

Defense Services Proposed to be Sold:
See Attached Annex

(viii) *Date Report Delivered to Congress:* April 15, 2025

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Kingdom of Morocco—FIM-92K Stinger Block I Missiles

The Kingdom of Morocco has requested to buy up to six hundred (600) FIM-92K Stinger Block I missiles. The following non-MDE items will also be included: U.S. Government and contractor engineering, logistics, and technical support services; and other related elements of logistics and program support. The estimated total cost is \$825 million.

This proposed sale will support the foreign policy and national security of the U.S. by helping to improve the security of a major non-NATO ally that continues to be an important force for political stability and economic progress in North Africa.

The proposed sale will improve Morocco's capability to meet current and future threats. Morocco intends to use these defense articles and services to modernize its armed forces and expand its existing army short range air defense options. This will contribute to the Moroccan Army's goals of updating capability and further enhancing interoperability with the U.S. and other allies. Morocco will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be RTX Corporation, located in Tucson, AZ; and Lockheed Martin, located in Syracuse,

NY. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to the Kingdom of Morocco.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 25-12

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The FIM-92K Stinger Block I missile is a lightweight, self-contained air defense system that can be rapidly deployed by ground troops. Its seeker and guidance systems enable the weapon to acquire, track, and engage a target with one shot.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

3. A determination has been made that the Kingdom of Morocco can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government.

This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

4. All defense articles and services listed in this transmittal have been authorized for release and export to the Kingdom of Morocco.

Washington, DC 20515

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(5)(C) of the Arms Export Control Act (AECA), as amended, we are forwarding Transmittal No. 24-1D. This notification relates to enhancements or upgrades from the level of sensitivity of technology or capability described in the Section 36(b)(1) AECA certification 09-36 of July 17, 2009.

Sincerely,

Michael F. Miller
Director

1. Transmittal

BILLING CODE 6001-FR-C

Transmittal No. 24-1D

**REPORT OF ENHANCEMENT OR
UPGRADE OF SENSITIVITY OF
TECHNOLOGY OR CAPABILITY (SEC.
36(B)(5)(C), AECA)**

(i) *Purchaser:* Government of
Australia

(ii) *Sec. 36(b)(1), AECA Transmittal
No.:* 09-36

Date: July 17, 2009

Military Department: Air Force

(iii) *Description:* On July 17, 2009, Congress was notified by congressional certification transmittal number 09-36 of the possible sale, under Section 36(b)(1) of the Arms Export Control Act (AECA), to continue participation in the USAF/Boeing Globemaster III

Sustainment Partnership (GSP) which consists of support for Australia's fleet of four (4) Boeing C-17A Globemaster III cargo aircraft, contractor technical and logistics personnel services, support equipment, spare and repair parts, and other related elements of logistics support. The estimated cost was \$300 million. There was no Major Defense Equipment (MDE) associated with this sale.

On May 19, 2014, Congress was notified by congressional certification transmittal number 14-0C, under section 36(b)(5)(C) of the AECA, of the inclusion of additional Contractor Logistics Support (CLS) to support Australia's fleet of C-17 Globemaster III cargo aircraft, which increased from four (4) to six (6). The total case value

was increased by \$150 million, resulting in a total case value of \$450 million. There was no MDE associated with this sale.

On December 1, 2017, Congress was notified by congressional certification transmittal number 17-0A, under section 36(b)(5)(C) of the AECA, of the further inclusion of additional funding to maintain Australia's participation in the USAF/Boeing Globemaster III Sustainment Partnership (GSP) through 2022. Additionally, Australia's fleet of C-17A Globemaster III cargo aircraft increased from six (6) to eight (8). Support included contractor technical and logistics support services; support equipment; spare and repair parts; and other related elements of logistics support. The total case value increased

by \$400 million, resulting in a total case value of \$850 million. There was no MDE associated with this sale.

This transmittal reports the addition of the following non-MDE items: Contractor Logistics Support (CLS) services; major modifications and maintenance support; personnel training and training equipment; United States (U.S.) Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The estimated total value of the new items is \$4.03 billion. The estimated total case value will increase by \$4.03 billion to a revised \$4.88 billion. There is no MDE associated with this sale.

(iv) *Significance*: This proposed sale will support Australia's ability to effectively maintain its current force projection capability that enhances interoperability with U.S. forces, well into the future.

(v) *Justification*: This proposed sale will support the foreign policy and

national security of the U.S. by helping to improve the security of an important major non-NATO ally and partner which contributes significantly to peacekeeping, humanitarian, and combat operations around the world.

(vi) *Sensitivity of Technology*:

The highest level of classification of defense articles, components, and services included in this potential sale is UNCLASSIFIED.

(vii) *Date Report Delivered to Congress*: December 17, 2024
