SUPPLEMENTARY INFORMATION:

A. Need For and Use of the Information Collection

Section 10b of the Federal Home Loan Bank Act (Bank Act) establishes the requirements for making Federal Home Loan Bank (Bank) advances (secured loans) to nonmember mortgagees, which are referred to as “Housing Associates” in FHFA’s regulations.¹ Section 10b also establishes the eligibility requirements an applicant must meet in order to be certified as a Housing Associate.

Part 1264 of FHFA’s regulations implements the statutory eligibility requirements and establishes uniform review criteria the Banks must use in evaluating applications from entities that wish to be certified as a Housing Associate. Specifically, § 1264.4 implements the statutory eligibility requirements and provides guidance to an applicant on how it may satisfy those requirements.² Section 1264.5 authorizes the Banks to approve or deny all applications for certification as a Housing Associate, subject to the statutory and regulatory requirements.³ Section 1264.6 permits an applicant that has been denied certification by a Bank to appeal that decision to FHFA.⁴

In part 1266 of FHFA’s regulations, subpart B governs Bank advances to Housing Associates that have been approved under part 1264. Section 1266.17 establishes the terms and conditions under which a Bank may make advances to Housing Associates.⁵ Specifically, § 1266.17(e) imposes a continuing obligation on each certified Housing Associate to provide information necessary for the Bank to determine if it remains in compliance with applicable statutory and regulatory requirements, as set forth in part 1264.

The OMB control number for the information collection, which expires on January 31, 2026, is 2590–0001. The likely respondents include entities applying to be certified as a Housing Associate and current Housing Associates.

B. Burden Estimates

FHFA estimates the total annualized hour burden imposed upon respondents by this information collection to be 314 hours (14 hours for applicants + 300 hours for current Housing Associates), based on the following calculations:

I. Applicants

FHFA estimates that the total annual average number of entities applying to

¹ See 12 U.S.C. 1430b; 12 CFR 1264.3.

² See 12 CFR 1264.4.

³ See 12 CFR 1264.5.

⁴ See 12 CFR 1264.6.

⁵ See 12 CFR 1266.17.

be certified as a Housing Associate over the next three years will be one, with one response per applicant. The estimate for the average hours per application is 14 hours. Therefore, the estimate for the total annual hour burden for all applicants is 14 hours (1 applicant \times 1 response per applicant \times 14 hours = 14 hours).

II. Current Housing Associates

FHFA estimates that the total annual average number of existing Housing Associates over the next three years will be 75, with one response per Housing Associate required to comply with the regulatory reporting requirements. The estimate for the average hours per response is 4 hours. Therefore, the estimate for the total annual hour burden for current Housing Associates is 300 hours (75 certified Housing Associates \times 1 response per associate \times 4 hours = 300 hours).

C. Comments Request

In accordance with the requirements of 5 CFR 1320.8(d), FHFA published an initial notice and request for public comments regarding this information collection in the **Federal Register** on August 20, 2025.⁶ The 60-day comment period closed on October 20, 2025. FHFA received no comments.

FHFA requests written comments on the following: (1) Whether the collection of information is necessary for the proper performance of FHFA functions, including whether the information has practical utility; (2) the accuracy of FHFA's estimates of the burdens of the collection of information; (3) ways to enhance the quality, utility, and clarity of the information collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

ACTION: Notice.

SUMMARY: In compliance with the requirement for opportunity for public comment on proposed data collection projects of the Paperwork Reduction Act of 1995, HRSA announces plans to submit an Information Collection Request (ICR), described below, to the Office of Management and Budget (OMB). Prior to submitting the ICR to OMB, HRSA seeks comments from the public regarding the burden estimate, below, or any other aspect of the ICR.

DATES: Comments on this ICR should be received no later than March 2, 2026.

ADDRESSES: Submit your comments to paperwork@hrsa.gov or mail the HRSA Information Collection Clearance Officer, Room 13N82, 5600 Fishers Lane, Rockville, Maryland 20857.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the data collection plans and draft instruments, email paperwork@hrsa.gov or call Samantha Miller, the HRSA Information Collection Clearance Officer, at (301) 443–3983.

SUPPLEMENTARY INFORMATION: When submitting comments or requesting information, please include the ICR title for reference.

Information Collection Request Title: Bureau of Health Workforce Health Workforce Connector OMB No. 0906–0031–Revision.

Abstract: The Health Workforce Connector's (HWC) goal is to help connect skilled professionals to communities in need by allowing approved site points of contact (POCs) at National Health Service Corps (NHSC), Nurse Corps Scholarship and Loan Repayment Programs (Nurse Corps), Substance Use Disorder Treatment and Recovery (STAR) Loan Repayment Program, Pediatric Specialty (PS) Loan Repayment Program, Nursing Training, and Teaching Health Center Graduate Medical Education (THCGME) sites to post available opportunities and update site profiles. The HWC provides a central platform to connect

participants, including but not limited to those in the NHSC, Nurse Corps, STAR, PS, Nursing Training, and THCGME programs with facilities that are approved for their programs. The HWC has become a resource that connects any health care professional or student interested in providing primary care services in underserved communities with facilities in need of health care providers. The HWC also allows users to create a profile, search for approved sites, find job and training opportunities, and connect with other clinicians who are similarly interested in working with underserved populations. The HWC is searchable by site POCs. Individuals can use the HWC's search capability with Google Maps.

Need and Proposed Use of the Information: Information will be collected from users in two ways:

(1) Account Creation: For job seekers, creating an account is optional. To create an account the user must enter their first name, last name, and email address. Those mandatory fields will be used to send an automated email allowing the user to validate their login credentials. In addition, for job seekers participating in the programs listed above, their HWC account will be linked to their existing program file in the Bureau of Health Workforce Management Information Systems Solution database and allow an initial import of existing data at the request of the user.

(2) Profile Completion: Users may fill out a profile, but this function will be optional and includes fields such as location, discipline, specialty, and languages spoken. The information collected, if published by the user, can be searched by approved site POCs seeking potential candidates for health care job opportunities at their site. Job seekers also can set their security and privacy settings on their accounts to make their profiles searchable by other end users or private at any time. In addition, all information collected through the HWC will be stored within existing secure Bureau of Health Workforce Management Information Systems Solution databases and will be used internally for report generation on an as-needed basis.

HRSA is requesting a revision and is seeking to use the previously approved forms. The revisions are because of an increase in the estimated annual burden due to an increase in web page traffic, leading to an increase in the number of accounts created.

Likely Respondents: Potential users include individuals searching for a health care job opportunity at a NHSC,
