

Frequency of response: Initially.
Total estimated burden: 584 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$80,000 (per year). There are no annualized capital or operation & maintenance costs.

Changes in the estimates: The increase in burden from the most recently approved ICR is due to an adjustment(s). The adjustment increase in burden from the most recently approved ICR is due to an increase in the estimated number of existing respondents. The previous ICR documented 200 sources, but after a current ECHO database search, the number of respondents estimated in this ICR is 254. The growth rate remains at zero new sources per year.
