notice informs the regulated community to file relevant comments and affords the agency adequate time to digest public comments before it renders a decision. 60 FR 44983, Aug. 29, 1995. Therefore, respondents should submit their respective comments to OMB within 30 days of publication to best ensure having their full effect.

**Need for Extension**

As a result of the Revolutionary Federal Acquisition Regulation (FAR) (RFO) Initiative, the Transportation Acquisition Regulation (TAR) is also under review. The TAR must align with on-going interim class deviations to the FAR issued by DOT, as well as a later planned FAR proposed rule to be published in the **Federal Register** by the FAR Council for public comment in 2026. As a part of its review, DOT will consider revising and removing content where needed, adding agency-level statutory requirements, as required, and revising subpart and section numbering in each TAR part to align with new FAR parts. To implement this initiative and to comply with Executive Order 14275 of April 15, 2025, “Restoring Common Sense to Federal Procurement,” and OMB Memorandum M–25–26, “Overhauling the Federal Acquisition Regulation,” May 2, 2025, DOT is conducting a concurrent rigorous review of the TAR to streamline and update coverage, where appropriate or to remove content to internal agency procedures. DOT anticipates there may be substantive revisions to the TAR, revisions to current Code of Federal Regulations (CFR) solicitation provisions and contract clauses under Title 48, CFR chapter 12 (the TAR), part 1252. This may include potential reductions in information collection requirements and burden under this approved OMB control number. This review and update will be worked by OSPE in conjunction with the Office of Information Technology after

appropriate benchmarking and analysis of statutory and other requirements.

DOT requires an extension of the current information collection requirements currently in the TAR at 48 CFR chapter 12 until this analysis is completed, and a proposed TAR rule is developed and published in the **Federal Register** for public comment, anticipated later in 2026.
