SUPPLEMENTARY INFORMATION:
Description: The CJA Program Instruction, prepared in response to the enactment of the CJA Title I of Public Law 111–320, Child Abuse Prevention and Treatment Act Reauthorization of 2010, provides direction to the states and territories to accomplish the purposes of assisting states in developing, establishing, and operating programs designed to improve (1) the assessment and investigation of suspected child abuse and neglect cases, including cases of suspected child sexual abuse and exploitation, in a manner that limits additional trauma to the child and the child’s family; (2) the assessment and investigation of cases of suspected child abuse-related fatalities and suspected child neglect-related fatalities; (3) the investigation and prosecution of cases of child abuse and neglect, including child sexual abuse

and exploitation; and (4) the assessment and investigation of cases involving children with disabilities or serious health-related problems who are suspected victims of child abuse or neglect. This Program Instruction contains information collection requirements that are found in Public Law 111–320 at sections 107(b) and 107(d), and pursuant to receiving a grant award. The information being collected is required by statute to be submitted pursuant to receiving a grant award. The information submitted will be used by the agency to ensure compliance with the statute; to monitor, evaluate, and measure grantee achievements in addressing the investigation and prosecution of child abuse and neglect; and to report to Congress.
Respondents: State governments.

Annual Burden Estimates

The length of the CJA Program Instruction has been reduced by 18 percent from 17 pages to 14 pages. Edits have been made to remove requests for information not required by statute, reduce duplicative information, and simplify language. As a result of the reduction in the length of time needed to both read and respond to the Program Instruction, the estimated response burden has been lowered by 17 percent from 60 hours to 50 hours per response.
