NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. This action is required by 50 CFR 622.388(a)(1)(iii), which was issued pursuant to section 304(b) of the Magnuson-Stevens Act, and is exempt from review under Executive Order 12866.

Pursuant to 5 U.S.C. 553(b)(B), there is good cause to waive prior notice and an opportunity for public comment on this action, as notice and comment is unnecessary and contrary to the public interest. Such procedure is unnecessary because the regulations associated with the commercial AM and commercial ACL for Gulf king mackerel have already been subject to notice and public comment, and all that remains is to notify the public of the adjusted commercial ACL for the 2025–2026 fishing year. Prior notice and opportunity for public comment are contrary to the public interest because of the need to notify the industry in advance of the next commercial fishing season.

For the reasons just stated, there is good cause under 5 U.S.C. 553(d)(3) to waive the 30-day delay in effectiveness of this action.

**Authority:** 16 U.S.C. 1801 *et seq.*

Dated: December 23, 2025.

[Docket No. 241203–0308; RTID 0648–XF459]

**Fisheries of the Northeastern United States; Summer Flounder Fishery; Quota Transfer From North Carolina to New Jersey**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Temporary rule; quota transfer.

**SUMMARY:** NMFS announces that the State of North Carolina is transferring a portion of its 2025 commercial summer flounder quota to the State of New Jersey. This adjustment to the 2025 fishing year quota is necessary to comply with the Summer Flounder,

Scup, and Black Sea Bass Fishery Management Plan (FMP) quota transfer provisions. This announcement informs the public of the revised 2025 commercial quotas for North Carolina and New Jersey.

**DATES:** Effective December 29, 2025, through December 31, 2025.

**FOR FURTHER INFORMATION CONTACT:**

Matthew Rigdon, Fishery Management Specialist, (978) 281–9336.

**SUPPLEMENTARY INFORMATION:**

Regulations governing the summer flounder fishery are found in 50 CFR 648.100 through 648.111. These regulations require annual specification of a commercial quota that is apportioned among the coastal states from Maine through North Carolina. The process to set the annual commercial quota and the percent allocated to each state is described in § 648.102, and the final 2025 allocations were published on December 10, 2024 (89 FR 99138).

The final rule implementing amendment 5 to the FMP, as published in the **Federal Register** on December 17, 1993 (58 FR 65936), provided a mechanism for transferring summer flounder commercial quota from one state to another. Two or more states, under mutual agreement and with the concurrence of the NMFS Greater Atlantic Regional Administrator, can transfer or combine summer flounder commercial quota under § 648.102(c)(2). The Regional Administrator is required to consider three criteria in the evaluation of requests for quota transfers or combinations: (1) the transfers or combinations would not preclude the overall annual quota from being fully harvested; (2) the transfers address an unforeseen variation or contingency in the fishery; and (3) the transfers are consistent with the objectives of the FMP and the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). The Regional Administrator has determined these three criteria have been met for the transfer approved in this notification.

North Carolina is transferring 125,000 pounds (lb; 56,699 kilograms (kg)) of summer flounder to New Jersey through a mutual agreement between the states. This transfer was requested to ensure that New Jersey would not exceed its 2025 state quota. The revised summer flounder quotas for 2025 are: North Carolina, 2,107,603 lb (955,993 kg); and New Jersey, 1,595,098 lb (723,524 kg).
