

POLICY JUSTIFICATION*Israel—Eitan Powerpack Engines*

The Government of Israel has requested to buy additional Eitan 8V199TE21–D powerpack engines and engine components that will be added to a previously implemented case whose value was under the congressional notification threshold. The original Foreign Military Sales (FMS) case, valued at \$85.5 million (\$0 in MDE), included Eitan 8V199TE21–D powerpack engines and engine components; U.S. Government and contractor technical assistance; contractor non-recurring engineering; and other related elements of logistics and program support. This notification is for a combined notification of non-MDE Eitan 8V199TE21–D powerpack engines and engine components; U.S. Government and contractor technical assistance; contractor non-recurring engineering; and other related elements of logistics and program support. The estimated total cost is \$180 million.

The U.S. is committed to the security of Israel, and it is vital to U.S. national interests to assist Israel to develop and maintain a strong and ready self-defense capability. This proposed sale is consistent with those objectives.

The proposed sale will enhance Israel's capability to meet current and future threats by improving its ability to defend Israel's borders, vital infrastructure, and population centers. This proposed sale will increase the interoperability with U.S. forces and conveys U.S. commitment to Israel's security and armed forces modernization. Israel will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Rolls-Royce Solutions America, Inc., located in Novi, MI. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Israel.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

(viii) *Date Report Delivered to Congress:* December 20, 2024

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Kingdom of Morocco—Advanced Medium Range Air-to-Air Missiles

The Kingdom of Morocco has requested to buy up to thirty (30) AIM-120C-8 Advanced Medium Range Air-to-Air Missiles (AMRAAM) and one (1) AIM-120C-8 AMRAAM guidance section. Also included are AMRAAM telemetry kits, control section spares, and containers; Common Munitions Built-in-Test Reprogramming Equipment (CMBRE); ADU-891 Computer Test Set Adapter Groups; munitions support and support equipment; classified software delivery and support; spare parts, consumables, accessories, and repair and return support; transportation support; classified publications and technical documentation; studies and surveys; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The estimated total cost is \$88.37 million.

This proposed sale will support the foreign policy and national security of the U.S. by helping to improve the security of a major non-NATO Ally that continues to be an important force for political stability and economic progress in North Africa.

The proposed sale will improve the Kingdom of Morocco's capability to meet current and future threats by ensuring it has modern, capable air-to-air munitions to meet its mission in securing its borders and territorial waters, countering terrorism and illicit trafficking, and using its newly acquired F-16 Block 72 fleet. The Kingdom of Morocco will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be RTX Corporation located in Tucson, AZ. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to the Kingdom of Morocco.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 24-20

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The AIM-120C-8 Advanced Medium Range Air-to-Air Missile (AMRAAM) is a supersonic, air-launched, aerial intercept guided missile featuring digital technology and micro-miniature solid-state electronics. AMRAAM capabilities include look-down and shoot-down, multiple launches against multiple targets, resistance to electronic countermeasures, and interception of high-flying and low-flying and maneuvering targets.

2. Common Munitions Built-In-Test (BIT)/Reprogramming Equipment (CMBRE) is supporting equipment used to interface with weapon systems to initiate and report BIT results and to upload and download flight software.

3. The ADU-891 Adapter Group Test Set provides the physical and electrical interface between the CMBRE and the missile.

4. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

5. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used

to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

6. A determination has been made that the Kingdom of Morocco can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

7. All defense articles and services listed in this transmittal have been authorized for release and export to the Kingdom of Morocco.
