Federal Aviation Administration

[FAA-2025-2496]

Agency Information Collection

Activities: Requests for Comments; Clearance of a Renewed Approval of Information Collection: Survey of Airman Satisfaction With Aeromedical Certification Services

AGENCY: Federal Aviation Administration (FAA), DOT

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget's (OMB) approval to renew an information collection. The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on September 22, 2025. The collection involves soliciting feedback from airmen on service quality of Aeromedical Certification Services. The information to be collected will be used

to inform improvements in Aeromedical Certification Services.

DATES: Written comments should be submitted by January 22, 2026.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: Dr. Katrina Avers by email at: Katrina.Avers@faa.gov; phone: 405-954-6299.

SUPPLEMENTARY INFORMATION:

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information.

OMB Control Number: 2120-0707.

Title: Survey of Airman Satisfaction with Aeromedical Certification Services.

Form Numbers: N/A.

Type of Review: Renewal of an information collection.

Background: The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on September 22, 2025 (90 FR 45459). The Federal Aviation Administration (FAA), through the Office of Aerospace Medicine (OAM), is responsible for the medical certification of pilots and certain other personnel under 14 CFR part 67 to ensure they are medically qualified to operate aircraft and perform their duties safely. In the accomplishment of this responsibility, OAM provides a number of services to pilots and has established goals for the performance of those services. This is a biennial survey designed to meet the requirement to survey stakeholder satisfaction under Executive Order No. 12862, "Setting Customer Service Standards," and the Government Performance and Results Act of 1993 (GPRA).

The survey of Airman Satisfaction with Aeromedical Certification Services assesses airman opinion of key dimensions of service quality. These dimensions, identified by the OMB Statistical Policy Office in the 1993 "Resource Manual for Customer

Surveys," are courtesy, competence, reliability, and communication. The survey also provides airmen with the opportunity to provide feedback on the services and a medical certificate application tool they use. This information is used to inform improvements in Aeromedical Certification Services.

The survey was initially collected in 2004 and collected approximately every 2 years, most recently in 2023 (OMB Control No. 2120-0707). Across collections, minor revisions have been made to the survey items and response options to reflect changes in operational services and survey technology. To reduce the burden on the individual respondent and potentially improve the response rate, this information collection will be electronic.

Respondents: Approximately 5,700 Airmen who have sought a medical certification within two years of the survey administration.

Frequency: Every two years.

Estimated Average Burden per

Response: 15 minutes.

Estimated Total Annual Burden: 1,425 total burden hours.

Issued in Oklahoma City, Oklahoma on December 22, 2025.

Tammy Ho,

Psychology Technician, NAS Human Factors Safety Research Laboratory (AAM-520).

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

[Docket No. DOT-OST-2025-1921]

Agency Requests for Renewal of a Previously Approved Information Collection: TAR Part 1239-Related

AGENCY: Office of the Secretary (OST), U.S. Department of Transportation (DOT).

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, and Office of Management and Budget (OMB) regulations, the Department of Transportation (DOT) invites public comments on currently approved Transportation Acquisition Regulation (TAR) part 1239 information collection requests (ICRs) and our intention to request OMB approval to renew the ICRs on an interim basis as abstracted below while DOT undertakes further review to streamline its regulations. The public will be afforded another opportunity to review revised
