

information collected helps ensure that the proposals are evaluated by specialists who are well versed in appropriate subject matter. This helps maintain a fair and equitable review process.

The third use of the information is program evaluation. The Directorate is committed to investing in a range of substantive areas. With data from this collection, the Directorate can calculate submission rates and funding rates in specific areas of research. Similarly, the information can be used to identify emerging areas of research and evaluate changing infrastructure needs in the research community. As the U.S. National Science Foundation is committed to funding cutting-edge science, these factors all have implications for program management.

The Directorate of Biological Sciences has a continuing commitment to monitor its information collection to preserve its applicability and necessity. Through periodic updates and revisions, the Directorate ensures that only useful, non-redundant information is collected to reduce excessive reporting burdens.

Burden on the Public: The Directorate estimates that an average of 25 minutes is expended for each NSF Application Form A submitted and an average of 150 minutes is expended for each reference writer recommendation added. An estimated 1200 responses are expected per year for a total of 2167 public burden hours annually.

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-335 and 50-389; EISX-429-00-000-1765783975; NRC-2021-0197]

Florida Power & Light Co.; St. Lucie Plant, Units 1 and 2; Draft Environmental Impact Statement

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice; request for comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC, the Commission) is issuing for public comment "Generic Environmental Impact Statement for License Renewal of Nuclear Plants, Supplement 11, Second Renewal, Regarding Subsequent License Renewal for St. Lucie Plant, Units 1 and 2, Draft Report for Comment." This draft environmental impact statement (EIS) concerns the NRC staff's review of the environmental impacts of the proposed subsequent renewal of Renewed Facility Operating License Nos. DPR-67 and NPF-16 for St. Lucie Plant, Units 1 and 2 (St. Lucie), respectively, for an additional 20 years. St. Lucie is located in St. Lucie County, Florida, approximately 7 miles southeast of the city of Fort Pierce, Florida. The environmental impacts of the no-action alternative, including replacement energy alternatives under the no-action alternative, are also evaluated in the EIS.

DATES: Members of the public are invited to submit comments by February 23, 2026. Comments received after this date will be considered if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before this date.

ADDRESSES: You may submit comments by any of the following methods; however, the NRC encourages electronic comment submission through the Federal rulemaking website:

- **Federal Rulemaking Website:** Go to <https://www.regulations.gov> and search for Docket ID NRC-2021-0197.
