

*Needs and Uses:* Defense Manpower Data Center (DMDC) has implemented the Office of Personnel Management (OPM) Verification portal to provide a self-service, easy to use, navigable public facing website that allows individuals potentially impacted by the OPM data breach to securely provide personal identifiable information in order to investigate their eligibility for credit monitoring as a result of being affected by the OPM background investigation data breach without calling a Government call center. The information collected will be used only to verify whether an individual was impacted by the OPM cybersecurity incident involving background investigation records. Once the minimally required information has been entered into the OPM Verification portal, it will be compared to an electronic master file and verification will be accomplished electronically. After the Government has validated the individual's status, DMDC provides the information electronically to OPM and Defense Logistics Agency (DLA) for subsequent processing.
